

2 April 2020

ASX Announcement COVID-19 Update

Further to our announcement of 18th March 2020, the Malaysian government-enforced movement control order (MCO) has been extended to the 14th April. Rectifier Technologies is seeking exemptions from the MCO to allow us to move stock to our critical customers. We are also working with the governments in each of our operating jurisdictions to seek their support in these challenging times. Our business operations in Melbourne and Singapore, continue to operate in full compliance with the requirements of each jurisdiction, and we have implemented measures to ensure the health and safety of our staff, with the majority of staff working from home.
