

CVCheck operating update

Highlights

- **September order flow to date stronger than July and August averages**
- **New customer wins of recent months continue to offset the pandemic effect**
- **Over 50% revenue growth from Information Technology customers year to date when compared to the same period last year**

CV Check Limited ('CV1' or 'the Company') is pleased to provide the following update on business conditions experienced to the 13th of September.

CV1 CEO, Rod Sherwood, said: "Like many other technology businesses, the effect of the widespread work from home adoption has accelerated the transition to consumption of our digital, online, cloud-based services. Aided by order from new client wins across the information technology sector, September revenues to date have continued the recovery that commenced in June and this comes despite New Zealand and Victoria extending their recent COVID-19 induced lockdowns. Revenue from clients placing orders through integrations with other HR technology platforms also continues to rise strongly when compared to the same period of FY20."

Industry Spotlight

CV1 has enjoyed good business activity across the Information Technology sector so far during this quarter as the work from home shift triggered by the COVID-19 pandemic accelerated the transition to consumption of digital services. CV1 order volume for the sector in the quarter to date has risen over 50% when compared to the same point last year, assisted by client wins for notable names such as Ceridian

(NYSE:CDAY), Family Zone (ASX:FZO), RXP Services (ASX:RXP), Reckon (ASX:RKN) and Sage (LSE:SGE). CV1 looks forward to continuing its key role to underpin best practice people risk management within this growth sector.

About Ceridian: Ceridian is a global human capital management (HCM) software company. Dayforce, their flagship cloud HCM platform, provides human resources, payroll, benefits, workforce management, and talent management capabilities in a single solution.
