

Talga to Feature in Benchmark Webinar

Battery anode and graphene additives company Talga Resources Ltd (“**Talga**” or “**the Company**”) (**ASX:TLG**) is pleased to feature in a live video webinar to be hosted by Benchmark Mineral Intelligence on Monday 29 June 2020 at 8.00am GMT+1 (3.00pm Australian Western Standard Time / 5:00pm Australian Eastern Standard Time).

The webinar, titled **Graphite Anodes: Building a 21st Century Supply chain in Europe**, will be a deep-dive into the scale, speed and quality control needed to build a graphite anode supply chain to meet the demands of Europe's battery megafactories.

Participating in the discussion alongside Talga's Managing Director, Mark Thompson, is Adam Panayi, Head of Consultancy, Benchmark and Caspar Rawles, Head of Price Assessments, Benchmark.

To join the webinar, please register online at:

About Benchmark

Benchmark Mineral Intelligence is the world's leading IOSCO-regulated price reporting agency (PRA), proprietary data provider, and market intelligence publisher for the lithium ion battery to electric vehicle (EV) supply chain. Benchmark's services are relied upon by major actors in the EV supply chain and their team have testified to the US Senate, advised The White House, The Pentagon, and government agencies around the world.

About Talga

Talga Resources Ltd (ASX:TLG) is building a European source of battery anode and graphene additives, to offer graphitic products critical to its customers' innovation and the shift towards a more sustainable world. Vertical integration, including ownership of several high-grade Swedish graphite projects, provides security of supply and creates long-lasting value for stakeholders. Joint development programs are underway with a range of international corporations.
