PARKWAY MINERALS NL DECEMBER 2018 QUARTERLY REPORT

Parkway Minerals ("**Parkway**" or "**The Company**") is pleased to provide an update of activities for the December 2018 quarter.

HIGHLIGHTS

Davenport Resources (44.3 Million shares held, 31%)

- Second Inferred Resource of 1.7 Billion tonnes announced on part of Mülhausen-Nohra mining licence.
- Total Inferred Resource at South Harz now 3.4 Billion tonnes @ 10.5% K₂O.

Dandaragan Trough Project

- Revised Exploration Target Announced for Dambadgee.

Strategic Investment

- PWN owns 7.32 Million Lithium Australia shares.

DAVENPORT RESOURCES

Davenport Resources (DAV) is focused on the development of the South Harz potash field in Thuringia, Central Germany. Davenport owns 2 exploration and 3 mining licences (figs 1 & 2). The mining licences were purchased from the German Government in late 2017 (ASX release 25 October 2017) and are perpetual, with no expenditure or royalty commitments. The mining licences were subject to detailed drilling in 1960s and 80s, when the field was owned by the Government of East Germany. Data from over 100 drill holes is available.

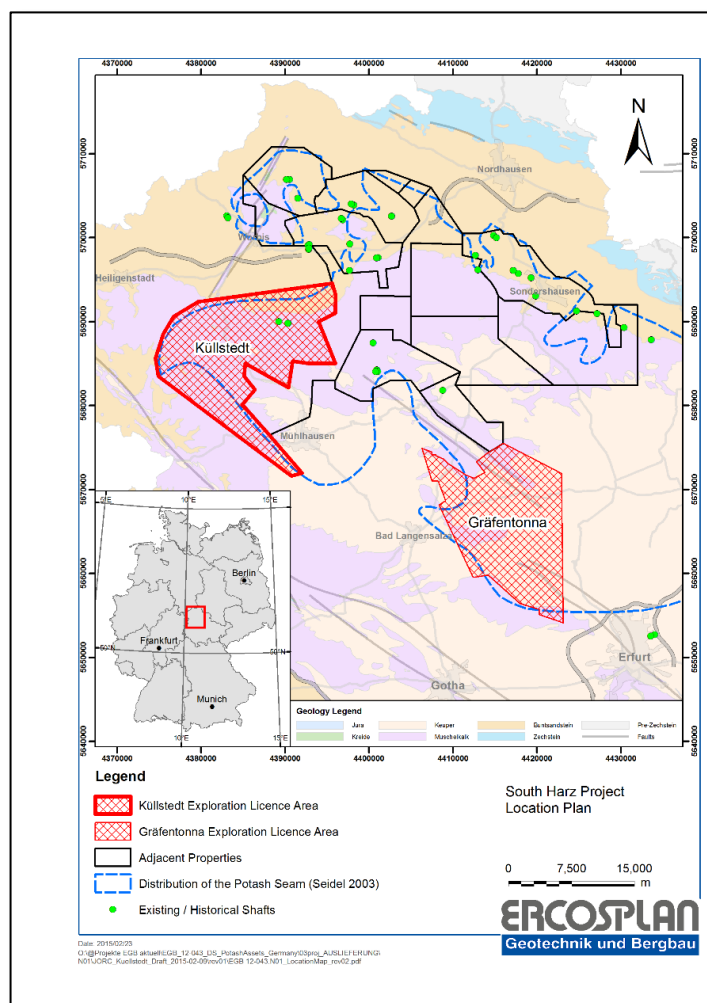

Figure 1: South Harz Project Location

Review of the drill data is in progress and has allowed reporting of significant historic (Soviet era) resources. The quality of the drilling information is high, and Davenport is working to update the resources to JORC 2012 compliance. JORC compliant Inferred Resources now total over 3B tonnes as shown in table 1.

LICENCE	TONNES, Millions	K ₂ O
EBELEBEN		
Sylvinite	324	15.6
Carnallatite	253	7.5
MUHLHAUSEN		
Sylvinite	935	12.3
Carnallatite	1893	9.2
TOTAL	3,405	10.5

Table 1 South Harz JORC Inferred Resources

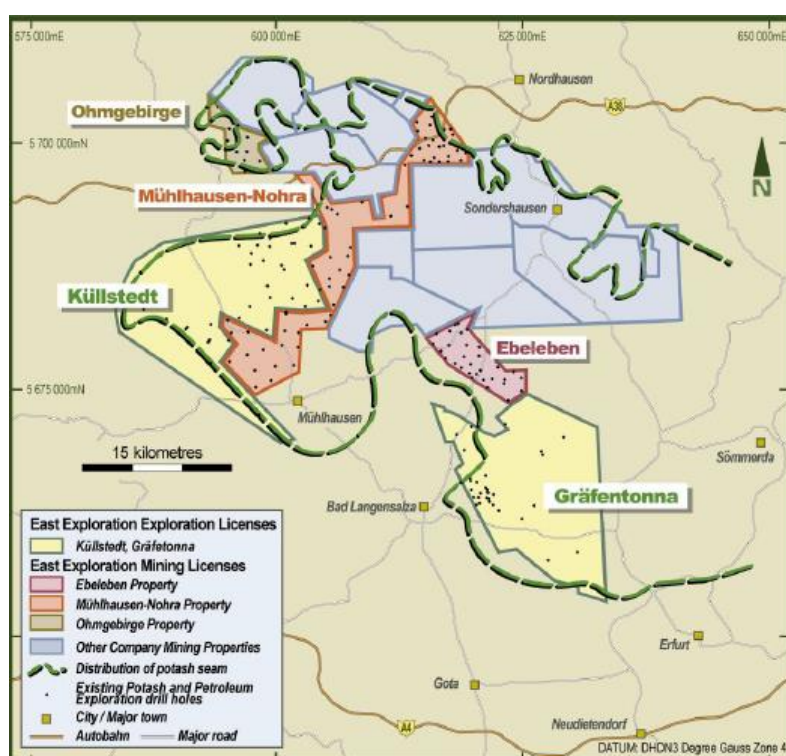

Figure 2: Location of mining and exploration licences

DANDARAGAN TROUGH PROJECT

Parkway holds 100% the Dinner Hill Potash and Phosphate Deposit, located some 200km north of Perth in Western Australia, (Figure 3). Dinner Hill forms part of the larger Dandaragan Trough Project (**DTP**), where Parkway holds over 1,000km² of exploration tenure. Sedimentary rocks within the trough contain glauconite, a potash rich mica, and phosphate nodules. The objective is to produce phosphate and sulphate of potash fertilisers and a range of valuable by-products from the phosphate and glauconite present within the sediments of the Dandaragan Trough. The Dinner Hill Project covers some +332 km² within the DTP.

The DTP has unique advantages of excellent connectivity to transport facilities, infrastructure and proximity to local and regional markets. It is located within an easy drive from Perth, and is less than 200km from two major bulk export ports, Kwinana and Geraldton. It is well situated in relation to major project infrastructure, and significant local and regional markets for its products.

The Exploration Target for Dambadgee Prospect was updated during the period and released after period end (ASX Release 7 January 2019). Based upon drilling completed in 2018, the potash mineralisation is reported as being within an Exploration Target of between 6 billion tonnes and 8 billion tonnes at a grade of between 3.0% and 3.5% K₂O and between 0.9% and 1.3% P₂O₅. The potential quantities and grades of the target are conceptual in nature, as there has been insufficient exploration to estimate Mineral Resources over their areas and as it is uncertain if further exploration will result in the estimation of one or more Mineral Resources.

Figure 3: Location plan, Dandaragan Trough Project

Dinner Hill Resource Statement

The resources for the Dinner Hill project were recalculated and reported to ASX on 26 September 2017. The resources cover an area of approximately 52 km² and are shown in table 1.

DINNER HILL RESOURCE**Table1 Dinner Hill Deposit: Resource Summary**

Resource	Category	Tonnes (Mt)	P ₂ O ₅ (%)	K ₂ O (%)
Phosphate	Indicated	160	2.45	
	Inferred	470	1.7	
	Total	630	1.85	
Potash				
Potash Resources included within the Phosphate Resource area	Indicated	160		4.2
	Inferred	470		4.4
	Total	630		4.4
Potash Resource outside the Phosphate Resource area	Indicated	50		2.65
	Inferred	230		2.6
	Total	280		2.6
Total Potash Resources	Indicated	210		3.8
	Inferred	700		3.8
	Totals	910		3.8

Note: Totals may differ from sum of individual items due to rounding

LAKE SEABROOK PROJECT

Exploration licences in the Lake Seabrook area, north of Southern Cross were granted during the quarter, brine samples are expected to be collected and analysed during the June quarter.

SHAREHOLDINGS

Parkway owns shares in the following ASX listed Companies:

- Lithium Australia (ASX: LIT) 7.32 M
- Davenport (ASX: DAV) 44.3 M

CORPORATE

Director Chew Wai Chuen resigned during the period.

Parkway monitors activities and opportunities that may be relevant to the Company's objectives. This may include expanding or changing the scope of existing projects or engaging with third parties on other projects. If a proposal advances, details would be announced in accordance with the Company's continuous disclosure obligations.

ANNOUNCEMENTS

The following ASX announcements were made during the quarter:

03 Dec 2018	Option Expiry
26 Nov 2018	Variation of Partly Paid Share Terms
26 Nov 2018	Results of Annual General Meeting
26 Nov 2018	Results of Special Meeting
26 Nov 2018	Chairman's Address to Shareholders

14 Nov 2018	Resource Upgrade for South Harz Project
01 Nov 2018	Option Expiry Notification
25 Oct 2018	Notice of Special Meeting - Partley Paid Shareholders
25 Oct 2018	Notice of Annual General Meeting/Proxy Form
16 Oct 2018	Significant Resource Upgrade for Davenport Resources
03 Oct 2018	Director Resignation & Appendix 3Z

The following announcements were made subsequent to 31 December 2018

7 Jan 2019	Change in substantial holding
07 Jan 2019	Exploration Target for Dambadgee Prospect, Dandaragan Trough

CASH ON HAND

At 31 December 2018, \$0.428 million cash was available.

Competent Person's Statement:

Dandaragan Trough Project

Information in this announcement that relate to Mineral Resources, are based on, and fairly represent, the Mineral Resource and supporting documentation extracted from the reports which have been prepared by a Competent Person in compliance with the JORC Code (2012) and released to ASX by the Company on 26 September 2017 and 28 September 2017. Parkway Minerals confirms that it is not aware of any new information or data that materially affect the information included in the original announcements. All material assumptions and technical parameters underpinning the Mineral Resource estimate in those previous ASX releases continue to apply and have not materially changed. The Company further confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
