Directors' Report including Remuneration Report

The directors present their report on Alt Resources Limited for the Year ended 30 June 2020.

Directors

The names of the directors in office at any time during, or since the end of, the year are:

Names	Position	Appointed/Resigned
William Hugh Ellis	Non-Executive Director & Chairman	Appointed: 11 April 2014
Neva Collings	Non-Executive Director	Appointed: 11 April 2014
Andrew Sparke	Executive Director	Appointed: 1 September 2018
Grant Harding	Non-Executive Director	Appointed: 4 February 2020

Directors have been in office since the start of the Year to the date of this report unless otherwise stated. Detailed information on directors and senior management is located at page 6.

Principal activities

The principal activity of the Company during the financial year was to continue exploration activity in Western Australia.

Alt Resources Limited has discontinued its agreements with Mount Roberts Mining Pty Ltd to concentrate its efforts in the Bottle Creek and Mount Ida areas. The Company continued the purchase of the Bottle Creek mining tenements.

Alt Resources Limited announced on 7 May 2020 that it had received an all cash off-market takeover offer bid from private equity firm Aurenne Group Holdings Pty Ltd.

This offer to shareholders consisted of:

- A\$0.0505 for every 1 Alt Resources (ARS) share held;
- Including ARS shares to be issued upon exercising of existing unlisted options;
- Including Alt Resources shares issued with shareholder approval received at General Meeting held 31 July 2020.

No other significant changes in the nature of the Company's activity occurred during the financial year.

Operating results

The deficit of the Company after providing for income tax amounted to (\$2,151,719) (2019 (Restated): (\$1,925,436)).

Dividends

No dividends have been paid during the year and no recommendation for payment of dividends has been made.

Significant changes in state of affairs

The following significant changes in the state of affairs of the Company occurred during the financial year:

- i) An additional \$5,718,817 after transaction costs has been raised in share capital during the year to fund operations.
- ii) Alt Resources Limited continued its purchase of the Bottle Creek tenements with the second \$500,000 instalment payment being made on 1 July 2019 and the third \$500,000 instalment paid on 29 June 2020. The Company has made \$1,650,000 in payments as at 30 June 2020. A final payment of \$4,500,000 is due to be paid on 29 November 2020.
- iii) The \$371,414 Landholders Duty in relation to the Bottle Creek acquisition imposed by the WA Office of State Revenue was paid on 25 April 2020.
- iv) The Company received a \$3,679,296 Convertible Note Loan from Aurenne Ularring Pty Ltd on 7 May 2020 in conjunction with its takeover offer for Alt resources Limited.

Future developments and results

The Company's shareholders received a cash offer to purchase all of their shares for 5.05 cents per share which was lodged on 15 June 2020.

The Company's future directions may undergo significant changes depending upon the success or otherwise of the takeover offer.

Therefore the Company has no active plans to continue raising working capital to continue its exploration program and develop mining operations.

Any significant information regarding the takeover offer has been released in the market and to shareholders through ASX.

Options

The Company granted 4,500,000 options to key management personnel (KMP) on 31 July 2019 as approved at the General Meeting held on 26 July 2019.

The Company granted 11,350,000 broker options to DJ Carmichaels Pty Ltd on 31 July 2019 as approved at the General Meeting held on 26 July 2019.

The Company granted 15,000,000 broker options to DJ Carmichaels Pty Ltd on 30 September 2019 as approved at the General Meeting held on 23 September 2019.

The Company granted 8,096,391 options to key management personnel (KMP) on 11 December 2019 as approved at the Annual General Meeting held on 29 November 2019.

The Company granted 1,000,000 options to Bruce Legendre as announced on 18 December 2019.

Significant events after the balance date

The Company announced the Mt Ida and Bottle Creek Projects Pre-feasibility Study on 10 July 2020 confirming the technical and financial viability of a 750ktpa mining and processing plant at Alt Resources Mt Ida Bottle Creek Project located in the Northern Goldfields of Western Australia.

This announcement also detailed the Company's Maiden Ore Reserve of 272,000oz gold @ 1.8g/t Au and 2.1Moz silver @ 15.8g/t Ag based on AUD \$2.200oz gold price and AUD \$22oz silver price.

The Board of Directors of Alt Resources Limited announced the release of the Target Statement on 17 July 2020 in response to the Takeover Offer Bidder's statement from Aurene Ularring Pty Ltd.

The takeover offer was declared unconditional on 20 August 2020. Aurene Ularring Pty Ltd announced on 27 August 2020 that it had received acceptances exceeding 90% of the company's total shares and will compulsorily acquire the remaining shares. Aurene Ularring Pty Ltd previously announced their intention to delist the Company and convert it to a private company as soon as practically possible.

Since the end of the year, the Directors have not become aware of any other matters or circumstance not otherwise dealt with in this report or the Financial Statements, that has significantly or may significantly affect the operations of the company, the results of those operations or the state of affairs of the company in subsequent years, the financial effects of which have not been provided for in the 30 June 2020 financial statements.

Economic Sustainability Risk:

The nature of the exploration activity undertaken by the company is inherently risky. The risk relative to the ability to continue as a going concern is outlined in note: 1 (e) of the financial statements.

Environmental Sustainability Risk:

The Company's operations are not regulated by any significant environmental regulations under a law of the Commonwealth or of a state or territory other than the environmental and planning laws of New South Wales and Western Australia.

The company is not aware of any significant risk arising from non-compliance.

Social Sustainability Risk:

Given the size and complexity of the company's business and the fact that the company is not involved in the design or production of any material, the concept of Social Sustainability is not yet a relevant risk to its operations.

Indemnification and insurance of officers and auditors

No indemnities have been given during or since the end of the financial year, for any person who is or has been an officer or auditor of Alt Resources Limited.

The company maintains a policy of insurance to cover the risk related to directors' and officers' liability.

Remuneration Report

The Remuneration Report outlines the key management personnel remuneration arrangements for the Company, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

The Remuneration Report is set out under the following main headings:

Principles used to determine the nature and amount of remuneration

Service agreements

Details of remuneration for the year ended 30 June 2020

- Cash Benefits
- Equity based compensation

Additional disclosure relating to key management personnel.

Principles used to determine the nature and amount of remuneration

The Board of Alt Resources Limited acts as the Remuneration Committee (as per the Corporate Governance Statement) to allow the Company to maintain its ability to attract and retain the best executives and Directors to run and manage the entity, as well as create alignment between Directors, executives and shareholders. The remuneration policy is not based on the Company's income, as the Company does not generate income or earnings from its exploration activities.

Key management personnel have authority and responsibility for planning, directing and controlling the activities of the Company. Key management personnel comprise the Chairman and Directors of the Company, the Chief Executive Officer (CEO) and Chief Financial Officer (CFO).

The Company has performed well in 2019-20 maintaining its low-cost administration and cost-efficient discovery.

A continuing objective of the Board has been to minimise the number of Board members and senior executives it employs to maintain the total remuneration of such executives at a level that is commensurate with the size of the Company and the cash resources of the Company.

The Company's employee share scheme which was approved by shareholders in 2015 was replaced in the 2019/20 financial year with shareholder approval granted at the General Meeting held on 31 July 2020. Remuneration policy for Directors and senior executives is reviewed annually by the Board and includes a mix, as determined by the Board and depending on the nature of employment agreements, of fixed remuneration, superannuation, fringe benefits, short term incentives, long term incentives including securities, subject to any necessary shareholder or regulatory approvals.

Reviews consider the entity's performance, Executive and Non-Executive Director performance and comparable information from industry, including other listed companies in the resources sector. Criteria for executive and director appraisal include:

- a) maintaining high standards of workplace health and safety, environmental compliance and community liaison
- b) leading the development of strategy, and communicating this to stakeholders
- c) maintaining and adding to capital resources necessary to execute the company's strategy, with minimal dilution and costs to shareholders
- d) technical advancement in the exploration potential of the project areas
- e) acquisition of new assets to improve shareholder value
- f) managing operations and expenditure to efficient levels and within budgets,
- g) preserving financial and business integrity and managing risk under difficult industry conditions
- h) recruiting, managing and training personnel to ensure access to high levels of skill in the industry
- i) managing investor relations and Company communication
- j) ability to multi-skill and cover as much of the company's skill needs from in-house resources

The Company's policy in respect of senior executives is to remunerate them on the basis of their job function, taking into account their qualifications and experience. The level of remuneration has been determined by the Board taking into account the position and responsibilities for which each Board member and senior executive is charged.

Developing and retaining exploration personnel expertise, therefore enabling the best possible examination and enhancement of the Company's exploration portfolio is considered to be a primary objective and this is required to be done whilst operating to high standards of governance, including workplace safety.

The Board is aware of the need to maintain competitive remuneration to reward performance, which benefits shareholder and advances the Company. To this end the Company will maintain short term and long-term incentive programs to motivate and reward those people who create shareholder value and make the greatest contribution to the Company.

Service Agreements

Directors

Directors are subject to retirement by rotation in accordance with the Company's Constitution. The Directors' individual appointment may continue for further terms if re-elected at future Annual General Meetings.

Non-executive Director, Neva Collings' current service agreement was renewed on 23 November 2018 and is current until 22 November 2022.

Executive Director, Andrew Sparke's current service agreement was renewed on 1 September 2019 and is current until at least 31 August 2020.

Non-Executive Director and Chairman, William Ellis' current service agreement was renewed on 1 November 2019 with remuneration subject to review on 1 July of each year.

The Company does not have any retirement benefit obligations to the above upon their cessation as Directors.

Other Key Management Personnel

Chief Executive Officer, James Anderson's Executive services Agreement was reviewed on 15 January 2020 and is current until 14 January 2022.

Chief Financial Officer, Tim Symons' current service agreement was entered into on 15th August 2018 and remains current with remuneration subject to review on an annual basis.

Details of Remuneration for the Year Ended 30 June 2020

The remuneration for each Director of the entity and other Key Management Personnel during the year was as follows:

Cash Benefits

Benefits to Directors consisted mainly of cash benefits in the period. A maximum Directors Pool (excluding salaries of Executive Directors) of \$200,000 was available in 2019-20 and represents the maximum aggregate payments to Directors, in their capacities as Directors that can be paid in any one year without requiring additional shareholder approval.

The actual Directors pool utilised in the 12-month period was \$150,624 in total.

Equity Based Compensation

From time to time, the Board will recommend the issue of shares and options to key management, directors, employees and in some cases contractors to the Company as an additional incentive for them to continue to generate shareholder wealth and to align their interests with those of shareholders of the Company. The Option price is set at a premium above market at the time of grant.

As part of the ongoing efforts to preserve cash whilst retaining the services of Directors the Board has elected to issue shares and options to key management personnel. The Board elected to issue \$269,500 in shares to KMPs or their nominees on 31 July 2019 as approved by the General Meeting held on 26 July 2019. The board elected to issue \$15,000 in shares to the CFO on 23 August 2019 as part of the CFO's service agreement. The Board elected to issue \$275,024 in shares to KMPs or their nominees on 11 December 2019 as approved by the Annual General Meeting held on 29 November 2019. The Board also elected to issue \$13,846 in options to KMPs or their nominees on 11 December 2019 as approved by the Annual General Meeting held on 29 November 2019.

Securities Issued during the Period

Placement

On 31 July 2019 the Company issued 12,557,500 fully paid ordinary shares to raise \$251,150 (before issue costs) to complete Tranche 2 of the June 2019 Capital Raising having received approval at the general meeting held on 26th July 2019.

A further 2,799,948 fully paid ordinary shares were issued by the Company on 31 July 19 from its available placement capacity under Rule 7.1

19,230,770 fully paid ordinary shares were issued on 5 August 2019 raising \$500,000 (before issue costs) as Tranche 1 of a Capital Raising using the Company's available placement capacity under ASX Listing Rule 7.1A.

85,000,000 fully paid ordinary shares were issued on 9 August 2019 raising \$2,125,000 (before issue costs) to complete Tranche 1 of the Capital Raising using the Company's available placement capacity under ASX Listing Rule 7.1 and Rule 7.1A as ratified at the General Meeting held on 23 September 2019.

A further 70,000,000 fully paid ordinary shares were issued on 26 September 2019 raising \$1,750,000 (before issue costs) as part of Tranche 2 of the August 2019 Capital Raising having received approval at the General Meeting held on 23 September 2019.

A further 3,000,000 fully paid ordinary shares were issued on 27 September 2019 raising \$75,000 (before issue costs) as part of Tranche 2 of the August 2019 Capital Raising having received approval at the General Meeting held on 23 September 2019.

A further 2,000,000 fully paid ordinary shares were issued on 30 September 2019 raising \$50,000 (before issue costs) as part of Tranche 2 of the August 2019 Capital Raising having received approval at the General Meeting held on 23 September 2019.

The Company issued 681,818 fully paid ordinary shares on 24 June 2020 raising \$23,864 (before issue costs) as a result of the exercising of 681,818 unlisted options held by a shareholder.

The Company issued a total of 259,938,357 fully paid ordinary shares during the 2019/20 Financial Year.

Use of Funds

The funds raised under the Placement were used as follows:

- To continue RC and diamond drilling programs at the Bottle Creek Gold Project;
- To undertake JORC 2012 resource modelling and metallurgical studies;
- To complete Pre-Feasibility studies;
- To pay a further two \$500,000 instalments towards the acquisition of the Bottle Creek mine project;
- To provide general working capital for the Company's current operations;

Alt Resources Limited

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies

The consolidated financial statements of the Group as at and for the year ended 30 June 2020 comprise Alt Resources Limited and its subsidiary (together referred to as the "Consolidated Entity" or "Group"). The Consolidated Entity is comprised of for-profit Companies limited by shares, incorporated and domiciled in Australia.

The functional and presentation currency of Alt Resources Limited is Australian dollars.

The financial statements were authorised for issue on 28 August 2020 by the directors of the Company and Group.

(a) Change in Accounting Policy

(i) Revenue from Contracts with Customers - Adoption of AASB 15

The Group has adopted AASB 15 *Revenue from Contracts with Customers* for the first time in the current half-year with a date of initial application of 1 July 2019.

The key changes to the Group's accounting policies and the impact on these financial statements from applying AASB 15 are described below.

The Group has applied AASB 15 using the cumulative effect method which means the comparative information has not been restated and continues to be reported under AASB 111, AASB 118 and related interpretations. All adjustments on the adoption of AASB 15 have been taken to retained earnings at 1 July 2019.

The entity is at the exploration stage and has not started generating any income, hence there is no impact of this standard on these financial statements.

(ii) Leases - Adoption of AASB 16

The Group has adopted AASB 16 Leases using the modified retrospective (cumulative catch-up) method from 1 July 2019 and therefore the comparative information for the year ended 30 June 2019 has not been restated and has been prepared in accordance with AASB 117 Leases and associated Accounting Interpretations.

The Group has elected to use the exception to lease accounting for short-term leases and leases of low-value assets, and the lease expense relating to these leases are recognized in the statement of profit or loss on a straight-line basis.

(iii) Capitalisation of exploration costs

The carrying amount of exploration and evaluation expenditure as at 30 June 2020 is supported by the following:

- The costs are carried forward in accordance with the Company's accounting policies which comply with AASB 6 *Exploration and Evaluation of Mineral Resources*

AASB 6 States:

For each *area of interest*, expenditures incurred in the exploration for and evaluation of mineral resources shall be:

- (a) expensed as incurred; or
- (b) partially or fully capitalised and recognised as an exploration and evaluation asset if the requirements of paragraph Aus7.2 are satisfied.

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

The Group recognises an exploration and evaluation asset if the following conditions are satisfied:

- (a) the rights of tenure of the area of interest are current; and
- (b) at least one of the following conditions is also met:
 - (i) the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; and
 - (ii) exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves.

Each separate area of interest is reviewed at the balance date.

Costs capitalised on areas of interest have also been reviewed for impairment factors, such as resources prices, ability to meet expenditure going forward, potential resource downgrades.

The Company has ownership, or title, to the areas of interest it has capitalised expenditure on, has reasonable expectations that its activities are ongoing and there has been no additional impairment of the tenements on or subsequent to 30 June 2020

The Company intends to meet all commitments associated with the tenements.

The Group's Financial reports have been restated to include the carrying amount of exploration and evaluation expenditure in the Consolidated Statement of Financial Position. Note 2 details restated Financial Statements for the year ended 30 June 2019.

(b) Basis of Preparation

These general purpose financial statements have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit consolidated entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(c) Basis of Consolidation Subsidiaries

The consolidated financial statements comprise of the assets and liabilities of Alt Resources Limited and its subsidiary, MGK Resources Pty Ltd at 30 June 2020 and the results of the subsidiary for the period then ended. A subsidiary is any entity controlled by Alt Resources Limited.

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

Subsidiaries are all entities (including structured entities) over which the group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Goodwill upon consolidation has been created by the consolidation of Alt Resources Limited and MGK Resources Pty Ltd. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. The acquisition method of accounting involves recognising at acquisition date, separately from goodwill, the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquisition. The identifiable assets acquired and the liabilities assumed are measured at their acquisition date fair values.

A change in the ownership interest of a subsidiary that does not result in a loss of control is accounted for as an equity transaction.

Business Combinations

Business combinations occur where an acquirer obtains control over one or more businesses.

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control. The business combination will be accounted for from the date that control is obtained, whereby the fair value of the identifiable assets acquired and liabilities (including contingent liabilities) assumed is recognised (subject to certain limited exemptions).

When measuring the consideration transferred in the business combination, any asset or liability resulting from a contingent consideration arrangement is also included. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability is remeasured in each reporting period to fair value, recognising any change to fair value in profit or loss, unless the change in value can be identified as existing at acquisition date.

All transaction costs incurred in relation to business combinations, other than those associated with the issue of a financial instrument, are recognised as expenses in profit or loss when incurred.

The acquisition of a business may result in the recognition of goodwill or a gain from a bargain purchase.

(d) Interests in Joint Arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest in net assets are classified as a joint venture and accounted for using the equity method.

Investments in joint ventures are accounted for in the financial statements by applying the equity method of accounting, whereby the investment is initially recognised at cost (including transaction costs) and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the joint ventures. In addition, the Group's share of the profit or loss of the joint ventures is included in the Group's profit or loss.

The carrying amount of the investment includes, when applicable, goodwill relating to the joint ventures. Any

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

discount on acquisition, whereby the Group's share of the net fair value of the joint ventures exceeds the cost of investment, is recognised in profit or loss in the period in which the investment is acquired.

When the Group's share of losses in joint ventures equals or exceeds its interest in the joint ventures, the Group discontinues recognising its share of further losses unless it has incurred legal or constructive obligations or made payments on behalf of the joint ventures. When the joint ventures subsequently makes profits, the Group will resume recognising its share of those profits once its share of the profits equals the share of the losses not recognised.

(e) Going concern

This report has been prepared on going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The Group has incurred a loss of \$2,151,719 for the year ended 30 June 2020 (30 June 2020 restated loss: \$1,925,436) funded by raising share capital.

- The ability of Group to continue as a going concern is dependent on:
- i) the completion of the capital raising program;
 - ii) the ability to meet projected revenue levels; and
 - iii) the retention of overheads at budgeted levels.

The directors have reviewed the Group's financial position and cash flow forecasts for the next twelve months, which shows that the Group will be able to meet its debts as and when they fall due and payable and are, therefore, of the opinion that the use of the going concern basis of accounting is appropriate. This is based on the belief that the Group will complete its capital raising program, it will meet projected revenue from its mining activity, and that the Group will be able to retain overheads at budgeted levels.

Should the Group not achieve the matters set above, there is uncertainty whether the Group will continue as a going concern and therefore whether it will realise its asset and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. The financial report does not include any adjustments to assets and liabilities that may be necessary if the Group is unable to continue as going concern.

(f) Income Tax

The income tax expense/(income) for the year comprises current income tax expense/(income) and deferred tax expense/(income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities/(assets) are measured at the amounts expected to be paid to / (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense/(income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

expects to recover or settle the carrying amount of the related asset or liability. With respect to non-depreciable items of property, plant and equipment measured at fair value and items of investment property measured at fair value, the related deferred tax liability or deferred tax asset is measured on the basis that the carrying amount of the asset will be recovered entirely through sale.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Tax Consolidation

Alt Resources Limited and its wholly-owned subsidiary have formed an income tax consolidated group under the tax consolidation legislation. Each entity in the group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the "stand-alone taxpayer" approach to allocation. Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiary are immediately transferred to the parent entity. The Group notified the Australian Taxation Office that it had formed an income tax consolidated group to apply from 12th January 2018.

(g) Revenue and other income

Interest revenue

Interest is recognised using the effective interest method.

(h) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

(i) Fair Value of Assets and Liabilities

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (ie the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

(j) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

(k) Trade and Other Receivables

Trade and other receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Refer to Note 1 (n) for further discussion on the determination of impairment losses.

(l) Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment are measured on the cost basis and therefore carried at cost less accumulated depreciation

Notes to the Financial Statements**For the year ended 30 June 2020****1 Summary of Significant Accounting Policies continued**

and any accumulated impairment. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1 (n) for details of impairment).

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

The cost of fixed assets constructed within the Group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including buildings and capitalised lease assets, but excluding freehold land, is depreciated on a diminishing value basis over the asset's useful life to the Group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable asset are shown below:

Fixed asset class	Depreciation rate
Motor Vehicles	22.5%
Computer Equipment and Software	25%-66.67%
Buildings	28.57%
Leasehold Improvements	10%-22.22%
Plant & Equipment	13.33%-66.67%
Office Equipment	40%-66.67%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are recognised in profit or loss in the period in which they arise. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

(m) Financial instruments**Initial recognition and measurement**

Financial instruments are recognised initially on the date that the Entity becomes party to the contractual provisions

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification

On initial recognition, the Group classifies its financial assets into the following categories, those measured at:

- amortised cost
- fair value through profit or loss - FVTPL
- fair value through other comprehensive income - equity instrument (FVOCI - equity)
- fair value through other comprehensive income - debt investments (FVOCI - debt)

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets.

Amortised cost

Assets measured at amortised cost are financial assets where:

- the business model is to hold assets to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

Fair value through other comprehensive income

Equity instruments

The Group has no investments in listed and unlisted entities over which they do not have significant influence nor control.

Financial assets through profit or loss

All financial assets not classified as measured at amortised cost or fair value through other comprehensive income as described above are measured at FVTPL.

The Group does not hold any assets that fall into this category.

Impairment of financial assets

Impairment of financial assets is recognised on an expected credit loss (ECL) basis for the following assets:

- financial assets measured at amortised cost

When determining whether the credit risk of a financial assets has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment and including forward looking information.

The Group uses the presumption that an asset which is more than 30 days past due has seen a significant

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

increase in credit risk.

The Group uses the presumption that a financial asset is in default when:

the other party is unlikely to pay its credit obligations to the Group in full, without recourse to the Group to actions such as realising security (if any is held); or

the financial assets is more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the Group in accordance with the contract and the cash flows expected to be received. This is applied using a probability weighted approach.

Trade receivables

Impairment of trade receivables have been determined using the simplified approach in AASB 9 which uses an estimation of lifetime expected credit losses. The Group has determined the probability of non-payment of the receivable and multiplied this by the amount of the expected loss arising from default.

The amount of the impairment is recorded in a separate allowance account with the loss being recognised in finance expense. Once the receivable is determined to be uncollectable then the gross carrying amount is written off against the associated allowance.

Where the Group renegotiates the terms of trade receivables due from certain customers, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in profit or loss.

Other financial assets measured at amortised cost

Impairment of other financial assets measured at amortised cost are determined using the expected credit loss model in AASB 9. On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced significant increase in credit risk then the lifetime losses are estimated and recognised.

(n) Impairment of non-financial assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information, including dividends received from subsidiaries, associates or joint ventures deemed to be out of pre-acquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (eg in accordance with the revaluation model in AASB 116: *Property, Plant and Equipment*). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed half yearly for goodwill, intangible assets with indefinite lives and intangible assets not yet available for use.

(o) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits available on demand with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are reported within short-term borrowings in current liabilities in the statement of financial position.

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

(p) Employee benefits

(i) Short-term employee benefits

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages and salaries. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages and salaries are recognised as a part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

(ii) Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(q) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(r) Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(s) Exploration and development expenditure

Exploration, evaluation and development expenditures incurred are capitalised in respect of each identifiable area of interest. These costs are only capitalised to the extent that they are expected to be recovered through the successful development of the area or where activities in the area have not yet reached a stage that permits

Notes to the Financial Statements

For the year ended 30 June 2020

1 Summary of Significant Accounting Policies continued

reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit or loss in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to capitalise costs in relation to that area.

Costs of site restoration are provided for over the life of the project from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with local laws and regulations and clauses of the permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted for on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly, the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

(t) Critical accounting estimates and judgments

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Key estimates

Impairment – general

The Group assesses impairment at the end of each reporting period by evaluating conditions and events specific to the Group that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

Key judgements

(i) Issuing of Shares

During the year ended 30 June 2020, the Board of Directors of Alt Resources Limited resolved to issue fully paid shares with issue prices of 1.9, 2.0, 2.1, 2.5 and 3.5 cents per share. See Note 13 for details of shares issued.

(ii) Exploration and evaluation expenditure

The Group capitalizes expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage that permits a reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted, the directors are of the continued belief that such expenditure should not be written off since feasibility studies in such areas have not yet concluded. See Note 18 for details of capitalized exploration costs.

Alt Resources Limited

Exploration expenditure	206,907	348,055

Notes to the Financial Statements

For the year ended 30 June 2020

5 Income Tax Expense

(a) Reconciliation of income tax to accounting profit:

Income tax is payable on the surplus of income less expenses. The aggregate amount of income tax attributable to the financial year differs from the amount prima facie payable on the operating profit. The difference is reconciled as follows:

	2020 \$	2019 (restated) \$
Prima facie tax payable on profit from ordinary activities before income tax at 27.5% (2019: 27.5%)	(591,723)	(529,495)
Add:		
Tax effect of:		
- non-deductible expense	43,670	67,650
- change in tax rate	192,557	130,665
- prior period adjustment	1,586,468	1,065,882
	1,230,972	734,702
Less:		
Tax effect of:		
- Other deductible expenses	(54,292)	(50,507)
- Other deductible expenses capital raising	(71,982)	(72,471)
- Non-accessible income – cash flow stimulus package	(17,188)	
Tax losses not brought to account	(1,087,510)	(611,724)
Income tax expense	-	-

(b) Deferred Tax Asset not brought to accounts

The amounts of the deductible temporary difference and unused tax losses for which no deferred tax assets have been brought to account:

	2020 \$	2019 (Restated) \$
- Assessable temporary difference	(2,037,867)	(1,399,799)
- Tax losses - operating in nature	3,963,438	2,706,448
	1,925,571	1,306,649

The benefits of the above temporary differences and unused tax losses will be realised when the conditions for deductibility set out in Note 1(f) occur. These amounts have no expiry date. The 2020 figures have been adjusted to the tax rate of 25% (2019 25%).

Alt Resources Limited

ABN: 57 168 928 416

Notes to the Financial Statements

For the year ended 30 June 2020

The holders of ordinary shares are entitled to participate in dividends and the proceeds on winding up of Alt Resources Limited. On a show of hands at meetings of the Company, each holder of ordinary shares has one vote in person or by proxy, and upon a poll each share is entitled to one vote.

Alt Resources Limited does not have authorised capital or par value in respect of its shares.

13(b) Performance shares

Alt Resources Limited issued 12,000,000 performance shares on 19th December 2017. These shares have no voting rights and no capital rights but will convert to fully paid ordinary shares if the two performance targets included in the purchase agreement for the acquisition of 70% of the Joint Venture with GFM Exploration Pty Ltd are met.

These performance shares are not included in the issued capital reported in the Group's Statement of Financial Position.

During the 2019/20 year 12,000,000 performance shares have been cancelled

13(c) Options - unvested

Alt Resources Limited issued 15,850,000 options on 31 July 2019, 15,000,000 options on 30 September 2019 and 9,096,391 options on 11 December 2019. These options have no voting rights and no capital rights but will convert to fully paid ordinary shares in the future at the owners' discretion.

All options are not included in the issued capital reported in the Group's Statement of Financial Position. The total number of options issued by Alt Resources Limited as at 30 June 2020 is 96,895,265 (as at 30 June 2019 56,948,874).

During the 2019/20 financial year 20,973,680 options expired and 681,818 were exercised, leaving 75,239,767 exercisable options as at 30 June 2020.

13(d) Share-based Payments Reserve

The Share-based Payments Reserve was increased during the year from 1 July 2019 to 30 June 2020 by the Company issuing 10,000,000 options on 29 July 19 and 9,096,391 options on 11 December 19. The total value of the share payments reserve as at 30 June 2020 is \$37,410 (as at 30 June 19: \$10,264).

Notes to the Financial Statements

For the year ended 30 June 2020

15 Financial Risk Management

The Group's financial instruments consist mainly of deposits with banks, local money market instruments, short-term investments, accounts receivable and payable, loans receivable and leases.

The totals for each category of financial instruments, measured in accordance with AASB 9: *Financial Instruments* as detailed in the accounting policies to these financial statements, are as follows:

	Note	2020 \$	2019 \$
Financial assets			
Held at amortised cost			
- Cash and cash equivalents	6	2,453,299	1,372,496
- Trade and other receivables (excluding GST receivable)	7	15,200	11,402
- Financial assets	8	81,000	91,000
Total financial assets		<u>2,549,499</u>	<u>1,474,898</u>
Financial Liabilities			
Financial liabilities at fair value			
- Trade and other payables (excluding GST payable)	10	4,742,063	6,848,894
- Financial liabilities	11	3,679,296	612,940
Total financial liabilities		<u>8,421,359</u>	<u>7,461,834</u>

Financial risk management policies

The Board of Directors monitors the Group's financial risk management policies and exposures and approves financial transactions within the scope of its authority. It also reviews the effectiveness of internal controls relating to commodity price risk, counterparty credit risk, currency risk, liquidity risk and interest rate risk.

Mitigation strategies for specific risks faced are described below:

Specific financial risk exposures and management

The main risks the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate risk, and other price risk (commodity and equity price risk). There have been no substantive changes in the types of risks the Group is exposed to, how these risks arise, or the Board's objectives, policies and processes for managing or measuring the risks from the previous period.

Notes to the Financial Statements

For the year ended 30 June 2020

(a) Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- preparing forward-looking cash flow analyses in relation to its operating, investing and financing activities;
- monitoring undrawn credit facilities;
- obtaining funding from a variety of sources;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- only investing surplus cash with major financial institutions; and
- comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

The Group's policy is to ensure no more than 30% of borrowings should mature in any 12-month period.

The following table reflects an undiscounted contractual maturity analysis for financial liabilities. Bank overdrafts have been deducted in the analysis as management does not consider there is any material risk the bank will terminate such facilities. The bank does however maintain the right to terminate the facilities without notice and therefore the balances of overdrafts outstanding at year-end could become repayable within 12 months. Financial guarantee liabilities are treated as payable on demand since the Group has no control over the timing of any potential settlement of the liabilities.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward.

Notes to the Financial Statements

For the year ended 30 June 2019

15 Financial Risk Management continued

(b) Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

Trade and other receivables that are neither past due nor impaired are considered to be of high credit quality. Aggregates of such amounts are detailed in Note 7.

Credit risk related to balances with banks and other financial institutions is managed by the CFO in accordance with approved board policy.

The following table details the Group's trade and other receivables exposure to credit risk (prior to collateral and other credit enhancements) with ageing analysis and impairment provided for thereon. Amounts are considered as 'past due' when the debt has not been settled, within the terms and conditions agreed between the Group and the customer or counter party to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there is objective evidence indicating that the debt may not be fully repaid to the Group.

The balances of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

		Past due but not impaired (days overdue)					Within initial trade terms
	Gross amount \$	Past due and impaired \$	< 30 \$	31-60 \$	61-90 \$	> 90 \$	\$
2020							
Trade and other receivables (Excluding GST receivable)	15,200	-	-	-	-	-	15,200
Total	15,200	-	-	-	-	-	15,200
2019							
Trade and other receivables (Excluding GST receivable)	11,402	-	-	-	-	-	11,402
Total	11,402	-	-	-	-	-	11,402

The Group does not hold any financial assets with terms that have been renegotiated, but which would otherwise be past due or impaired.

The other classes of receivables do not contain impaired assets.

(c) Market risk

(i) Interest rate risk

The financial instruments that primarily expose the Group to interest rate risk are borrowings and cash and cash equivalents.

Alt Resources Limited

ABN: 57 168 928 416

Notes to the Financial Statements

For the year ended 30 June 2019

15 Financial Risk Management continued

Sensitivity analysis - Interest rate risk

Interest rate risk sensitivity analysis

The following table illustrates sensitivities to the Group's exposures to changes in interest rates, exchange rates and commodity and equity prices. The table indicates the impact on how profit and equity values reported at the end of the reporting period would have been affected by changes in the relevant risk variable that management considers to be reasonably possible.

These sensitivities assume that the movement in a particular variable is independent of other variables.

	2020 \$	2019 \$
Change in profit		
- Increase in interest rate by 1%	\$24,533	\$13,725
- Decrease in interest rate by 1%	\$(24,533)	\$(13,725)
Change in equity		
- Increase in interest rate by 1%	\$24,533	\$13,725
- Decrease in interest rate by 1%	\$(24,533)	\$(13,725)

16 Capital Management

The directors control the capital of Alt Resources Limited in order to maintain a debt to equity ratio, provide the shareholders with planned returns and ensure the Group can fund its operations and continue as a going concern.

The Group's debt and capital includes ordinary share capital and financial liabilities supported by financial assets.

The directors effectively manage Alt Resources Limited's capital by assessing the Group's financial risks and adjusting the capital structure in response to changes in these risks. The responses include the management of debt levels, distributions to shareholders and share issues.

The gearing ratio for the year ended 30 June 2020 and 30 June 2019 are as follows:

	Note	2020 \$	2019 \$
Trade and other payables (excluding GST payable)	10	4,742,063	6,848,894
Less Cash and cash equivalents	6	(2,453,299)	(1,372,496)
Net (asset)/debt		2,288,764	5,476,398
Equity	13	23,447,615	17,728,798
Total capital		25,736,379	23,205,196
Gearing ratio		8.89%	23.60%

17 Key Management Personnel Disclosures

The totals of remuneration paid to the key management personnel of the Group during the year are as follows:

	Note	2020 \$	2019 \$
Short-term employee benefits – Earnings, Consulting and Directors fees		644,690	540,784
Short-term employee benefits – Incentives and milestones		-	50,746
Short-term employee benefits – Commissions		36,792	-
Post-employment benefits – Superannuation contributions		49,742	47,619
Share-based payments – Earnings and commissions	25	192,542	25,000
Share-based payments – Incentives and milestones	25	427,000	184,758
Option-based payments – Earnings and commissions		8,846	-
Option-based payments – Incentives and milestones		5,000	2,166
		1,364,612	851,073

Short-term employee benefits

These amounts include fees and benefits paid to the non-executive Chair and non-executive directors as well as all salary, paid leave benefits, fringe benefits and cash bonuses awarded to executive directors and other KMPs.

Post-employment benefits

These amounts are the current-year's estimated cost of providing for the company's superannuation commitments made during the year and post-employment life insurance benefits.

Other long-term benefits

These amounts represent long service leave benefits accruing during the year, long-term disability benefits and deferred bonus payments.

Share-based payments

These amounts represent the expense related to the participation of KMP in equity-settled benefit schemes as measured by the fair value of the options, rights and shares granted on grant date.

Option-based payments

These amounts represent the expense related to the payment of commissions and incentives to KMPs with options as valued by the fair value of the Black & Scholes valuation of options method.

Further information in relation to KMP remuneration can be found in the directors' report.

Notes to the Financial Statements

For the year ended 30 June 2020

Risks associated with the interests in joint ventures

The recoverability of the carrying amount of the exploration development expenditure is dependent on successful development and commercial exploitation or, alternatively, sale of the respective areas of interest.

Name	Classification	Place of Business	Participating Share	Free Carried Interest of Joint Venturers	Measurement Method	Carrying Amount
			2020 %	2020 %	2020	2020 \$
Joint Venture between Alt Resources and GFM Exploration Pty Ltd	Joint Venture	New South Wales	70%	30%	Equity Method	4,206,202
Joint Venture between MGK Resources Pty Ltd and Maincoast Pty Ltd	Joint Venture	Western Australia	80%	20%	Equity Method	68,743
Joint Venture between MGK Resources Pty Ltd and Gazard Investments Pty Ltd	Joint Venture	Western Australia	80%	20%	Equity Method	31,526

Alt Resources Limited holds a 70% interest in an unincorporated Joint Venture, a strategic joint arrangement structured between the Company and GFM Exploration Pty Ltd (GFM). The principal place of business of the Joint Venture is New South Wales and the primary purpose of the joint venture is the discovery, location and delineation of Gold and all activities as are necessary or expedient for the purpose of exploring the Joint Venture Area and includes conducting a feasibility studies and all activities to produce the same and all activities as are necessarily or desirable in order to implement and give to facilitate exploration, mining and sale of Gold on behalf of the joint operators.

Alt Resources Limited purchased MGK Resources Pty Limited and therefore control of MGK Resources' tenements in the Mount Ida South and Quinn Hills regions of Western Australia. Eight of these tenements are jointly owned by MGK Resources and Maincoast Pty Ltd or Gazard Investments Pty Ltd. MGK Resources owns 80% of these tenements in a joint venture with each of these companies.

The Joint Ventures are not created as partnerships. The rights, interests, liabilities and obligations of the parties respectively under the Joint Venture are individual and separate and will not be joint or collective and each party is responsible for its own obligations and will be liable only for its own proportionate share of any property and assets of the Joint Venture. The rights and obligations of the parties are several and neither joint nor joint and several in acquiring their interest in the tenements.

Alt Resources Limited has entered into an agreement with GFM Exploration Pty Ltd to meet all of the exploration costs of the tenements including those which would otherwise be an obligation of GFM Exploration Pty Ltd. Alt Resources Limited has decided to discontinue the joint venture with Mount Roberts Mining Pty Ltd and has transferred the ownership of the joint venture's tenements back to Mount Roberts Mining Pty Ltd.

Notes to the Financial Statements

For the year ended 30 June 2020

20 Fair Value Measurement

Net Fair Values

Fair value estimation

The fair values of financial assets and financial liabilities are presented in the following table and can be compared to their carrying values as presented in the statement of financial position. Fair values are those amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair values derived may be based on information that is estimated or subject to judgment, where changes in assumptions may have a material impact on the amounts estimated. Areas of judgment and the assumptions have been detailed below. Where possible, valuation information used to calculate fair value is extracted from the market, with more reliable information available from markets that are actively traded. In this regard, fair values for listed securities are obtained from quoted market bid prices. Where securities are unlisted and no market quotes are available, fair value is obtained using discounted cash flow analysis and other valuation techniques commonly used by market participants.

	2020		2019	
	Net Carrying Value	Net Fair value	Net Carrying Value	Net Fair value
	\$	\$	\$	\$
Financial assets				
Cash and cash equivalents	2,453,299	2,453,299	1,372,496	1,372,496
Trade and other receivables (excluding GST receivable)	15,200	15,200	11,402	11,402
Other financial assets	81,000	81,000	91,000	91,000
Total financial assets	2,549,499	2,549,499	1,474,898	1,474,898
Financial liabilities				
Trade and other payables (excluding GST payable)	4,742,063	4,742,063	6,848,894	6,848,894
Current financial liabilities	3,679,296	3,679,296	611,760	611,760
Non-current financial liabilities	-	-	1,180	1,180
Total financial liabilities	8,421,359	8,421,359	7,461,834	7,461,834

The fair values disclosed in the above table have been determined based on the following methodologies:

(i) Cash and cash equivalents, trade and other receivables and trade and other payables are short term instruments in nature whose carrying value is equivalent to fair value. Trade and other payables exclude amounts provided for annual leave and income received in advance which are not considered to be financial instruments.

(ii) Discounted cash flow models are used to determine the fair values of loans and advances. Discount rates used on the calculations are based on interest rates existing at reporting date for similar types of loans and advances. Differences between fair values and carrying values largely represent movements in the effective interest rate determined on initial recognition and current market rates.

Notes to the Financial Statements

Notes to the Financial Statements

For the year ended 30 June 2020

29 Events Occurring After the Reporting Date

The financial report was authorised for issue on 28 August 2020 by the board of directors.

The Company announced the Mt Ida and Bottle Creek Projects Pre-feasibility Study on 10 July 2020 confirming the technical and financial viability of a 750ktpa mining and processing plant at Alt Resources Mt Ida Bottle Creek Project located in the Northern Goldfields of Western Australia.

This announcement also detailed the Company's Maiden Ore Reserve of 272,000oz gold @ 1.8g/t Au and 2.1Moz silver @ 15.8g/t Ag based on AUD \$2.200oz gold price and AUD \$22oz silver price.

The Board of Directors of Alt Resources Limited announced the release of the Target Statement on 17 July 2020 in response to the Takeover offer Bidder's statement from Aurene Ularring Pty Ltd.

The takeover offer was declared unconditional on 20 August 2020. Aurene Ularring Pty Ltd announced on 27 August 2020 that it had received acceptances exceeding 90% of the company's total shares and will compulsorily acquire the remaining shares. Aurene Ularring Pty Ltd previously announced their intention to delist the Company and convert it to a private company as soon as practically possible.

Since the end of the year, the Directors have not become aware of any other matters or circumstance not otherwise dealt with in this report or the Financial Statements, that has significantly or may significantly affect the operations of the company, the results of those operations or the state of affairs of the company in subsequent years, the financial effects of which have not been provided for in the 30 June 2020 financial statements.

Directors' Declaration

The directors of the Group declare that:

1. the financial statements and notes for the year ended 30 June 2020 are in accordance with the *Corporations Act 2001* and:
 - a. comply with Accounting Standards, which, as stated in accounting policy note 1 to the financial statements, constitutes explicit and unreserved compliance with International Financial Reporting Standards (IFRS); and
 - b. give a true and fair view of the financial position and performance of the Group;
2. In the directors' opinion, there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Director

William Hugh Ellis

Dated 28th August 2020

Alt Resources Limited**30 June 2020****Independent Auditor's Report to the members of Alt Resources Limited****Report on the Audit of the Financial Report****Opinion**

We have audited the financial report of Alt Resources Limited (the Group), which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2020 and of its financial performance for the year ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

- (a) We judge that the matter described in Note 1(e) "Going concern basis of accounting" to the financial statements is a key audit matter. There is a significant uncertainty whether the entity will be able to continue as a going concern, and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements. The financial report does not include any adjustments relating to the recoverability and classification of recorded amounts or the amounts and classification of liabilities that might be necessary should the entity not continue as a going concern. We have arrived at this position based on our assessment of:
 - the continued support of shareholders through the capital raising program;
 - from our review of the future cash flows and budgets prepared by management to predict the timing of cash outflows and the possible requirement for future capital injections; and
 - managements demonstrated ability to operate within set budgets

Alt Resources Limited**30 June 2020**

- (b) We judge that the matter described in Note 18 - Joint arrangements and Capitalised Tenements costs is a key audit matter.
We have audited the expenditure and determined that its treatment is in accordance with the significant accounting policies described under "Note 1(d) - Interest in joint arrangement" and "Note 1(s) - Exploration and development expenditure".

Responsibilities of Directors for the Financial Report

The directors of the Group are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

Alt Resources Limited

30 June 2020

Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

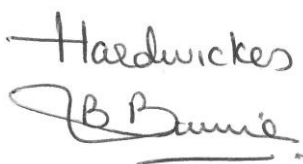

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
