DIRECTORS' REPORT**

Your directors submit the financial report of Rumble Resources Limited ("Rumble" or "the Company") and its controlled entities ("the Group") for the half-year ended 31 December 2018.

DIRECTORS

The names of Directors who held office during or since the end of the half-year are:

Shane Sikora	Managing Director
Brett Keillor	Technical Director
Michael Smith	Non-Executive Director
Matthew Banks	Non-Executive Director

RESULTS

The loss after tax for the half-year ended 31 December 2018 was \$1,359,155 (2017: \$1,605,092).

REVIEW OF OPERATIONS

During the period, Rumble Resources Ltd ("Group") executed the Board's clear strategy of generating a pipeline of quality high grade base and precious metal projects at various stages of exploration and development, critically reviewing them against stringent criteria developed by Rumble's highly regarded technical director Brett Keillor, negotiating low cost upfront optionality and systematically exploring multiple projects to test for high grade world class discoveries.

During the half-year ended 31 December 2018, the Group completed drill programs at the Braeside Project, Munarra Gully and Nemesis (subsequently relinquished). The Group also executed option agreements to acquire the Long Lake Project and Panache Project in the Sudbury region in Canada, generated drill targets at the Earahedy Project and continued a positive relationship with the CSIRO that contributes to the Group's various research and development activities.

Exploration by Rumble in 2019 will provide shareholders with multiple near term catalysts to have a significant re-rating, with each drill program a chance to make high grade discoveries.

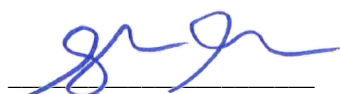

SUBSEQUENT EVENTS

No events occurred of a material nature subsequent to the period end that require further disclosure.

AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration under s307c of the Corporations Act 2001 for the half-year ended 31 December 2018 is included on page 4 within this financial report.

This report is signed in accordance with a resolution of the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS
For the Half-Year Ended 31 December 2018

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements and notes represent those of Rumble Resources Limited and controlled entities (the "Group"). Rumble is a listed public company, incorporated and domiciled in Australia.

Basis of Preparation

These interim financial statements constitute a general purpose financial report and have been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting. Compliance with AASB134 ensures compliance with IAS134: Interim Financial Reports. They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 30 June 2018.

These interim financial statements were approved by the Board of Directors on 15 March 2019.

The consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

All monetary values are reported in Australian Dollar unless otherwise stated.

a) Adoption of new and revised accounting standards

These consolidated financial statements have been prepared using the same accounting policies as used in the annual financial statements for the year ended 30 June 2018 with the exception of the impact of new and amended standards and interpretations issued by the AASB as follows:

AASB 9 Financial Instruments

AASB 9 supersedes AASB 139 'Financial Instruments: Recognition and Measurement' and was adopted by the Group from 1 July 2018. This, and the related amendments to other accounting standards, introduced three significant areas of change from AASB 139 Financial Instruments: Classification and Measurement:

- A new model for classification and measurement of financial assets and liabilities
- A new expected loss impairment model for determining impairment allowances; and
- A redesigned approach to hedge accounting.

The standard has been applied as at 1 July 2018 without adjustment to comparatives.

Classification and Measurement:

For financial liabilities, the existing classification and measurement requirements of AASB 139 are largely retained.

For financial assets, under the new standard these are classified as measured at amortised cost, fair value through profit or loss, or fair value through other comprehensive income. The classification is based on two criteria: the Group's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding.

The assessment of the Group's business model was made as of the date of initial application, 1 July 2018, and then applied retrospectively to those financial assets that were not derecognised before 1 July 2018. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The classification and measurement requirements of AASB 9 did not have a significant impact on the Group.

Trade receivables are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. Thus, the Group has continued to measure these at amortised cost under AASB 9.

**Rumble Resources Ltd
& Controlled Entities**
NOTES TO THE FINANCIAL STATEMENTS
For the Half-Year Ended 31 December 2018

Under AASB 9, impairments of financial assets classified as measured at amortised cost are recognised on an expected loss basis which incorporates forward-looking information when assessing credit risk. Movements in the expected loss reserve are recognised in profit or loss. Due to the short-term nature and high quality of the financial assets, the Group has not recognised any impacts on the adoption of AASB 9.

Taxation receivables are considered statutory in nature and therefore not accounted for as financial assets under AASB 9. Taxation receivables are initially recognised at fair value and subsequently measured at amortised cost.

Listed equity investments previously classified as available for sale financial assets are now classified and measured as financial assets at fair value through profit or loss.

The Group has not designated any financial liabilities as at fair value through profit or loss. There are no changes in classification and measurement for the Group's financial liabilities.

Impairment:

The adoption of AASB 9 has required changes to the Group's accounting for impairment losses for financial assets by replacing AASB 139's incurred loss approach with a forward-looking expected credit loss (ECL) approach.

AASB 9 requires the Group to recognise an allowance for ECLs for all debt instruments not held at fair value through profit or loss and contract assets. The expected credit losses on these financial assets are estimated based on the Group's historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current, as well as forecast, conditions at the reporting date.

For all other receivables measured at amortised cost, the Group recognises lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for the financial instrument at an amount equal to expected credit losses within the next 12 months.

Due to the short-term nature and high quality of the Group's financial assets, the adoption of AASB 9 has not resulted in the recognition of additional impairment.

Hedge Accounting:

The hedge accounting requirements of AASB 9 are not applicable to the Group as the Group has not entered in to any hedging arrangements.

AASB 15 Revenue from contracts with Customers

AASB 15 was adopted by the Group from 1 July 2018. AASB 15 supersedes AASB 111 Construction Contracts, AASB 118 Revenue and related interpretations, and it applies with limited exceptions, to all revenue arising from contracts with its customers.

The core principle of AASB 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under AASB 15, a Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

The standard requires the Group to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

**Rumble Resources Ltd
& Controlled Entities**
NOTES TO THE FINANCIAL STATEMENTS
For the Half-Year Ended 31 December 2018

The Group adopted AASB 15 in accordance with the transition requirements in AASB 15, which permits Groups to transition to AASB 15 by applying the Standard:

- retrospectively to each prior reporting period presented; or
- retrospectively with the cumulative effect of initially applying the Standard recognised as at the date of initial application (i.e., at the beginning of the annual reporting period in which the entity first applies the Standard).

The Group adopted AASB 15 using the full retrospective method of adoption.

At the initial date of application, the effect of adopting AASB 15 did not have a material impact on the transactions and balances recognised in the financial statements, including comparatives.

Carrying amount at the end of the period	2,994,374	2,691,197

(1) During the half-year ended 31 December 2018, the Big Red project (tenement E28/2268), formerly subject to an earn-out agreement with Independence Group, was handed back to Rumble by Independence Group and an assessment is currently underway as to the level of exploration which will occur on this tenement going forward. As a result, all exploration capitalised to date has been written off.

The value of the Group's interest in exploration expenditure is dependent upon:

- the continuance of the Group's rights to tenure of the areas of interest;
- the results of future exploration; and
- the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale.

- 9,000,000 unlisted options exercisable at \$0.08 on or before 22 December 2020

NOTE 8: OPERATING SEGMENTS

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources. The Group has one operating segment being mining exploration in Australia.

31 December 2018

During the year ended 30 June 2017, the Group had two geographic operating segments being Australia and Africa. As all operations in Africa ceased during the year ended 30 June 2018, internal reporting no longer takes in to consideration this geographic region and hence only one segment is identified. During the half-year ended 31 December 2018, the Group entered in to an option agreement to acquire the Long Lake and Panache projects located in Canada, however, activity there has been immaterial to date. As a result, there are no segment assets and liabilities or segment results as at or for the half-year ended 31 December 2018.

**Rumble Resources Ltd
& Controlled Entities**
NOTES TO THE FINANCIAL STATEMENTS
For the Half-Year Ended 31 December 2018

NOTE 9: COMMITMENTS

Exploration expenditure commitments

In order to maintain current rights of tenure to exploration tenements, the Group is required to meet the minimum expenditure requirements specified by the relevant authorities. These obligations are subject to renegotiation when application for a mining lease is made and at other times. These obligations are not provided for in the financial report.

	31 December 2018	30 June 2018
	\$	\$
Not Longer than 12 months	469,411	470,683
Between 12 months and 5 years	977,365	936,291
Longer than 5 years	76,015	162,283
	<u>1,522,791</u>	<u>1,569,257</u>

If the Group decides to relinquish certain leases and/or does not meet these obligations, assets recognised in the Statement of Financial Position may require review to determine the appropriateness of carrying values. The sale, transfer or farm-out of exploration rights to third parties will reduce or extinguish these obligations. The ultimate recoupment of costs carried forward for exploration and evaluation is dependent on the successful development and commercial exploitation or sale of the respective mining areas.

NOTE 10: CONTINGENT LIABILITIES

Under the terms of the Earahedy Zinc project option agreement, following completion of a bankable feasibility study and decision to mine, the vendor of the project can elect to contribute to the ongoing project development or dilute to a 1.5% net smelter royalty ("NSR").

Under the terms of the Munarra Gully project option agreement, following completion of a bankable feasibility study and decision to mine, the vendors of the project can elect to contribute to the ongoing project development or to convert its remaining interest in to a 1.5% NSR resulting in Rumble holding a 100% legal and beneficial interest in the project.

As part of the terms of the Barramine project acquisition, following completion of a bankable feasibility study and decision to mine, the vendor of the project can elect to contribute to the ongoing project development or to convert its remaining interest in to a 1.5% NSR resulting in Rumble holding a 100% legal and beneficial interest in the project.

Under the terms of the Panache project option agreement, following a decision to mine, Rumble will pay a 3% NSR to the vendor of the project. Rumble can secure a 1% NSR buy back for a cash payment of CAD\$1,500,000 to the vendor. Rumble can secure a further 1% NSR buyback for Cad \$1,500,000 paid to the vendor.

Under the terms of the Long Lake project option agreement, following a decision to mine, Rumble will pay a 3% NSR to the vendor of the project. Rumble can secure a 1% NSR buy back for cash payment of CAD\$1,500,000 to the vendor. Rumble can secure a further 1% NSR buyback for Cad \$1,500,000 paid to the vendor.

There were no other contingent liabilities as at 31 December 2018, or since that date and the date of this report.

NOTE 11: SUBSEQUENT EVENTS

Independent Auditor's Review Report

To the Members of Rumble Resources Limited

We have reviewed the accompanying financial report of Rumble Resources Limited ("the Company") and Controlled Entities ("the Consolidated Entity") which comprises the condensed consolidated statement of financial position as at 31 December 2018, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half year ended on that date, a statement of accounting policies, other selected explanatory notes and the directors' declaration of the Consolidated Entity, comprising the Company and the entities it controlled during the period.

Directors Responsibility for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2018 and its performance for the half year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*. As the auditor of the Consolidated Entity, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independent Auditor's Review Report
To the Members of Rumble Resources Limited (Continued)

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the financial report of Rumble Resources Limited and Controlled Entities is not in accordance with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2018 and of its performance for the period ended on that date; and
- b. Complying with Accounting Standard AASB 134: Interim Financial Reporting and Corporations Regulations 2001.
