Heathrow Airport signs repeat contract with dorsaVi to improve worker safety

Melbourne, Australia: dorsaVi Ltd (ASX: DVL) announces that Heathrow Airport has signed a new ViSafe contract.

Heathrow Airport have conducted multiple successful risk assessment projects with dorsaVi, each driving the group's goal of making baggage handling even safer for airport colleagues. This new contract is focused on utilising dorsaVi's ViSafe™ technology and consulting services to facilitate changes in manual handling behaviours specific to their baggage handling workforce. The engagement will be conducted over five days, within the next four months.

This new project is a great example of the value dorsaVi can deliver to our customers who continue to return for multiple engagements.

“Heathrow Airport has been an excellent customer of dorsaVi and the data insights we have delivered in previous projects have assisted in reducing manual handling injuries by >50% in some parts of the business. I look forward to this project and enabling Heathrow Airport to continue to pursue their commitment to keeping their workforce safe.” said Dr Andrew Ronchi, Chief Executive Officer, dorsaVi Ltd.

About *dorsaVi*

dorsaVi Ltd (ASX: DVL) is an ASX company focused on developing innovative motion analysis device technologies for use in clinical applications, elite sports, and occupational health and safety. *dorsaVi* believes its wearable sensor technology enables – for the first time – many aspects of detailed human movement and position to be accurately captured, quantified, and assessed outside a biomechanics lab, in both real-time and real situations for up to 24 hours.

Our technology has applications across three sectors:

- **Occupational Health and Safety (OHS):** *dorsaVi* enables employers to assess risk of injury for employees as well as test the effectiveness of proposed changes to OHS workplace design, equipment or methods based on objective evidence. *dorsaVi* has been used by major corporations including Sodexo, London Underground, Vinci Construction, Crown Resorts, Caterpillar (US), Monash Health, Coles, Woolworths, Toll, Toyota, Orora (formerly Amcor) and BHP Billiton.
- **Clinical:** *dorsaVi* is transforming the management of patients with its clinical solutions - ViMove, ViMove2 and Professional Suite – which provide objective assessment, monitoring outside the clinic and immediate biofeedback. *dorsaVi* is currently used by medical and physiotherapy practices globally.
- **Elite Sports:** ViPerform is allowing coaches and medical teams managing elite athletes and teams to screen athletes and provide objective evidence for decisions on return to play, measure biomechanics and provide immediate biofeedback out on the field, tailor and track training programs and optimise technique and peak performance. ViPerform is being used in the US by the National Basketball Association (NBA), the Major Soccer League (MLS) and the National Football League (NFL), by the AFL and NRL clubs and by Barclays Premier League (EPL) clubs, England and Wales Cricket Board and the Board of Control for Cricket in India as well as various Olympic teams and athletes internationally.
