MARKET UPDATE

DTI Group Ltd (ASX: DTI) (DTI) provides this update to the market for FY19.

DTI has a policy of not providing revenue or earnings guidance to the market however DTI considers it appropriate to update the market on trading conditions in recent months. Whilst DTI was pleased with revenue and profitability improvements to 31 December 2018, DTI notes that this trend has not continued in the subsequent half year.

Whilst the Company's order book and pipeline sales remain strong, DTI expects that revenue and the estimated NPAT for FY19 would likely be comparable to the FY18 before impairment charges.

DTI advises that this indication of financial results for FY19 is preliminary only. The June monthly financial statements have yet to be completed and the FY19 audit is yet to commence. The financials could therefore be subject to amendment during this process.
