## **Extreme QLD and NSW Weather events - FSG Infrastructure Construction Projects Impact**

Dear Shareholders,

FSG in partnership with the Australian Federal Government, Queensland Government and New South Wales Government is currently engaged in extensive telecommunications infrastructure construction projects across both states.

The Bureau of Meteorology (BOM) has, over the past few days, issued numerous warnings for heavy rain, flooding and damaging winds across eastern Australia.

These extreme weather events are already causing flooding and road closures, disrupting access to construction sites and damaging works in progress.

We are monitoring the situation closely and will assess the impact on our construction timelines once the weather events have passed and construction areas are safe to access construction sites.

FSG is working closely with our government stakeholders and construction partners to monitor and mitigate the impact of these events.

Sincerely

Andrew Roberts  
Managing Director and Group CEO

This announcement has been authorised for release by the Board of FSG.

### About FSG

FSG provides, builds, and operates “true broadband networks” specifically for rural, regional and remote Australia. FSG is a licensed Australian telecommunications carrier, providing services via its own telecommunications network (trading under the brands ‘JustISP’ and ‘Ant Communications’) and a NBNco Retail Service Provider.
