Disclaimer

The material contained in this presentation is intended to be general background information on Imricor Medical Systems, Inc. (**Imricor**) and its activities.

The information is supplied in summary form and is therefore not necessarily complete. It is not intended that it be relied upon as advice to investors or potential investors, who should consider seeking independent professional advice depending upon their specific investment objectives, financial situation or particular needs. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. None of Imricor, its officers, directors, employees and agents, nor any other person makes any representation or warranty as to the accuracy, completeness or reliability of the information contained in this presentation and none of them accepts responsibility or liability for any errors or omissions in this presentation whatsoever.

Unless otherwise noted, financial information in this presentation has been prepared in accordance with accounting principles generally accepted in the U.S. (**US GAAP**) and are denominated in US dollars.

This presentation may contain statements that constitute “forward-looking statements”. Forward-looking statements are statements about matters that are not historical facts. Forward-looking statements appear in a number of places in this presentation and include statements regarding Imricor’s intent, belief or current expectations with respect to its business and operations, market conditions, results of operations and financial condition.

Imricor uses words such as ‘will’, ‘may’, ‘expect’, ‘intend’, ‘seek’, ‘would’, ‘should’, ‘could’, ‘continue’, ‘plan’, ‘estimate’, ‘anticipate’, ‘believe’, ‘probability’, ‘risk’, ‘aim’, or other similar words to identify forward-looking statements. These forward-looking statements reflect Imricor’s current views with respect to future events and are subject to change, certain risks, uncertainties and assumptions which are, in many instances, beyond its control, and have been made based upon management’s expectations and beliefs concerning future developments and their potential effect upon Imricor. There can be no assurance that future developments will be in accordance with Imricor’s expectations or that the effect of future developments on Imricor will be those anticipated. Actual results could differ materially from

those which we expect, depending on the outcome of various factors. Investors and others are cautioned not to place undue reliance on forward-looking statements, particularly in light of the current economic climate and significant volatility, uncertainty and disruption caused by the COVID-19 pandemic.

Imricor is under no obligation to update any forward-looking statements contained in this presentation, whether as a result of new information, future events or otherwise, after the date of this presentation.

Imricor’s CHES Depositary Interests (**CDIs**) are traded on ASX in reliance on the safe harbour provisions of Regulation S under the US Securities Act of 1933, as amended, and in accordance with the procedures established pursuant to the provisions of a no-action letter dated 7 January 2000 given to ASX by the staff at the US Securities and Exchange Commission. The relief was given subject to certain procedures and conditions described in the no-action letter. One of the conditions is that the issuer provides notification of the Regulation S status of its securities in communications such as this presentation.

The distribution of this document outside of Australia may be restricted by law and any such restrictions should be observed. This presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States or in any other jurisdiction.

Introduction to Imricor

imricor

Transitioning cardiac ablation into a new kind of lab

Conventional x-ray EP lab

Everyone else

X-ray
to
iCMR

iCMR EP lab *(interventional cardiac magnetic resonance)*

Only Imricor

Physicians, Patients, Hospitals

- Same kinds of tools, same procedures
- Advantages of MRI imaging
- No radiation for patient or physician
- No lead gowns for medical personnel
- MRI generates extra revenue for hospital

Imricor

- Imricor captures 100% of consumable device revenue
- No competition
- No other EP procedures can be performed in iCMR

Annual consumable device revenue per iCMR

Initially AFL: US\$245k

Add VT: ~ US\$500k

Add Afib: > US\$1 m

1000+ ablation centers in EU
1100+ ablation centers in US

Business Update and Outlook

H1 Financial Highlights

Consumable product revenues of US\$229 thousand in 1H22, up 159% compared to 1H21 and 12% compared to 2H21

Net loss of US\$9.8 million, down 2% compared to 1H21 and flat with 2H21

Maintained cash balance of US\$9.1 million at 30 June, 2022

Profit and loss

US\$'000	HY22	HY21
Revenue	538	366
Costs and non-R&D expenses	(5,588)	(5,249)
R&D expenses	(4,319)	(4,537)
Other expenses	(17)	(69)
EBITDA	(9,386)	(9,489)
Depreciation & Amortization	(340)	(332)
EBIT	(9,726)	(9,821)
Finance costs	(50)	(123)
Foreign exchange loss	-	(18)
Net loss after finance costs and before tax	(9,776)	(9,962)
Income tax benefit	-	-
Net loss after tax	(9,776)	(9,962)

Commentary

- Costs and non-R&D expenses increased slightly in 2022 primarily due to additional staffing (\$170k) and increased travel spend (\$94k).
- R&D expenses decreased in 2021 due to increased consulting costs (\$306k) which was offset by decreases in prototype and testing costs (\$255k) and regulatory spending (\$232k).

Balance sheet

US\$'000	Jun-22	Dec-21
Cash and cash equivalents	9,107	18,516
Accounts receivable	234	95
Inventory	2,328	2,583
Other current assets	1,332	1,505
Total current assets	13,001	22,699
PP&E, net	2,804	2,952
Accounts receivable-long term	201	201
Other non-current assets	195	197
Operating lease right of use assets	1,067	648
Prepaid service agreement	104	167
Total non-current assets	4,371	4,165
Total assets	17,372	26,864
Accounts payable	467	687
Accrued expenses	1,283	1,354
Current portion of contract liabilities	108	175
Current lease liabilities	300	519
Total current liabilities	2,158	2,735
Other long-term liabilities	44	-
Non-current lease liabilities	1,582	1,219
Deferred revenue (non-current)	493	509
Total non-current liabilities	2,119	1,728
Total liabilities	4,277	4,463
Share capital	95,475	95,005
Accumulated losses	(82,380)	(72,604)
Total equity	13,095	22,401

Commentary

- Generally, most balance sheet accounts are consistent with 31 December.
- Cash decreased due to continued investments in Research & Development coupled with revenues which are not yet at a level to fund existing operations.
- Operating lease right of use assets and Total lease liabilities increased due to a lease extension for our Gateway facility which commenced during the period.

Cash flow

US\$'000	HY22	HY21
Net loss	(9,776)	(9,962)
Other non-cash adjustments	1,369	1,328
Change in other assets and liabilities	(108)	(322)
Operating cash flows	(8,515)	(8,956)
Investing cash flows	(120)	(406)
Proceeds from issuance of common stock (net)	30	71
Other financing activities	(790)	(224)
Financing cash flows	(760)	(153)
Net change in cash	(9,395)	(9,515)
Effect of foreign currency changes on cash	(14)	(18)
Cash at 30 June	9,107	15,607

Commentary

- Other non-cash adjustments were flat vs. prior comparative period as an increase in inventory reserves was mostly offset by a decrease in stock-related compensation expense and the prior period including a loss on disposal.
- Operating cash outflows decreased \$441,000 on the prior comparative period due primarily to an adjustment recorded on our D&O insurance premium financing activity recorded in the current period. The other side of this adjustment results in the increase shown in cash outflows for Other financing activities.
- Investing cash flows decreased vs. prior comparative period as part of the cost containment initiatives implemented during the year.

Focus of H1

1) Commencing procedures across contracted sites

2) Ramping up procedure volumes

Sales

3) Advancing new sites through process

4) Progressing toward VT clinical trial

VT

Accomplishments in H1

Sales

Commenced procedures at 3 sites who were not performing procedures during pandemic

- Also installed and trained an additional 3 sites to commence procedures in Q3

Increased consumable device revenue 159% over H1 2021

- Strong second quarter with continued growth trajectory entering H2 2022

One new site signed in the half

- Policlinico Casilino in Rome, First site in Italy

Multiple sites progressed for signing in second half

- Including two sites that are constructing new iCMR labs

VT

Two agreements signed with Siemens

- Two agreements enable Siemens to use Imricor's 3D mapping system
- Importantly, both agreements allow Siemens to participate in upcoming VT trials

VT preclinical studies to support a submission for approval to begin the VT trial complete

Second generation ablation catheter submitted for approval in Europe

Our focus for H2

Focused on three key areas

1

Commercialisation

- Steady re-launch of site expansion in H2
- Activating sites
- Increasing procedure volumes across active sites
- Increased utilisation of MRI partners to drive the pipeline of iCMR labs

2

Growth Initiatives

- Advance strategy around clinical trials that expand indications in Europe
- Progress regulatory approvals to expand into Australia and the US
- GM improvement initiatives to deliver benefits in future years

3

Products

- Consumable devices for VT ready for clinical trials
 - 2nd gen ablation catheter
 - Steerable sheath
 - Transseptal needle
- Submit new devices for CE mark approval
