

**ASX ANNOUNCEMENT  
Lifespot Health Limited**

ASX: LSH | 14<sup>th</sup> May 2018

**Lifespot Health Ltd. unique cannabis vaporizer under evaluation in Israel**

- **Seng-Vital vaporiser fully integrated into Lifespot ISO13485 certified BodyTel software**
- **Integrated Platform an enabler for best practice clinical trials, patient safety and compliance**
- **Discussions on collaboration with Israeli cannabis companies**

Lifespot Health Ltd. is pleased to announce that it has begun discussions with potential clients in Israel to include their unique cannabis vaporizer, fully integrated with their ISO 13485 compliant diagnostic BodyTel platform, in clinical trials for commercialization of medical cannabis.

The Seng-Vital vaporizer developed by Lifespot subsidiary Seng Vital Pty. Ltd. which is activated by patient finger print, allows cannabis to be taken in the form of vapors extracted from oils or herbs. Its embedment in the medically certified software infrastructure of BodyTel allows both patients and authorized physicians to retrieve and evaluate the readings and data collected on the BodyTel Data Monitoring & Collection platform.

Heiner Emden, Executive Director of Lifespot Health Ltd. & Managing Director of BodyTel GmbH said "Israel is strongly supported by their Health Ministry and is one of the world's leading epicenters of cannabis research and development, leading the evolution of medical cannabis worldwide. We are delighted to be here talking to the leading players in cannabis and see strong potential for our integrated system as an enabler for clinical studies and commercialization. Patient safety, compliance and good clinical practice are very important and we are delighted to be able to provide such a high quality system based solution to cannabis companies and healthcare professionals and be a key partner in testing and commercialisation."
