

20th July 2018

ASX ANNOUNCEMENT

RC Drilling Programme Successfully Completed at the Nemesis Gold Project

- RC drilling targeting high-grade gold at the historic Nemesis gold mine and Nemesis Shear Zone is now complete.
- 6 RC drill-holes were completed for a total of 728m.
- Assaying of RC samples will take approximately three (3) weeks.

Rumble Resources Ltd (ASX: RTR) (“Rumble” or “the Company”) is pleased to announce that the RC drilling program at the Nemesis Project (M20/33), located 40km’s north of Cue in the Murchison Goldfields of Western Australia, has been successfully completed.

In total, three targets were tested with six RC drill-holes for a total of 728m.

Three (3) RC drill-holes were completed targeting the depth extension of the main high-grade gold zone at the historic Nemesis gold mine.

Two (2) RC drill-holes east and one (1) RC drill-hole west along strike from the Nemesis gold mine, targeting areas of historic elevated Au in soil anomalism and known small scale workings associated with the Nemesis Shear Zone.

Results from the drilling will be reported as soon as assay results are available.

About Rumble Resources Ltd

Rumble Resources Ltd is an Australian based exploration company, officially admitted to the ASX on the 1st July 2011. Rumble was established with the aim of adding significant value to its current mineral exploration assets and will continue to look at mineral acquisition opportunities both in Australia and abroad.

Competent Persons Statement

The information in this report that relates to Exploration Results is based on information compiled by Mr Brett Keillor, who is a Member of the Australasian Institute of Mining & Metallurgy and the Australian Institute of Geoscientists. Mr Keillor is an employee of Rumble Resources Limited. Mr Keillor has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Keillor consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
