PEOPLE - REMUNERATION

FY19

- Prior to FY19 some staff had not received an increase in fixed pay for the previous 4 years and overall staff were paid below the 50th centile of industry peers
- FY19 fixed pay adjusted to be on average at the 50th centile
- In addition, the FY19 Short Term Incentive Plan (STIP) was designed to keep fixed costs down whilst incentivising employees to deliver above the low end of guidance during a critical turnaround year
- FY19 Underlying EBIT guidance of \$70 – 80m, includes any STIP bonus
- No STIP bonus is payable unless the Company achieves above \$70m EBIT
- Bonus pool is calculated on audited results and payment is subject to Board discretion
- Applies to 450 eligible employees
- Top three executives (CEO, CFO, CDO) STIP will comprise 25% in shares, escrowed for 2 years

FY20

- We will adjust base salaries to an appropriate level between the 50th and 62.5th centile
- FY20 STIP will be set by the Board in June - expect structure to reflect business in ongoing execution phase compared to turnaround phase in FY18 & FY19

INDONESIA

Ranked 11 out of 89 countries

Source: Resource Governance Institute 2017 RGI

GDP current (US \$Bn) - Large growing economy

Source: World Bank

- Indonesia has a long successful mining history
- Macmahon has successfully operated in Indonesia for many years
- Currently at Martabe (since 2015) and Lhoknga quarry (since 2010)

BATU HIJAU

AMNT

- AMNT is an Indonesian mining company that acquired 82.2% of Batu Hijau mine from Newmont and Sumitomo in November 2016
- Supportive shareholder and two board representatives

Batu Hijau

- Open pit, copper-gold porphyry located on Sumbawa Island, Indonesia
- Second largest copper-gold mine in Indonesia (behind Grasberg)
- Commenced production in 2000
- Infrastructure includes: 120ktpd processing plant, 112MW coal-fired power plant, Benete port, town-site
- Conducting smelter feasibility currently
- First quartile of the global copper cost curve with a C1 cash cost of US\$1.17/lb Cu¹

Elang

- Potential to extend scope of work to Elang if developed
- Elang is one the world's largest undeveloped copper-gold porphyry deposits with a 13 billion lb Cu/ 20 million oz Au resource²
- Potential production of ~365mlbs Cu and ~480k oz Au per annum²

SUMBAWA ISLAND

1. Wood Mackenzie Ltd. Dataset 2017 Q1.
2. PT Medco Energi Internasional Tbk company website (see www.medcoenergi.com)

Life-of-mine Alliance Style contract

- Approved by shareholders in July 2017 and commenced in August 2017
- Cost reimbursable with a management fee and gain/pain share mechanism subject to cost and production targets
- Management fee payable if 90% of production target achieved
- US\$2.9 billion over 14 year life-of-mine
- US\$1.8 billion over the first 5 years from commencement – mining of cut back, movement of stockpiles thereafter

Gain share/pain share mechanism

- Gain share payable if 100% of production volume achieved and costs are below target
- Cost savings below target will be shared between MAH and AMNT, 40%/60% respectively
- Gain share/pain share to be tested every 6 months

Risk Management mechanisms

- Cost payments made monthly in advance
- AMNT shares held in escrow for 30 months
- Batu Hijau equipment depreciated over 60 months and paid in cash by AMNT ($\text{\$US145.6m} / 60 \text{ months} = \text{US\$2.4m} / \text{month}$)
- If contract terminated, AMNT obligated to purchase equipment back at written down value or have MAH shares to same value cancelled
- Pain share capped at the management fee - if costs are more than expected this will only erode the profit component

Performance Update

- Project performing well
- Operating below target costs - supplier contracts renegotiated and we are achieving good truck and excavator productivities
- FY19 guidance does not include any potential gain share

DIGITAL TRANSFORMATION

Optimising performance and equipment health through deployment of next generation operational technology

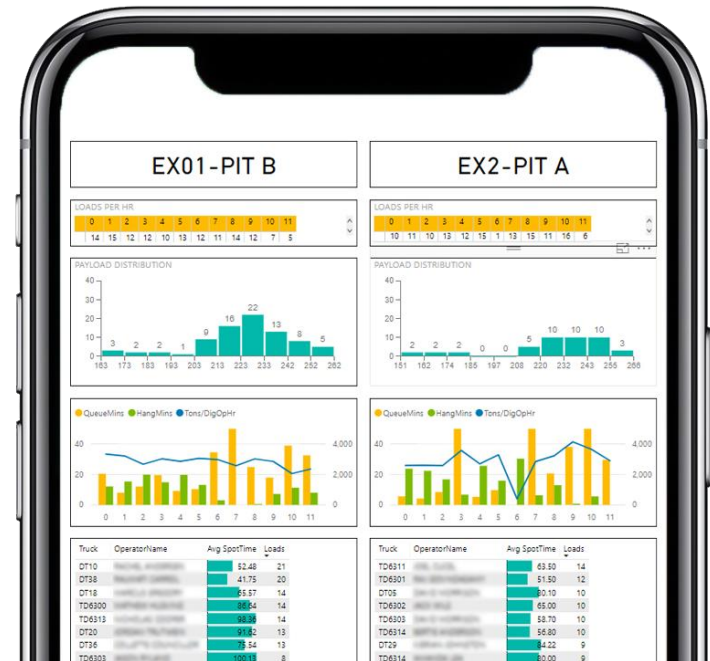

- Increasing visibility of business performance – implemented phase 1 of our ERP digital transformation project
- Improving decision making through near real time actionable insights directly to our frontline team
- Extending our technology capability through Co-development programs
