Reward Minerals Ltd is pleased to advise that it has received \$2,596,254 in rebate funds available via the Australian Government R&D Incentive program.

The rebate acknowledges the innovative metallurgical and pilot testwork activities undertaken by the Company during 2016.

These trials are continuing both on site and at test facilities in Perth.

Cash position of Reward following receipt of the R&D rebate is approximately \$4.5 million.

An update on Company activities will be provided shortly following receipt of final hydrogeological data for the Process Water Borefield and the pond seepage trials currently in progress. These data form key components of the Pre-Feasibility Study costings and Environmental Approvals submissions.

Yours sincerely

**Michael Ruane**  
**Director**  
**On behalf of the Board**
