- **Yojee Software in trial with company currently completing over 500,000 deliveries a year**

Yojee Limited (Yojee or the Company) (ASX: YOJ) is a pioneering platform technology company delivering powerful logistics and supply-chain management capabilities via its Artificial Intelligence (Ai) and blockchain backed software to South East Asia and Australia. The Company is pleased to announce it has signed a Memorandum of Understanding (MOU) with Indonesian logistics company Lion Parcel. Lion Parcel was established on February 14, 2013 and engages in the courier services serving domestic and international area, supported by the Lion Group network infrastructure of over 240 aircraft, the largest in

South East Asia.

As part of the Lion Group, Lion Parcel' mission is to develop logistics in Indonesia with a philosophy to help accelerate economic growth in all domestic areas through the concept of "Just In Time Air Distribution".

Lion Parcels operating network is powered by the high flight frequency air logistics of the Lion Group to almost all airports in Indonesia. Lion Parcel provide goods and document delivery services with many outlets across the archipelago. The focus of the partnership is to establish a modernised logistics solution that can provide the Indonesian E-Commerce market customers with some of the most progressive and intelligent customer service (digital tracking, customer notifications, and multiple payment options) and delivery options for all products.

"Lion Parcel is quickly becoming a leader in Indonesian Logistics, so it's great to be part of this and build a bigger, deeper and faster delivery network for goods originating outside of Indonesia, as well as domestic deliveries for their customers and ours. " said Yojee Managing Director Ed Clarke.

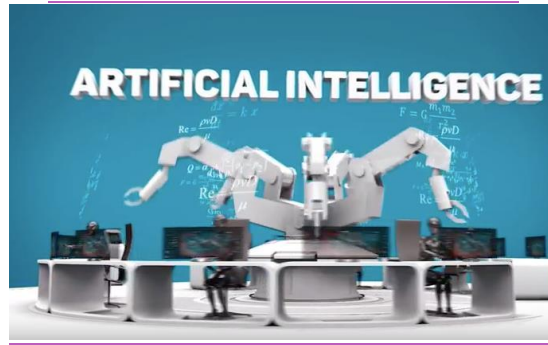

Whilst the MOU is non-binding, the companies have conducted deep testing of the Yojee Logistics Software as a Service Solution as well as integration of Lion Parcel into the Yojee regional network.
