ASX Announcement Market Update

In October 2016, Rectifier Technologies Limited (RFT or Company) announced a purchase and supply agreement between Unipower and RFT, the agreement provides Unipower with exclusive rights to the Company's low voltage products in North America. This agreement expires on the 31st of August 2018, and RFT has decided not to automatically renew the agreement. Instead, a new contract will be negotiated between both parties. RFT will also explore new opportunities in the North American region to expand its coverage of both existing and new markets.
