Dear Daniel

**Trading Halt**

Predictive Discovery Limited ("the Company") requests that a trading halt be granted by ASX with respect to its ordinary shares.

In accordance with Listing Rule 17.1:

- (a) The Company notes the significant increase in its share price and volume of trading today. As announced on 7 May 2020, the Company is expecting to receive the first batch of power auger drilling results in the coming days (it has not received them yet). In order to manage its continuous disclosure obligations, the Company requests a trading halt of its securities to allow it time to receive and interpret the results and respond to a price query received from ASX earlier today.
- (b) The Company requests that the trading halt remains in place until the earlier of the Company releasing the announcement referred to in paragraph (a) or the commencement of trading on 26 May 2020.
- (c) The event which will end the trading halt is the announcement referred to in paragraph (a).
- (d) The Company is not aware of any reason why the trading halt should not be granted or of any other information necessary to inform the market about the trading halt.

Yours faithfully

Eric Moore  
Company Secretary  
Predictive Discovery Limited
