

25 January 2024

ASX Announcement: DXN

December 2023 Quarterly Report

The Board of prefabricated modular Data Centre specialist, DXN Limited ("DXN" or "the Company"), is pleased to provide its quarterly report and Appendix 4C for the three months ended 31 December 2023.

Highlights

- DXN exited its Sydney data centre, thereby saving approximately \$1.4m in cash costs per year in lease liabilities over the remaining nine years of the lease.
- DXN signed binding commitments for equity placements to raise A\$2.1m to facilitate the exit from the Sydney lease, repay some existing liabilities, and provide working capital for growth of its modular data centre division.
- DXN received a notification of award to build a modular cable landing station for a consortium of government-owned enterprises. This is a significant win for the Company with an expected total contract value of approximately A\$5.5m, subject to successful completion of contract negotiations, which is progressing well.
- In December 2023, DXN signed a contract with Stanmore SMC Pty Ltd a wholly owned subsidiary of Stanmore Resources Limited (ASX: SMR), for the design, supply and install of a modular data centre (DXN Module) with a total contract value of A\$1.9m.
- Revenue for the quarter of \$2.79m increased 58% over the previous quarter (\$1.76m).

Operating Update

Sydney Lease Deed of Surrender

DXN and the landlord of its Sydney data centre located at 5 Parkview Drive, Sydney, Olympic Park, NSW (**Sydney site**) has signed a Deed of Surrender. This will facilitate an exit from the Sydney site lease with a deferred settlement payment over 14 months of A\$800,000 which includes back-rent and rent payable until settlement date.

DXN will surrender the Sydney site by mid-March 2024 and will undertake the decommissioning of its modular data centre equipment in the facility. The cost of decommissioning is expected to be offset by proceeds from sales of the decommissioned and repurposed modules to customers.

DXN's exit from the Sydney lease obligations will save the Company approximately A\$1.4m in cash costs per year on a pro-rata basis excluding the surrender payment.

Equity Raising

DXN executed binding commitments to raise A\$2.1m from existing shareholders and new investors (**Placement**). The Placement was executed at 0.2cps (\$0.002 per share).

Proceeds from the Placement will be utilised to:

- provide the capital required to facilitate the exit of the Sydney site lease;
- repay some liabilities and creditors; and
- fund the working capital requirements of the Modular Division, including the large cable landing station project for which DXN has received notification of an award.

The Placement has been completed in two tranches with 430M shares issued under Tranche 1 in December 2023 (completed), and 620M shares to be issued under Tranche 2 in January 2024 (approved by shareholders and in the process of being settled as of the time of this announcement).

Modular Data Centre Manufacturing

DXN was notified of an award to build modular cable landing stations for a consortium of government owned enterprises. Subject to the successful completion of negotiations, the contract is expected to have a total contract value of approximately A\$5.5m and be delivered within 12 months from project commencement.

DXN signed a contract with Stanmore SMC Pty Ltd, a wholly owned subsidiary of Stanmore Resources Limited (ASX: SMR), for the design, supply and install of a prefabricated modular data centre with a total contract value of A\$1.9m. Deployment will be for the South Walker Creek mine in QLD to support future operations and future technologies across the mine site.

This contract is in addition to contracts reported in previous quarters for:

- i) The supply and installation of a Cable Landing Station (**CLS**) with the Government of Timor-Leste for a total contract value of ~USD\$1.4m (A\$2.1m), announced in September 2023.
- ii) Two modules for Pilbara Minerals Ltd, with a total contract value of \$1.8m, announced in June 2023.
- iii) A module for Anglo-American for a total contract of A\$1.15m, announced in April 2023.

Data Centre Operations

DXN's data centres continue to operate in line with expectations, with revenue for the December quarter of A\$761k (previous quarter A\$750k).

DXN continues to review various options to sell or divest one or both of its data centre assets, thereby providing the opportunity to partially repay existing debt facilities and invest further in the Modular Division's growth opportunities.

Summary Of Payments

During the December quarter the Company's payments included the following:

- product manufacturing and operating costs of A\$877k (previous quarter A\$623k) as the Company increased production to meet new module orders (as explained above);
- staff costs of A\$736k (previous quarter A\$711k);
- administration and corporate of A\$513k (previous quarter A\$595k) due to further cost reductions; and
- leased assets of A\$274k (previous quarter A\$178k) in relation to payments to the Sydney landlord, in the previous quarter 'funds held' with the landlord were used to pay rent.

Operating Cash Flow

DXN had a negative operating cash flow for the December quarter due primarily to increased operating costs associated with the increase in module orders ahead of modules reaching agreed manufacturing milestones to generate invoices and revenue receipts.

Cash Position

As of 31 December 2023, DXN had a cash balance of A\$1.09m (previous quarter A\$440k).

Related Party Payments

The aggregate payments to related parties and their associates included in the December quarter totaled A\$43k. These payments consisted of director's fees, salaries, and superannuation for non-executive

directors. All payments are made on normal commercial terms.

Corporate

The Company held its AGM on 20 November 2023 and all resolutions were approved by shareholders.

After quarter end, the Company held a general meeting of shareholders on 22 January 2024 where shareholders ratified an issue of 430M ordinary shares issued under Tranche 1 of the placement; approved an issue of 545M ordinary shares under Tranche 2 of the placement; approved an issue of 75M shares to directors participating under the Tranche 2 capital raise, approved an issue of 70M options to directors; and approved a consolidation of capital on the basis of every 15 ordinary shares being consolidated into 1 ordinary share in DXN.

Outlook

Following completion of the placement, to raise A\$2.1m, the Company has the capacity to further expand the Data Centre Modular Manufacturing business. Given the experience and expertise in this line of business and the continued cost restructuring program to streamline business operations across its Data Centre Operations, the Company is expecting to reach operating breakeven and profitability in 2024.

The DXN team has secured 45 module sales within the last three years with demand for modular cable landing stations and prefabricated data centres continuously growing in Australia and South-east Asia. Prefabricated custom-built modular data centres have strong structural demand with sales currently averaging one per month (A\$1-2m average revenue).

The new customer pipeline has been materially expanded and additional new orders are expected during the remainder of FY24.

Release authorised by the Board.

About DXN Limited

DXN is Asia Pacific's only vertically integrated manufacturer and operator of modular data centres. DXN's core business is designing, engineering, manufacturing, maintaining and operating data centres.

The Company a leading provider across the Asia Pacific region with a significant track record with major government and blue-chip enterprise customers.

It has two core divisions that provide a complete symbiotic relationship. These divisions are:

1. Modular Division – designs, engineers, manufactures, and deploys EDGE facilities and critical DC infrastructure; and
2. Data Centre Operations - operates, maintains and markets data centres and critical infrastructure for our own DXN data centres as well as our modular customers. For more <https://dxn.solutions>.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
