About QANTM Intellectual Property

QANTM Intellectual Property Limited (QANTM, ASX: QIP) is the owner of a group of leading intellectual property (IP) services businesses operating in Australia, New Zealand, Singapore, Malaysia and Hong Kong under key brands Davies Collison Cave, DCC Advanz Malaysia, Davies Collison Cave Law, FPA Patent Attorneys, and Sortify.tm Ltd (including Sortify's brands – DIY Trademarks, Trademarks Online and Trademark Planet). With more than 150 highly qualified professionals, the businesses within the QANTM Group have a strong track record in providing a comprehensive suite of services across the IP value chain to a broad range of Australian and international clients, ranging from start-up technology businesses to Fortune 500 multinationals, public research institutions and universities.

3. Drivers of growth across our three operating businesses
4. Outlook

Disclaimer

This presentation has been prepared by QANTM Intellectual Property Limited ACN 612 441 326 ("QANTM" or the "Company"). The information contained in this presentation is for information purposes only and has been prepared for use in conjunction with a verbal presentation and should be read in that context.

The information contained in this presentation is not investment or financial product advice and is not intended to be used as the basis for making an investment decision. Please note that, in providing this presentation, QANTM has not considered the objectives, financial position or needs of any particular recipient. QANTM strongly suggests that investors consult a financial advisor prior to making an investment decision.

No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of QANTM, its related bodies corporate or its shareholders nor their respective directors, officers, employees, agents nor advisors, nor any other person, accepts any liability, including, without limitation, any liability arising out of fault or negligence for any loss arising from the use or application of information contained in this presentation.

This presentation may include "forward looking statements" within the meaning of securities laws of applicable jurisdictions.

Forward looking statements can generally be identified by the use of the words "anticipate", "believe", "expect", "project", "forecast", "estimate", "likely", "intend", "should", "could", "may", "target", "plan", "guidance" and other similar expressions. Indications of, and guidance on, future earning or dividends and financial position and performance are also forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of QANTM and its related bodies corporate, together with their respective directors, officers, employees, agents or advisers, that may cause actual results to differ materially from those expressed or implied in such statement. Actual results, performance or achievements may vary materially from any forward looking statements and the assumptions on which those statements are based. Readers are cautioned not to place undue reliance on forward looking statements and QANTM assumes no obligation to update such information. Specific regard should be given to the risk factors outlined in this presentation (amongst other things).

This presentation is not, and does not constitute, an offer to sell or the solicitation, invitation or recommendation to purchase any securities and neither this presentation nor anything contained in it forms the basis of any contract or commitment.

Certain financial data included in this presentation is not recognised under the Australian Accounting Standards and is classified as 'non-IFRS financial information' under ASIC Regulatory Guide 230 'Disclosing non-IFRS financial information' (RG 230). This non-IFRS financial information provides information to users in measuring financial performance and condition. The non-IFRS financial information does not have standardised meanings under the Australian Accounting Standards and therefore may not be comparable to similarly titled measures presented by other entities, nor should they be interpreted as an alternative to other financial measures determined in accordance with the Australian Accounting Standards. No reliance should therefore be placed on any financial information, including non-IFRS financial information and ratios, included in this presentation. All financial amounts contained in this presentation are expressed in Australian dollars and rounded to the nearest \$0.1 million unless otherwise stated. Any discrepancies between totals and sums of components in tables contained in this presentation may be due to rounding.

industry awards

received (2022-2023 FY) including
MIP's Top 250 Women in IP

**Ranked highly across 9
renowned industry awards**
including Best Lawyers
Law Firm of the Year – IP

Market and industry overview

IP lifecycle revenue stages

Main revenue components of the IP Lifecycle:

- Filing, prosecution, maintenance/renewal phases, with potential for advisory, legal/litigation services.
- Originating application work for new inventions, at a pre-filing stage, also generates revenue.

National Application Lifecycle – Patents and Trade Marks

- Revenue generation at initial pre-filing stages of searching or drafting, throughout the filing, prosecution and grant/registration lifecycle, as well as later maintenance and potential advisory stages.
- Client relationships tend to be long term and stable – 20 years+.
- Client arrangements can be national, regional, multi-national.

IP lifecycle revenue stages

Single international application matures into separate applications in each country/region of interest.

Separate patents ultimately granted in each country/region.

Reciprocal arrangements internationally generate additional revenue streams.

International patent application process

Depth and breadth of industry coverage

~2,250 clients across the Group

No individual client accounts for >2% of revenue

Local and International clients

Longstanding relationships
5, 10, 20+ years

Agriculture, agrichemicals, food, nutrition

Arts, Marketing, Media

Biotechnology

Building & Construction

Clean Technology, Energy

Industrial Chemicals

Materials Science

Medical Devices & Technology

Mining & Resources

Nano Technology

Consumer Products & Design

Electrical & Electronic Engineering

Fashion, Architecture & Design

Food, Beverages, FMCG

ICT & Software

Pharmaceuticals & Chemistry

Physics & Engineering

Plant Breeder's Rights

University & Applied Research

DCC Law

Growth has continued to be resilient with Asia increasingly dominant

Industry Context

- From 1883 to 1963, the USA was the leading office for world filings.
- Japan and Korea accelerated through the 70's, 80's and 90's.
- Since 2011, China has received the most applications globally.
- Asia has grown from 54.6% of world filings in 2011 to 67.6% in 2022.
- USA and Europe remain critical markets.

QANTM Context

- DCC Singapore office opened in 2015.
- Advanz Fidelis Malaysia was acquired in 2017 (and became DCC Advanz in 2022).
- FPA Singapore office opened in 2018.
- DCC Hong Kong office opened in 2022.
- Looking to further expand in Asia (e.g. Thailand, Indonesia, India) through M&A/strategic alliances/new offices.
- DCC and FPA are highly active and well regarded firms across Asia.
- Asia now ~16% of Group filings, and expected to continue to grow rapidly.

Two-thirds of patent filings activity worldwide took place in Asia in 2022.

Patent applications by region, 2011 and 2022

The role of IP in innovation

For more than a century innovation activity has grown substantially around the world.

Driven by a series of technological breakthroughs from the internal combustion engine, to information and communication technologies, innovation has become one of the most powerful tools at our disposal for advancing overall welfare and wellbeing.

Daren Tang
Director General
World Intellectual Property
Organization (WIPO)

Diverse technologies have driven innovation growth over the past 100 years

Source: World Intellectual Property Report, 2022

Industry Characteristics

- IP industry growth broadly correlates with global sentiment around R&D
- As economies develop, industry and regulatory policy leads to investment in technology
- This leads to investment in IP protection
- Trends, in both short and long term, are for consistent growth, with a high degree of resilience
- Whilst some industry sectors may decline, others emerge (e.g. emergence of digital technologies over past 20 years, and continued evolution within that sector)

Global Innovation Tracker Dashboard

Science and innovation investments

Short term	Scientific publications 2019 → 2020	R&D expenditures		International patent filings 2019 → 2020	Venture capital deals 2019 → 2020
		Total 2018 → 2019	Business 2018 → 2019		
	7.6%	8.5%	7.2%	3.5%	5.8%
Long term	5.4% 2010 → 2020 (annual growth)	4.9% 2009 → 2019 (annual growth)	5.2% 2009 → 2019 (annual growth)	5.3% 2010 → 2020 (annual growth)	3.6% 2010 → 2020 (annual growth)

Drivers of growth across our three operating businesses

Drivers of growth across our three operating businesses

“ Our investments in overseas markets are driving significant growth.

- Retention & leverage of experienced Principals.
- Exporting expertise, particularly in patents, into growing markets with minimal competition.
- In Singapore, patent filings have grown at an average of 41% each year for 7 years.
- Investment in the USA and China.
- In China we have experienced 30% year on year growth in incoming work and we are on track for 40% this year.

“ Retaining & attracting talented people in targeted growth areas is key to our current & future success.

- Growing the bottom line.
- Targeted growth into emerging technologies and markets (SEA grown from 3.4% to 10.1% of revenue in 5 years, 33% year on year growth).
- Meritocracy – performance not tenure.
- Virtuous circle: best people / best clients / best work.
- Disciplined financial monitoring and reporting, ruthless on efficiency.

“ Our vision is to make trade mark protection accessible for everyone.

- The majority of SMEs don't register their trade marks – too expensive and too complex.
- Sortify's online trade mark registration websites provide an automated, cost-efficient solution.
- Our current focus is on growing the SME market and international expansion.
- We are building a suite of AI-powered tools to drive attorney productivity and effectiveness

Outlook

Expect continued organic revenue growth, on the back of current trading momentum

Expect continued strong market share in Australia, with further growth in Asia

Continue to invest in our people, our aspiration is to be **the** place to work for IP professionals

Expect continued margin improvement as a result of cost management and strategic initiatives

Expect cash conversion to normalise in 2H23 due to timing of receipts and one-off costs

Continue to deliver technology modernisation milestones, with several on track for 2023

Continued growth and expansion of Sortify – AI-based platforms are of increasing relevance

Continue to explore pipeline of targeted M&A opportunities, plus strategic alliances, that meet our selection criteria
