Transaction Overview

AUB today announces it has entered into an agreement with sellers Odyssey Investment Partners to acquire 100% of Tysers⁴ for AUD880 million (GBP500 million) (the Acquisition).

The AUD880 million (GBP500 million) enterprise value implies c.9x FY22 pro forma EBITDA (post-synergies)⁵ or c.12x pro forma EBITDA excluding Synergies. Additional deferred consideration of up to AUD176 million (GBP100 million)⁶ may be payable two years post completion, subject to Tysers' achievement of agreed revenue growth targets with an upper bound of GBP220 million. The achievement of the upper revenue target⁷ would result in full payment of the deferred consideration representing c.4-6x of the incremental EBITDA.

Tysers is a leading specialist international insurance broker and the 6th largest wholesale broker in the Lloyd's marketplace, the largest insurance market globally. With 200 years of expertise, it is differentiated by its strong specialty focus, market knowledge, experience and placement capabilities as well as exceptional client and market relationships. The business has a robust track record of growth and profitability with strong cash conversion.

The business operates across three segments:

- **Wholesale:** wholesale broker to the Lloyd's market with deep expertise and global distribution;
- **Managing General Agents (MGA):** substantial number of delegated authorities, both in-house and third party; and

⁴ Being 100% of the shares in each of: (i) Galileo Insurance Services LLC; (ii) Integro Insurance Brokerage Services LLC; (iii) Integro Insurance Brokers Holdings Ltd and (iv) Tysers (Bermuda) Ltd and their respective subsidiaries.

⁵ The Acquisition price implies c.12x EV / FY22 pro forma EBITDA (pre-synergies) and c.9x EV / FY22 pro forma EBITDA (post-synergies).

⁶ Earn out calculated on revenue sliding scale from GBP183 million to GBP220 million. GBP100 million achievable if revenue of GBP220 million achieved.

⁷ Management assumption of estimated EBITDA multiple based on incremental margin of additional revenue. Achievement of GBP220m target would generate additional revenue of GBP37m which is expected to have 50% EBITDA margin

- **Retail:** UK niche broker and managing general agent servicing SME and high net worth and other private clients.

Tysers has ~1,100 employees with the significant majority based in the UK.

Tysers has in place a strong management team which will continue to manage day to day operations. To facilitate integration into the broader AUB group, Mike Emmett (AUB Group CEO) and Peter Harmer (Current AUB Non-Executive Director) will be appointed to the Tysers Board.

Acquisition in line with stated strategy to build scale in Lloyds' wholesale broking

Tysers will provide AUB with specialist capabilities, direct access to the Lloyd's market and allows AUB to capture further economics in the insurance broking value chain. In the short term, this will allow AUB to direct AUD200 million of gross written premium (GWP) to Tysers from existing and future placements within broking and agency networks, creating an uplift in margin and revenue for AUB. Direct access to Lloyd's and international markets is expected to also provide AUB's broking networks and underwriting agencies in Australia and New Zealand with capacity to write additional new business and deliver differentiated exclusive products to AUB's network.

The broader and enhanced product offering is expected to be well received by AUB's client base, assisting our brokers to attract new clients.

AUB has identified operational cost rationalisation and margin enhancement opportunities estimated to realise pre-tax annualised run-rate synergies of AUD25 million. AUB expects to realise the full run-rate of synergies within 18 months of completion of the Acquisition.

JV with PSC to acquire 50% of Tysers UK Retail business

AUB and PSC have entered into a Term Sheet under which it is intended that PSC will acquire a 50% stake in Tysers UK Retail as part of a 50/50 joint venture with AUB as soon as practicable after completion of the Acquisition. PSC's acquisition of the 50% stake is intended to be at the same multiple and on the same commercial terms as the Acquisition. PSC expects to fund its equity contribution from existing resources.

PSC is an Australian listed insurance broking and insurance intermediary business with existing UK retail broking capability and with a similar culture and values to AUB. They have a strong track record of acquiring, owning and operating insurance intermediary businesses outside the Australia New Zealand region.

The JV agreement will contain agreed exit rights and mechanics, and entry into the JV is subject to due diligence, separation planning and any necessary regulatory and licensing approvals, with joint venture documentation customary for a transaction of this nature.

Funding – equity capital raising, placement of AUB shares and new debt facility

The Acquisition will be funded from the proceeds of the Equity Raising, placement of new AUB shares to Odyssey Investment Partners as the vendor of Tysers and the New Debt Facility. The AUD675 million multi-currency New Debt Facility will replace AUB's existing AUD250 million facility. The

potential deferred consideration is expected to be paid from a mixture of cash and debt from an accordion tranche to be established under the New Debt Facility.

Post-Acquisition, the debt facilities are expected to have c. AUD74 million headroom. AUB expects to have pro forma gross debt / EBITDA levels of 2.8x at completion of the Acquisition and a pathway to reduce leverage to 2.4x within 12 months of completion. AUB will continue to be strongly placed to fund value-accretive bolt-on acquisitions and pay dividends post the Acquisition, due to its organic cash generation and debt headroom.

Details of the Equity Raising

AUB has today launched a fully underwritten equity raising (Equity Raising) comprising an institutional placement to raise AUD71 million⁸ (Placement) and a 1 for 5.2 accelerated non-renounceable entitlement offer to raise AUD279 million (Entitlement Offer), including a retail offering (the Retail Entitlement Offer). Approximately 18 million new fully paid ordinary shares (New Shares) will be issued under the Equity Raising, which represents 24.1% of AUB's current ordinary shares on issue.

Under the Entitlement Offer, eligible shareholders are invited to subscribe for 1 new AUB ordinary share for every 5.2 existing AUB ordinary shares held on the record date of 7.00pm (Sydney Time) Wednesday, 11 May 2022.

New Shares under the Equity Raising will be issued at a price of AUD19.50 per New Share, which represents a:

- 10.6% discount to TERP⁹ of AUD21.80
- 12.8% discount to the last close of AUD22.36 on Friday, 6 May 2022

The Entitlement Offer is non-renounceable, and entitlements will not be tradeable or otherwise transferable.

New Shares will rank equally with existing AUB shares from the date of issue.

AUB shares will be in trading halt until completion of the Institutional Entitlement Offer and Placement.

AUB FY22 Guidance Affirmed and Dividend Payout

Following our 1H22 results announcement on 22 February 2022, AUB continues to see favourable operating conditions and affirms FY22 guidance.

AUB continues to target a dividend payout ratio of 50-70%, in line with our current range. AUB expects to pay a 2H22 dividend on existing and New Shares and to pay fully franked dividends over the medium term noting its existing franking credits balance.

⁸ AUB has received an ASX waiver in relation to Listing Rule 7.1 to enable it to calculate its available placement capacity for the Placement and Vendor Placement using an expanded issued capital base assuming the fully underwritten Entitlement Offer were completed.

⁹ The Theoretical Ex-Rights Price (TERP) is the theoretical price at which AUB shares should trade after the ex-date for the Entitlement Offer. TERP is calculated by reference to AUB closing share price of AUD22.36 per share, being the last trading day prior to the announcement of the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which AUB shares trade immediately after the ex-date of the Entitlement Offer will depend on many factors and may not be equal to TERP. TERP also includes New Shares issued under the Placement.
