24 June 2019 | Perth, Australia

ServTech Global Holdings Ltd (**ServTech** or the **Company**), a software company delivering 3D, Augmented Reality (AR) and Virtual Reality (VR) solutions, is pleased to announce that its wholly owned subsidiary Vection Italy S.r.l. (**Vection**) has entered into its second distribution agreement for its VR Software as a Service (SaaS) platform **Frames**: this time with leading software distributor Gruppo Infor (**Infor**).

Based on Vection's VR technology, FrameS is considered to be the ultimate VR software visualisation, collaboration and prototyping tool, allowing users dislocated world-wide to interact real-time in a multi-user virtual environment on a shared project.

The Infor distribution agreement strategically expands the Company's potential client base providing access to **~4,000 clients**. Infor is the second distributor (following Four Bytes with ~2,700 potential clients – ASX: 4 June 2019) to partner with Vection in the past month as it continues to grow the distribution footprint of its FrameS software.

Following the execution of this distribution agreement, the Company's sales and marketing network will target the combined ~6,700 clients who operate in industries identified with a requirement for the FrameS solution. **ServTech will develop this prospective client base and direct its marketing activities to focus on securing sales contracts.**

As **VR and AR technologies become more widely integrated** across businesses and enterprises, the Company is continuing with its efforts to increase its existing footprint of its sales and marketing network with further strategic agreements to increase the **international exposure of the FrameS offering**.

Infor

Infor is an established software distribution company which partners with leading software companies including **Microsoft, Autodesk** and **Adobe**.

Infor is an experienced system integrator which distributes both scalable and bespoke software solutions complete with best hardware equipment on the market. Infor manages its market presence via 3 office locations and 120 staff, posting over ~€20M revenue per annum.

FrameS

FrameS is a **real-time Virtual Reality SaaS software** solution to help companies visualise their designs and creations:

- **Product Development:** FrameS is the ultimate visualisation tool for engineers, architects and designers to visualise their creation in real-time, reducing time to market and generating tangible R&D efficiencies;
- **Marketing and Communication:** FrameS allows brands to reach their customers with engaging experiences and content;
- **Learning & Development:** harnessing the FrameS remote collaboration feature, professionals can interact within a virtual environment driving further intra-company efficiencies;
- **Risk Management:** FrameS enables occupational risk prevention via potentially hazardous VR simulations where employees could be exposed to risk if performing certain exercises in real life.

Distribution Agreement

Infor will leverage its extensive knowledge of its existing clients operating in the mechanical industry, a growing and specialised industrial sector, to market FrameS and Vection's bespoke VR & AR software solutions.

Infor currently targets the mechanical industry with mechanical CAD solutions, due to its partnership with Autodesk, and a specialisation in Mechanical Product Design & Manufacturing CAD solutions.

While CAD Mechanical design and drafting software is standard for manufacturing purposes, **FrameS** offers a **real-time solution** to visualise products, components and general drawings within a virtual environment. This allows the automation of common mechanical CAD tasks and acceleration of the mechanical design process by **eliminating the requirement for prototypes and cutting time and expenses to go to market**.

Vection and Infor will collaborate to market FrameS to Infor's existing clients operating in the mechanical industry; a growing industry investing considerably in new technologies such as FrameS.

Target Industry

The Italian manufacturing mechanical industry in 2018¹ registered ~€48.5 billion in revenues, with over 200,000 employees and investment of ~€1.2 billion.

Considered one of the **flagship Italian industries**, the mechanical industry **exports ~60% of its production**² to industrialised countries such as Germany, United States, France, United Kingdom, Spain, China, The Netherlands, Saudi Arabia and Russia. In Asia/Far East, the top Countries in terms of export are China, Turkey, South Korea, **Australia** and India.

The mechanical industry, that the Frame S solution is targeting, can be categorised as the **agglomeration of companies manufacturing;**

- Automated machinery for welding & laser cutting;
- Food technology machinery;
- Industrial furnaces;
- Surface finishing machinery;
- Lifting and handling machinery;
- Road, construction and mining machinery;
- Valves and fittings;
- Pumps and air compressors;
- Boilers, gas regulators; and
- Others.

Fabrizio Montali, CEO of Infor, commented:

"We are excited to commence the partnership with Vection, which marks the entry of Infor in the Virtual & Augmented Reality market segment, representing a significant high-growth industry.

We believe that our existing customers will potentially adopt these software solutions, while facilitating profitable market share growth for Infor."

Gianmarco Biagi, Managing Director of ServTech, commented:

"We are very pleased to start this partnership with Infor, a key player in software solutions for the mechanical industry, which is an important market segment for the FrameS distribution strategy. Infor represents an ideal partner aligned with the Company's overarching SME client acquisition strategy, providing access to ~4,000 potential clients with no upfront capital expenditure.

The Company is currently working to further expand the existing FrameS distribution footprint, key to establishing FrameS as leading and widely used SaaS platform."

Controlled Placement Agreement

The Company has entered into a Controlled Placement Agreement (CPA) with Acuity Capital. The CPA provides ServTech with up to AUD\$2 million of standby equity capital via placement over the coming 24 months. Importantly, ServTech retains full control of all aspects of the placement process, with sole discretion as to whether or not to utilise the CPA, the quantum of issued shares, the minimum issue price of shares and the timing of each placement tranche (if any).

ServTech is not obligated to utilise the CPA and ServTech may terminate the CPA at any time, without cost or penalty. Acuity Capital and the CPA do not place any restrictions at any time on ServTech raising capital through other methods. If ServTech does decide to utilise the CPA, the Company is able to set a floor price (at its sole discretion) and the final issue price will be calculated as the greater of that floor price set by ServTech and a 10% discount to a Volume Weighted Average Price (VWAP) over a period of the Company's choosing (again at the sole discretion of ServTech).

To secure the CPA, ServTech has placed 32,000,000 fully paid ordinary shares from its ASX Listing Rule 7.1 capacity, at nil consideration to Acuity Capital (Collateral Shares). ServTech may, at any time, cancel the CPA and buy back the Collateral Shares for nil consideration (subject to shareholder approval). An Appendix 3B regarding the Collateral Shares is attached to this announcement.

ServTech provides the following information pursuant to Section 708A(5)(e) of the Corporations Act. The Collateral Shares (referred to above) were issued without disclosure to investors under Part 6D.2 of the Corporations Act.
