Contract Award

DTI to supply Passenger Information Systems to Alstom Ubunye (Pty) Ltd for 576 trains in South Africa

DTI Group Ltd (ASX: DTI) (DTI) is pleased to announce it has finalised contract negotiations with Alstom Ubunye (Pty) Ltd (Ubunye) for the supply of Passenger Information systems for 576 trains to be manufactured by Ubunye for delivery to the Passenger Rail Agency of South Africa (PRASA).

Each PRASA train will incorporate lateral, front and internal displays on each carriage. Using DTI technology, these products will be manufactured in South Africa, providing DTI with an additional manufacturing location and the opportunity to manufacture a range of products for the South African and global markets.

This contract, valued at A\$19.1 million, was previously announced to ASX as a Letter of Intent (LoI) on 12 June 2017 and has been reported in DTI's contracted Order Book since that date. Deliveries for the systems are expected to commence in December 2018 and will be supplied over a period of ten years until 2028. After an initial ramp-up, DTI is expecting to deliver approximately 60 trainsets annually.

This contract is directly linked to the recent research and development investment made by DTI in new and innovative products for the rail industry. It is a strong endorsement of both DTI's product development capabilities and its ability to deploy products and solutions to a global market. This order continues to reinforce DTI's growing position in the global rail sector.
