

## ASX Announcement

### Cell therapy specialist Dr Bradley Glover appointed as COO

---

**Sydney, Australia, 21 August 2023:** Imugene Limited (ASX: IMU), a clinical stage immuno-oncology company, is pleased to announce the appointment of Dr Bradley Glover as the Company's Chief Operating Officer.

Dr Glover brings a wealth of experience to Imugene, with a career spanning various sectors such as cell therapy, biopharmaceuticals, diagnostics, venture capital, finance, research and development, and education. He has demonstrated expertise in deal negotiations, strategic collaborations, acquisitions, and licensing agreements. Additionally, he has made significant academic contributions, with published research articles in biochemistry and genetics.

Prior to joining Imugene, Dr Glover served as the Executive Vice President and Chief Operating Officer at Celularity, playing a pivotal role in strategic planning, business development, and technical operations. Prior to this he was Vice President and Head of Corporate Strategy & Operations at renowned cell therapy company Kite Pharma, overseeing global corporate strategy, planning, portfolio management, product and program management, and global business transformation.

Dr Glover also brings eight years' experience at Genentech / Roche, where he held leadership positions, concentrating on business development, integration, and strategic planning. Notably, he helped lead the integration of Roche's acquisitions, totalling ~\$1.2B, for its Diagnostics Sequencing business.

Dr Glover holds a PhD in Biochemistry & Molecular Genetics from the University of Colorado and an MBA in Marketing & Finance from the Rady School of Management, University of California San Diego.

Imugene MD and CEO Leslie Chong said: "Dr Glover is a very welcome addition to Imugene and our executive team. His extensive expertise, especially in operations and strategic planning, will be invaluable as we advance our technology pipeline. Dr Glover's profound industry knowledge and experience positions him well within our world-class team."

## **About Imugene (ASX:IMU)**

Imugene is a clinical stage immuno-oncology company developing a range of new and novel immunotherapies that seek to activate the immune system of cancer patients to treat and eradicate tumours. Our unique platform technologies seek to harness the body's immune system against tumours, potentially achieving a similar or greater effect than synthetically manufactured monoclonal antibody and other immunotherapies. Our pipeline includes an off-the-shelf (allogeneic) cell therapy CAR T drug azer-cel

(azercabtagene zapreleucel) which targets CD19 to treat blood cancers. Our pipeline also includes multiple immunotherapy B-cell vaccine candidates and an oncolytic virotherapy (CF33) aimed at treating a variety of cancers in combination with standard of care drugs and emerging immunotherapies such as CAR T's for solid tumours. We are supported by a leading team of international cancer experts with extensive experience in developing new cancer therapies with many approved for sale and marketing for global markets.

Our vision is to help transform and improve the treatment of cancer and the lives of the millions of patients who need effective treatments. This vision is backed by a growing body of clinical evidence and peer-reviewed research. Imugene is well funded and resourced, to deliver on its commercial and clinical milestones. Together with leading specialists and medical professionals, we believe Imugene's immuno-oncology therapies will become foundation treatments for cancer. Our goal is to ensure that Imugene and its shareholders are at the forefront of this rapidly growing global market.
