

# SCORPION MINERALS LIMITED

ASX ANNOUNCEMENT

30 April 2019

## ACTIVITIES REPORT FOR THE QUARTER ENDED 31 March 2019

Scorpion Minerals Limited ("Company") (ASX: SCN) provides the following review of activities for the quarter ended 31st March 2019.

### SCORPION METALS LIMITED

#### Dablo Pd-Pt-Au-Ni-Cu Project, Burkina Faso

The Company (through an agreement entered into by its wholly owned subsidiary and Newgenco Exploration (West Africa) Pty Ltd (NEWA)), has rights to acquire up to a 70% joint venture interest in the Dablo exploration project located in Burkina Faso, Africa, (refer Figure 1).

On the 23<sup>rd</sup> October 2018 (refer ASX:PUN release "Dablo Project Update"), the Company announced results from a 3000 m RC drilling programme completed at Dablo PGE-Au-Ni-Cu project earlier in the year (refer PUN:ASX announcements 12<sup>th</sup> June 2018 and 18<sup>th</sup> June 2018), where holes tested extensions to previous drilling and undrilled regional targets.

**Highlights (refer Figures 3, 4) announced included** two regional PGE-Au-Ni-Cu discoveries made south of Dablo North, at Tangaseiga and La Forge.

- Better results from drilling included: (3E = Pd+Pt+Au):
  - Dablo North: **29m @ 3.97 g/t 3E, 0.64% Ni, 0.24% Cu from 32m**
  - Tangaseiga: **24m @ 1.74 g/t 3E, 0.37% Ni, 0.08% Cu from 8m**
  - La Forge: **12m @ 3.00 g/t 3E, 0.50% Ni, 0.09% Cu from 66m**

Potential epigenetic orogenic high-grade gold mineralisation was discovered north of northern ultramafic contact at Dablo North:

- **2m @ 13.75 g/t Au from 88 m**

Results confirmed the potential for multiple zones of PGE-Au-Ni-Cu and lode Au mineralisation along the identified 6km strike of the Dablo Ultramafic-Mafic Intrusive Complex, with an additional 24km of interpreted corridor remains to be tested.

As noted in the Company's previous quarterly activities report, on 31 December 2018, the Burkina Faso Government declared a state of emergency in a number of provinces in northern and eastern Burkina Faso along the Mali, Niger, Togo and Benin borders close to the Dablo project area. As a result of the State of Emergency, no work is currently being undertaken in the field and planned work activity on the project is on hold until the situation stabilises. The Company has been seeking to work with NEWA in good faith to agree the terms of a standstill agreement until the security situation improves. Notwithstanding, the Company has received correspondence from NEWA advising that the exclusivity period to negotiate formal arrangements in relation to the Dablo project has come to an end. The Company is considering its position (including, without limitation, possible legal remedies that may be available to it) and will continue to keep the market informed of developments.

### BOARD OF DIRECTORS

Ms Bronwyn Barnes  
*Non-Executive Director*

Mr Craig Hall  
*Non-Executive Director*

Ms Carol New  
*Non-Executive Director,  
Company Secretary*

### Project Acquisition

Given the current security situation in Burkina Faso and the inability to progress activities at Dablo to date, the Company has commenced a process to secure an additional project. The focus is on mineral exploration projects in Australia that have a compatibility with the Mt Mulchay project. A number of projects have been identified and active discussions with parties are in progress. The Company will update the market on these discussions in due course.

## MT MULCAHY COPPER PROJECT

### Murchison, WA

#### Geology Discussion

The Mt Mulcahy project in Western Australia (Refer Figure 5) hosts the Mount Mulcahy copper-zinc deposit, a volcanic-hosted massive sulphide (VMS) zone of mineralisation with a JORC 2012 Measured, Indicated and Inferred Resource of 647,000 tonnes @ 2.4% copper, 1.8% zinc, 0.1% cobalt and 20g/t Ag (refer PUN:ASX release 25 September 2014) at the 'South Limb Pod' (SLP).

The folded horizon hosting this mineralisation forms a regional keel, where the surface expression can be traced for a distance of at least 12 kilometres along strike, and excellent potential exists for additional mineralisation to be discovered along this prospective horizon (refer Figure 8).

**Table 3: Current Mineral Resource Estimate, Mt Mulcahy Project**

Mt Mulcahy South Limb Pod Mineral Resource Estimate as at 30 <sup>th</sup> September 2018											
Resource Category	Grade						Contained Metal				
	Tonnes	Cu (%)	Zn (%)	Co (%)	Ag (g/t)	Au (g/t)	Cu (t)	Zn (t)	Co (t)	Ag (oz)	Au (oz)
Measured	193,000	3.0	2.3	0.1	25	0.3	5,800	4,400	220	157,000	2,000
Indicated	372,000	2.2	1.7	0.1	19	0.2	8,200	6,300	330	223,000	2,000
Inferred	82,000	1.5	1.3	0.1	13	0.2	1,200	1,100	60	35,000	
<b>TOTAL</b>	<b>647,000</b>	<b>2.4</b>	<b>1.8</b>	<b>0.1</b>	<b>20</b>	<b>0.2</b>	<b>15,200</b>	<b>11,800</b>	<b>610</b>	<b>415,000</b>	<b>4,000</b>

**Figure 6: Plan of proposed SLP down plunge drilling.**

**Figure 7: Oblique section of proposed SLP down plunge drilling (red traces), viewed from North East. Previous drilling defining the current resource denoted by grey or black traces.**

### ***Geology Activities***

The Company is still awaiting the grant of ELA 20/931, and is finalising heritage agreements with the respective Native Title Claimant Group. Planned drilling of down-plunge extensional holes (refer Figures 6, 7) to the current resource at the SLP awaits the grant of the new licence.

The Company is also progressing its applications (P51/3016-17) in the Nowthanna area, also finalising heritage agreements with the respective Native Title Claimant Group. The project is some 50km south of Meekatharra, and contains stratigraphy which the Company believes has the potential to host VMS mineralisation.

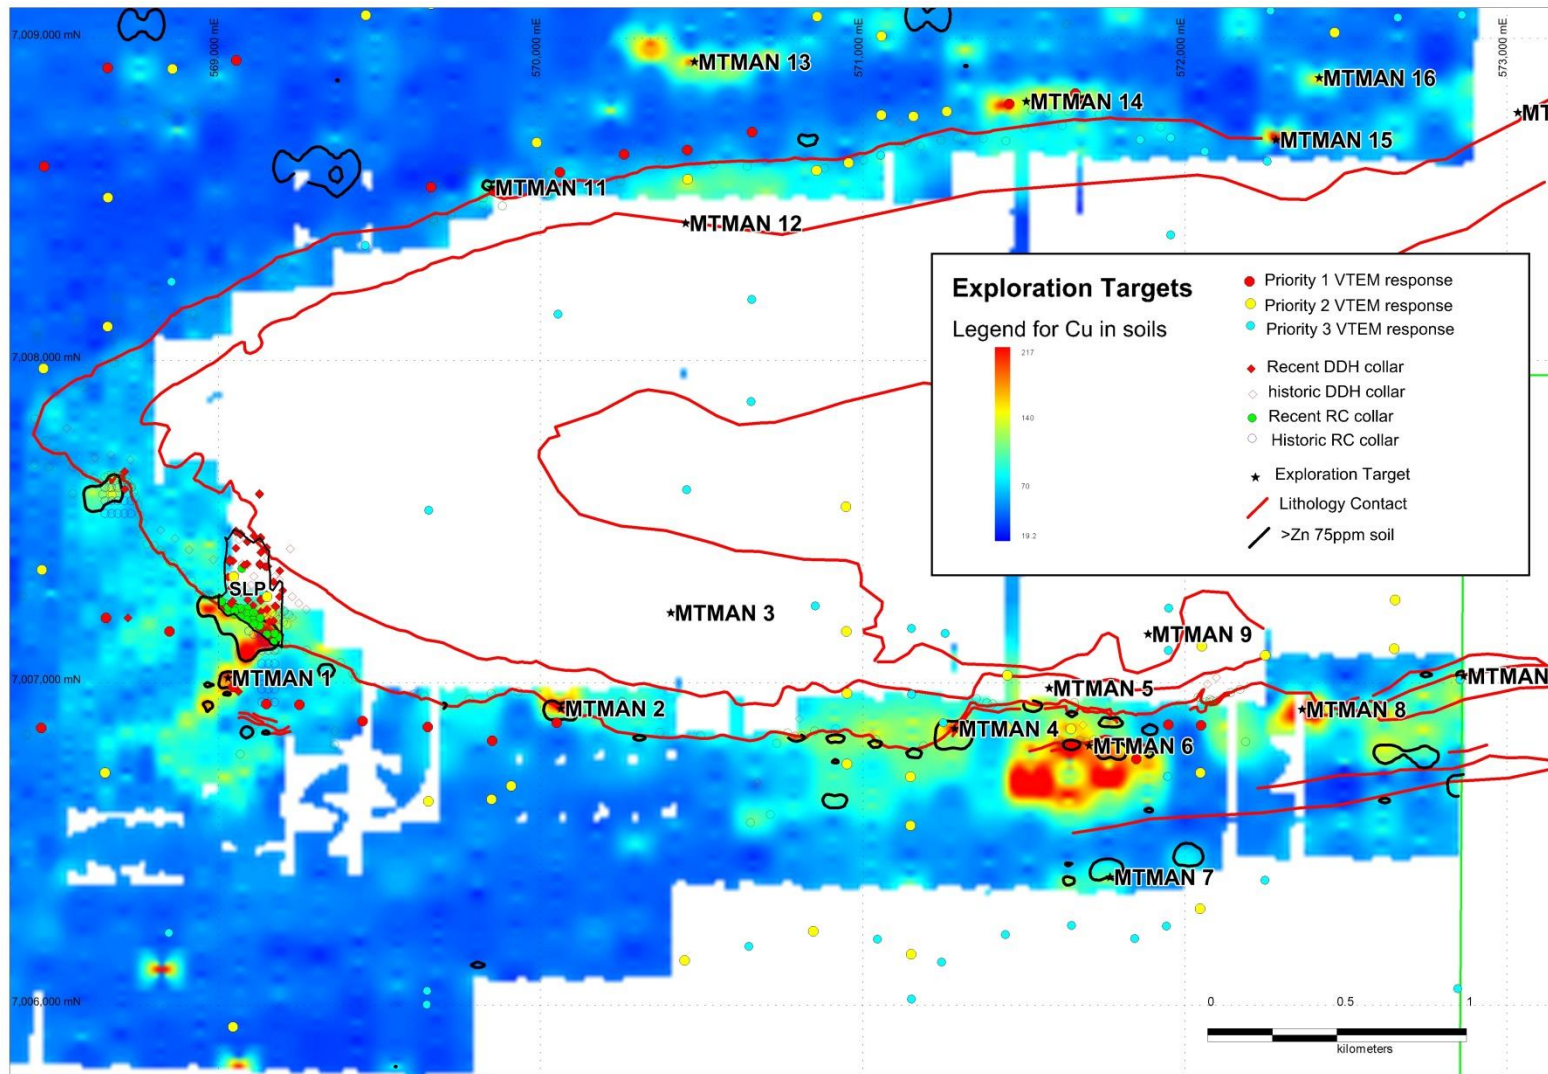

Figure 8: Mt Mulcahy priority exploration areas (MTMAN designation), in relation to South Limb Pod (SLP), shown with soil geochemistry, VTEM anomalies, and lithology contacts.

## **CORPORATE**

During the quarter, Ms Carol New was appointed as Company Secretary following the resignation of Mr Brendon Morton. Ms New and Mr Craig Hall were appointed as non-executive directors following the resignations of Mr Grant Osborne and Mr Neil Porter.

### ***Enquiries***

**Ms Bronwyn Barnes**  
**Non-Executive Director**  
**T: +61 8 6241 1877**

## **Competent Persons Statement 1**

*The information in this report that relates to the geology and Exploration Results relating to the Dablo Project in Burkina Faso is based on, and fairly reflects information compiled by Mr Grant Osborne, whom is a member of the Australian Institute of Geoscientists. Mr Osborne is a consultant to Pegasus Metals Limited and has sufficient experience which is relevant to the style of mineralisation and types of deposit under consideration and to the activity he is undertaking to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Osborne consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.*

## **Competent Persons Statement 2**

*The information in this report that relates to the Exploration Results and Mineral Resources at the Mt Mulcahy Project is based on information reviewed by Mr Craig Hall, whom is a member of the Australian Institute of Geoscientists. Mr Hall is a contractor to Pegasus Metals Limited and has sufficient experience which is relevant to the style of mineralisation and types of deposit under consideration and to the activity he is undertaking to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code 2012)'. Mr Hall consents to the inclusion of the data in the form and context in which it appears.*

*The information in this report that relates to the Mt Mulcahy Mineral Resource is based on information originally compiled by Mr Rob Spiers, an independent consultant to Pegasus Metals Limited and a then full-time employee and Director of H&S Consultants Pty Ltd (formerly Hellman & Schofield Pty Ltd), and reviewed by Mr Hall. This information was originally issued in the Company's ASX announcement "Maiden Copper-Zinc Resource at Mt Mulcahy", released to the ASX on 25th September 2014. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements. The company confirms that the form and context in which the findings are presented have not materially modified from the original market announcements.*

## **Forward Looking Statements**

*Pegasus Metals Limited has prepared this announcement based on information available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this announcement. To the maximum extent permitted by law, none of Pegasus Metals Ltd, its Directors, employees or agents, advisers, nor any other person accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this announcement or its contents or otherwise arising in connection with it. This announcement is not an offer, invitation, solicitation or other recommendation with respect to the subscription for, purchase or sale of any security, and neither this announcement nor anything in it shall form the basis of any contract or commitment whatsoever. This announcement may contain forward looking statements that are subject to risk factors associated with exploration, mining and production businesses. It is believed that the expectations reflected in these statements are reasonable but they may be affected by a variety of variables and changes in underlying assumptions which could cause actual results or trends to differ materially, including but not limited to price fluctuations, actual demand, currency fluctuations, drilling and production results, reserve estimations, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory changes, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimate.*

## Appendix 1: Tenement Schedule (ASX Listing Rule 5.3.3)

- *The mining tenements held at the end of each quarter and their location*

### ➤ TENEMENT SCHEDULE

TENEMENT No.	LOCATION	STATUS	INTEREST %	HOLDER
E20/931	WA	Application	100	Pegasus Metals Ltd
E20/840	WA	Granted	100	Pegasus Metals Ltd
P51/3016	WA	Application	100	Pegasus Metals Ltd
P51/3017	WA	Application	100	Pegasus Metals Ltd

- *The mining tenements acquired during the quarter and their location*

Nil

- *The mining tenements disposed of during the quarter and their location*

Nil

- *The beneficial percentage interests held in farm-in or farm-out agreements at the end of the quarter*

15% of Dablo 1,2,3,4- Burkina Faso.

- *The beneficial percentage interests in farm-in or farm-out agreements acquired or disposed of during the quarter*

Nil

+Rule 5.5

### Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
