DOTZ NANO CONTINUES COMMERCIALISATION OF GRAPHENE QUANTUM DOTS (GQDs) & DISPATCHES FIRST SHIPMENT TO CHINA

- **Dotz Nano ships first commercial quantities of GQDs to China**
- **GQDs shipped are in liquid form to local Chinese distributor. Total shipment quantities are 1 litre of Aqua Green GQDs in solvent**
- **GQDs were shipped to Changchun Ocean Electro-optics Co., Ltd. who will market the GQDs to the Chinese market**

Dotz Nano Limited (“Dotz Nano” or the “Company”), a nano-technology company focusing on the development, manufacture and commercialisation of graphene quantum dots (GQDs), is pleased to announce that it has shipped its first commercial shipment of GQDs to China.

The GQDs were shipped to Changchun Ocean Electro-optics Co., who will market and distribute the GQDs to the Chinese research and industrial market. Changchun Ocean Electro-Optics is a privately held company serving the Chinese market in Electro-optics and materials.

Commenting on the announcement, Dotz Nano’s CEO Dr. Moti Gross, stated: *“In continuation of our commercialisation efforts, we are expanding our reach into the Chinese market. The Chinese market is a very promising, with many research institutes and Universities consuming relatively large quantities of GQDs.*

In addition, what's exciting is that our high quality GQDs are much more attractive for the Chinese consumers than any local product produced in Chinese laboratories.

To our knowledge this is the first commercial shipment of graphene quantum dots ever made into the Chinese market.

We look forward to announcing future sales as they occur.”

About Changchun Ocean Electro-optics Co., Ltd

Changchun Ocean Electro-optics Co., Ltd was founded in 2003. Its' base office is in Changchun, China with an additional office in Xi'an. Ocean Electronics began its operations in the distribution of optical and photoelectron instruments, opto-electronics devices, lasers, spectrometers, IR cameras, and proceeded to distribute optical materials such as graphene, diamond and nano-diamonds as well as other products. Ocean Electronics, also manufactures their own products such as lasers and solar simulators in China. The move to distribute GQDs is a natural addition to their optical materials division. Dotz GQDs are in conformity with the current development trend, and meet the requirements of the Chinese market.

Ocean Electronics numbers 26 employees and is a well-known company in China, with the "Ocean Electro-optics" name, a respected brand in customers' vision. Their clients mainly come from Universities, research institutions, various industry fields and government departments.

About Dotz Nano

Dotz Nano Limited (ASX: DTZ) is a nano-technology company focusing on the development, manufacture and commercialization of GQDs. Its vision is to be the premier producer of GQDs by producing and supplying high quality GQDs for use in various applications including medical imaging, sensing, consumer electronics, energy storage, solar cells and computer storage.
