REVIEW OF OPERATIONS

Yojee Limited (“Yojee” or the “Company”) as a pioneering platform technology company delivering powerful logistics and supply-chain management capabilities via its Artificial Intelligence (Ai) software to South East Asia and Australia achieved the following operational, financial and strategic activities during the period ended 31 December 2016:

- On 15 July 2016, Yojee announced that it has entered into a collaborative partnership with Thailand’s largest media company, Nation Multimedia Group (NML) with the signing of a memorandum of understanding (MOU). NML is Thailand’s largest media company, and also operates a leading logistics business which provides nationwide delivery of documents, parcels, and larger goods, and offers next day delivery to 48 per cent of the Thai population.
- Yojee announced on 8 August 2016 that it had signed a memorandum of understanding (MOU) with Heiniger Australia, a global leader in the manufacturing and supply of agricultural machinery, to further improve security, efficiency and freight capacity.
- On 18 August 2016 Yojee had opened up beta access to a new mobile app service for selected participating companies. Yojee advises that the “Yojee Driver” app is now available in the iOS app store and Google Play store for Android which enabled a pilot period to be run during Q3 and Q4 of the 2016 calendar year, which depending on the feedback from carriers on the user experience and feature requirements, will then be made available to the wider Yojee partner network.
- Yojee updated the market on customers now having access to a significantly larger network, as more than 20,000 partner vehicles and over 330 warehouses have registered. The company has experienced significant growth in carrier registrations since its July update, including vehicles and warehouses. In Australia alone the company now has over 6,000 vehicles registered which compares to Australia’s largest post and parcel deliverer who has a fleet of just over 11,000. By way of Yojee network update, on 23 November 2016, the company announced that it had over 33,000 vehicles and over 550 transport hubs within its network across Australia and South East Asia.
- Yojee announced on 21 September 2016 the launch of its pilot program with companies in Australia and Singapore. This was initiated in conjunction with the launch of its pilot smart cities program, focusing on Melbourne’s unique smart city delivery model as announced on 7 October 2016.
- Yojee marked its first advanced ‘business uberfication’ suite White-Label sale for Desktop, Driver and Customer side applications on iOS and Android. Raja Pindah an established leader in bulk goods logistics selected Yojee to extend to express services and great utilization of capacity. The deal advances both Yojee and Raja Pindahs Indonesia capabilities and proves Yojee software is a standout in the marketplace.
