About Respiri Limited

Respiri Limited (ASX:RSH, OTCQB:RSHUF) is an international e-Health SaaS company supporting respiratory health management focusing primarily on supporting the US remote patient monitoring market. Its world-first technology detects wheeze, a typical symptom of Asthma, COPD and respiratory disease to provide an objective measure of airway limitation. Respiri created technology optimises how patients in partnership with their physicians manage chronic respiratory conditions. These solutions can help transform the way physicians interact with respiratory patients while they are away from the clinic. wheezo®, is an FDA cleared Class II Medical Device, the respiri™ app (patient-user-interface) and the secure health portal can help different health organisations and providers connect with patients to improve collaboration and help improve respiratory condition management. In the USA, wheezo® can be integrated into Remote Patient Monitoring (RPM) programs and qualifies for RPM Current Procedural Terminology (CPT) reimbursement.

Respiri's mission is to help improve quality of life for hundreds of millions of children and adults around the world with respiratory disorders and dramatically reduce hospital admissions and the economic burden of Asthma and COPD. Respiri Limited's operations are based in Melbourne, Australia with offices in New York City, USA.
