The Journey to Full Operational Capacity

Disclaimer

This presentation has been prepared by Altura Mining Limited (“Altura” or the “Company”). It should not be considered as an invitation or offer to subscribe for or purchase any securities in the Company or as an inducement to make an invitation or offer with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation.

This presentation is provided on the basis that none of Altura nor its respective officers, shareholders, related bodies corporate, partners, affiliates, employees, representatives and advisers make any representation or warranty (express or implied) as to the accuracy, reliability, relevance or completeness of the material contained in the presentation and nothing contained in the presentation is, or may be relied upon as, a promise, representation or warranty, whether as to the past or the future. The Company hereby excludes all warranties that can be excluded by law.

The presentation contains forward looking information and prospective financial material which is predictive in nature and may be affected by inaccurate assumptions or by known or unknown risks and uncertainties and may differ materially from results ultimately achieved. All references to future production, production targets and resource targets and infrastructure access are subject to the completion of all necessary feasibility studies, permitting, construction, financing arrangements and infrastructure-related agreements. Where such a reference is made, it should be read subject to this paragraph and in conjunction with further information about the Mineral Resources, Ore Reserves and Exploration Results, as well as the Competent Persons' Statements.

All persons should consider seeking appropriate professional advice in reviewing the presentation and all other information with respect to the Company and evaluating the business, financial performance and operations of the Company. Neither the provision of the presentation nor any information contained in the presentation or subsequently communicated to any person in connection with the presentation is, or should be taken as, constituting the giving of investment advice to any person.

Building a Standout Lithium Producer

- **2009/10** Exploration
- **2011-13** Scoping Study
- **2015-16** Feasibility Study
- 🔧 **2017 March** Breaking Ground, commencement of construction
- **2018 April** Commissioning
- 🔬 **2018 July** First production of lithium concentrate
- 🚛 **2018 August** First haulage from mine to Port Hedland
- 🤝 **2018 October** First customer shipment
- 🏆 **2019 March** Declaration of commercial production
- **2019 June-July** Ningbo Shanshan becomes a major shareholder
- 🏆 **2019 October** Record monthly production
- 🏆 **2019 December** Record quarterly production, sales and shipping
- 🏆 **2020 January** Record concentrate cargo of 24,500 wet metric tonnes (wmt)

2019 – A Year in Review

The Lithium Market

Key market developments

- December 2019 a known pipeline for 115 Battery Mega Factories
- Major lithium chemical companies vying for increased market share
- Notable Corporate transactions
- Subsidies and penalties

Australian Operators

- Extremely tough year for lithium miners
- Production cutbacks and revised forecasted production projections
- Pricing pushed below break even for some operations

Pricing

- Global lithium chemical prices were down 12%
- SC6 prices down and not sustainable
- Lithium chemical prices trending down throughout 2019
- Assessed current EXW China domestic prices at/below costs
- Assessed CIF Nth Asia prices maintaining margin

Supply and Demand

- Demand for lithium chemicals was up 18%
- Spodumene supply significantly reduced at the end of 2019
- Challenging environment for Australian, based-vertically integrated operations

The Altura Operation in 2019

Operational Ramp-up and Commercial Production

- Strong ramp-up and increased production throughout 2019, despite market conditions
- Record production December quarter 2019
- Strong focus on driving costs – currently ~US\$350/wmt

Quarterly Production (WMT)

Mining and Process Quantities

	Units	Mar Qtr 2019	June Qtr 2019	Sept Qtr 2019	Dec Qtr 2019	Change (%)
Ore mined	wmt	404,087	439,559	476,093	429,890	-10%
Waste mined	wmt	1,426,256	1,546,719	1,484,978	1,493,295	1%
Total material mined	bcm	622,929	675,726	670,842	686,501	2%
Ore mined grade Li ₂ O	%	1.16	1.10	1.18	1.27	8%
Ore processed	wmt	251,200	337,786	376,530	345,553	-8%
Lithium concentrate produced	wmt	29,627	42,402	45,484	47,181	4%

C1 USD/T

Offtake and Sales

- Strong sales and shipping levels throughout 2019
- Diversified and quality offtake partners, including Ganfeng Lithium, Guangdong Weihua, Shandong Ruifu and Lionergy Limited
- Ongoing discussions with a range of converters, EV related businesses and lithium chemical end-users for offtake and partnering options
- Stable, high-quality product.
