A summary of the consolidated revenues and results by industry segments is set out below:

	Segment Revenue		Segment Results	
	30 June		30 June	
	2020	2019	2020	2019

	<u>14,848</u>	<u>19,131</u>	<u>(632)</u>	<u>(875)</u>

Comments on the operations and the results of those operations are set out below:

For the year ended 30 June 2020 revenue fell by 22.39% to \$14.848 million (2019: \$19.131 million) due to slower sales of apartments and lower occupancy in the tourism sector impacted by closure of domestic and international borders. Leasing revenues held steady despite increase in numbers of properties under management.

For the same period, unaudited consolidated post tax loss was \$0.632 million (2019: Loss after tax \$0.875 million), up 27.77% mitigated by receipt of \$0.513 million in government grants and assistance.

During the year, IEQ sold certain serviced and residential apartments to meet borrowing obligations. The company will continue its selling program to reduce debt going forward.

Property development, management and tourism continue to be the IEQ's main core business.

Trading Operations under Covid -19 conditions

Trading for the final quarter April to June 2020 of this financial year has been severely affected by imposition of restricted movement and closure of some domestic and all international borders. Hotel occupancies range from 5% – 25%. However, revenue from sale of apartments and leasing remain steady. We expect that the uncertainty in market conditions and business confidence will continue through to December 2020 affecting the 1st and 2nd quarters of 2021 financial year.

For the remaining of the 2020 calendar year, IEQ will continue its sale of apartments to reduce our exposure to loans. In the hotel and tourism sector, efforts are being made to encourage long stay tenancies where possible to mitigate against low occupancies until such time borders are re-opened. Leasing will remain our focus.
