ASX ANNOUNCEMENT

TAVR MEDICAL ADVISORY BOARD APPOINTMENT

Brisbane, Australia and Eagan, MN - Anteris Technologies Limited (ASX:AVR), a structural heart company advancing the DurAVR™ valve, a novel single-piece 3D aortic valve replacement solution, is pleased to announce that Professor Bernard Prendergast has joined its TAVR Medical Advisory Board.

Professor Prendergast is the Chair of Cardiology at Cleveland Clinic in London and a Consultant Cardiologist at St Thomas' Hospital, one of London's highest regarded teaching hospitals where he is a leading member of the multidisciplinary valve team. He is an internationally renowned Key Opinion Leader (KOL), former Chairman of the European Society of Cardiology Working Group on Valvular Heart Disease and the principal Course Director of PCR London Valves, the world's largest specialist meeting in valve intervention. Professor Prendergast has published over 250 original peer reviewed articles and performed more than 1000 TAVR procedures.

"We are absolutely delighted to have Professor Prendergast join the other highly respected KOLs on our TAVR Medical Advisory Board. His input will be particularly valuable as we look to gain a CE Mark for the DurAVR™ transcatheter valve in Europe." Chief Executive Officer of Anteris Technologies, Mr Wayne Paterson, said.

ENDS

About Anteris Technologies Ltd (ASX: AVR)

Anteris Technologies Ltd is a structural heart company delivering clinically superior solutions that help create life-changing outcomes for patients. Its focus is on developing next generation technologies with world class partners.

Its ADAPT® tissue platform, a next generation technology with zero DNA and zero glutaraldehyde, is the only bio-scaffold to demonstrate zero calcification after 10 years of use in complex cardiac surgery. With these advantages, Anteris' best-in-class ADAPT® tissue combined with its valve design has the potential to solve the problems of durability and valve degradation associated with current aortic valve replacement options.
