

ASX RELEASE

31st January 2018

SECOS quarterly cash flow statement and Appendix 4C

Highlights:

- **SECOS earned cash receipts from customers of \$5.7 million in the December quarter. For the six month period ending 31 December 2017, SECOS achieved year-on-year growth in cash receipts of 15.5%.**
- **Strong growth in demand for SECOS resin, with H1 FY18 resin sales up more than 400% year-on-year, as consumers, industry and regulators continue to shift toward more environmentally friendly products.**
- **Material local government contract won to supply compostable bags to Penrith City Council for more than \$1.5 million over 18 months, providing a material boost to near-term revenue.**
- **Targeted restructuring has seen SECOS achieve 100% capacity utilisation of its Nanjing plant with material cost savings.**
- **\$2.0 million raised from issue of convertible notes.**
- **SECOS forecasts March 2018 quarterly sales growth of more than 24%. The Company expects to deliver FY18 sales of more than \$24 million and for the business to grow to a revenue run rate of \$28 million by the June quarter.**

The Board of sustainable and eco-friendly bioplastics developer SECOS Group Limited (ASX: SES, "the Company") is pleased to present its Quarterly Activities Report and Appendix 4C Quarterly Cash Flow Statement for the consolidated entity consisting of SECOS Group Limited and the entities it controlled ("SECOS Group") for the quarter ended 31 December 2017.

SECOS earned cash receipts from customers of \$5.7 million during the quarter. This contributed to year-on-year growth in cash receipts for the six months ending 31 December 2017 of 15.5%.

Net cash outflow rose during the quarter as SECOS invested in working capital to meet strong demand for its products and as some deliveries were delayed by planned production shutdowns during the China plant restructure. Specifically, receivables increased by \$0.6 million and the Company invested \$0.4 million to fund work-in-progress and restructuring of the Nanjing resin plant.

As announced on 25 January 2018, this work has resulted in SECOS' Nanjing plant operating at full output capacity for the first time. The Company plans to ramp this plant up further to a 24/7 operation in the month ahead.

The Company is seeing positive momentum across its business lines, particularly from resin sales to Southeast Asian customers. SECOS delivered its first batches of compostable and biodegradable resins in December, with back orders scheduled for delivery in January and beyond.

SECOS' films business, servicing long-established blue-chip customers, is running at a stable and profitable level. The Company expects the profitability and capacity utilisation of this segment to continue to improve this year, as benefits flow from new breathable film technology which will add value for hygiene and packaging customers.

SECOS Managing Director, Stephen Walters, said:

"We have entered CY18 with healthy momentum across our business. We look forward to reaping the rewards of our efforts and investment."

"Our \$1.5 million contract with Penrith City Council is a major win for SECOS in the organic waste diversion market. This represents what we hope is the first of many such contracts as local governments embrace changes to divert organic food waste from landfill."

"Our products are leading the way in this change, diverting food waste from landfill to composting facilities and returning nutrient value to the soil for future food production."

"More broadly, the introduction of single use plastic bag bans by several local and state governments, and the push by many packaging companies to improve their environmental credentials, has led to growth in demand for SECOS' resins and environmental bioplastic products."

"SECOS' Malaysian subsidiary Cardia Bioplastics is achieving significant growth, with H1 FY18 orders of almost \$0.8 million. This reflects a material increase in demand for our proprietary bioplastic resins, and it validates our recent decision to upgrade SECOS' Malaysian plant."

"This growth is pleasing in the context of Group cash receipts of \$12 million for the same period, as resin shows strong potential for a higher contribution looking forward."

"Beyond growing demand in Malaysia, SECOS sees similar growth for compostable resins growing throughout the world, and we are ready to meet this new demand for eco-friendly solutions as governments continue to legislate against single-use polyethylene plastic bags."

"Our raising of more than \$2 million through the issue and placement of Convertible Notes during the quarter will provide the working capital we need to fund the Company's growth in the resins market and support our international expansion plans."

Corporate

During the quarter, SECOS raised \$2.0 million through the issue and placement of unsecured convertible notes. A portion (\$292,308) of the Notes were issued to directors Richard Tegoni and Don Haller Jr., which received shareholder approval at the Company's Annual General Meeting on 30 November 2017.

Proceeds of the issue will fund additional working capital as the Company experiences new demand from international markets.

Outlook

SECOS expects strong growth in demand for bioplastics to empower the Company to accelerate its expansion, particularly in the key established markets of Malaysia, China and the US.

Based on the current order book, SECOS expect to achieve sales in the March quarter between \$1.0 million and \$1.5 million higher than the December quarter, representing quarter-on-quarter growth of more than 24%.

This underpins the Company's forecast for FY18 sales to exceed \$24 million (up from \$22 million in FY17), and for the business to grow to a revenue run rate of \$28 million by next quarter.

The Company will complement this revenue growth with a resolute focus on achieving further operational cost savings and scale improvements.

The Company's cash balance at 31 December 2017 was \$1.2 million.

The Company's December 2017 Appendix 4C follows.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
