Royal Australian College of General Practitioners – PRIZMA Sponsorship

- **Prizma Sponsorship Program offered to over 40,000 RACGP Members**

Medical device and Telehealth company **G Medical Innovations Holdings Limited (ASX:GMV)** (“**G Medical**” or the “**Company**”), is pleased to advise that it has entered into a Sponsorship Agreement in support of the Royal Australian College of General Practitioners (RACGP), Members’ Digital Care Pack Campaign.

The Prizma medical device, telehealth APP and Patient and Physician Portals will be offered at special rates for RACGP Members for the duration of the Digital Care Pack Campaign (13 May 2020 – 30 October 2020).

The RACGP said *“Our Member Digital Care Pack Campaign is providing RACGP members access to special offers to support and help them personally and professionally during what has been a turbulent year with COVID-19 and the bushfires.”*

Director and VP Corporate Development Dr. Brendan de Kauwe said *“G Medical is proud to be able to offer the RACGP Members information and access to our medically certified devices and telehealth platforms. Our technologies are both beneficial during the current COVID-19 pandemic, as well as beyond for the management of chronic illnesses and remote and vital sign patient monitoring. Our Company is well positioned to be a long term and integrated provider of medical technologies and e-Health solutions, as telemedicine becomes increasingly understood and adopted by the medical profession, governments and the community in general.”*

About the RACGP

Representing more than 40,000 members, The Royal Australian College of General Practitioners (RACGP) is Australia’s largest professional general practice organisation and represents urban and rural general practitioners.

The RACGP’s mission is to improve the health and wellbeing of all people in Australia by supporting GPs, general practice registrars and medical students through its principal activities of education, training and research and by assessing doctors’ skills and knowledge, supplying ongoing professional development activities, developing resources and guidelines, helping GPs with issues that affect their practice, and developing standards that general practices use to ensure high quality healthcare.

The RACGP has a proud history of achievements, including the development of the Standards for general practices and introducing continuing professional development.

About G Medical products:

G Medical offers a suite of consumer and professional clinical-grade products (with regulatory approval) that are positioned to streamline healthcare services, improve remote access to medical data, reduce costs, improve quality of care, and make healthcare more personalized and precise. Currently the Company is focusing on two main verticals.

The 'Prizma' Medical Smartphone Case is one of two key products developed by G Medical and is aimed at everyday consumers focused on their medical health and wellbeing. The 'Prizma' allows consumers to turn their smartphone into a mobile medical monitor to measure a wide range of vital signs, with the added advantage that users are able to store their medical data in the cloud and share it with third parties such as healthcare professionals and family members.

G Medical also offers a professional real-time patient continuous monitoring solution, G Medical's Vital Signs Monitoring System (VSMS) and G Medical Patch (GMP). This modular solution measures a wide range of vital signs that are automatically presented in a call centre (IDTF) or a hospital setting. The GMP assists in diagnosing patient complaints and conditions remotely, from pre-hospitalisation, hospitalisation and through to post discharge home-based settings.
