Cyber Safety Expert Robyn Treyvaud To Join Wangle

Wangle Technologies Limited (Wangle or the Company) (ASX: WGL) is pleased to announce that renowned Australian cyber safety expert **Robyn Treyvaud** has agreed to join the Wangle management team where she will head up the cyber education function for the Company's soon to be released family protection software suite, **Wangle Family Insites**.

Robyn Treyvaud is a globally recognized expert in online safety and digital citizenship. She is an educational leader with over 40 years of experience in schools in Australia and has worked in Asia as an International Baccalaureate (IB) Primary Years Program (PYP) workshop leader.

Robyn is the founder of **Cyber Safe Kids**, an international organization that assists educators, school and parent communities to understand and meet the challenges of living and working in the digital world. Cyber Safe Kids works in collaboration with Common Sense Media, the South West Grid for Learning (UK), I Keep Safe Coalition US and Australian governments to train communities to behave safely, think critically and participate responsibly in digital environments. She is a trusted advisor to governments, the media, industry and not for profits, nationally and internationally.

Wangle CEO Sean Smith said: "Our commitment to building the very best cyber safety solution for families extends far beyond the innovative technology and the unique behavioural analysis approach. Helping parents and families safely navigate online activity requires an expert understanding of the key issues, and Robyn's past decade of work in this area makes her the ideal candidate to head up our education and content team. We are incredibly excited to have Robyn join us as we prepare to launch Wangle Family Insites to the public later this quarter."

Robyn Treyvaud said: "To work with Wangle Family Insites to educate, empower and engage families as they navigate the digital lives of their children is a privilege. I look forward to collaboration with the Wangles Family Insites team and the wider community as together we play our roles in keeping children safe online."

Robyn will join Wangle as **Head of Education – Wangle Family Insites** commencing this Friday 4th August.

ABOUT WANGLE FAMILY INSITES

Wangle Family Insites (WFI) offers parents a unique approach to ensuring the safe use of the internet by children and teenagers. By utilising Wangle's world class VPN network, backed by the research insights of childhood development research organization Telethon Kids Institute, WFI monitors mobile network patterns in real time and advises parents of potential threats as well as providing greater details and resources to parents on the threats identified.

ABOUT WANGLE TECHNOLOGIES

Wangle Technologies has developed patented algorithms that not only optimise, compress and secure the data flow to mobile devices, but facilitate real time analysis of network patterns and usage behaviours. Wangle's technology provides compelling value to consumers, service providers and enterprises looking for innovative low cost solutions for managing network capacity and use.
