Management Comment

"The submission of a Mining Lease application is a very exciting development for the Company. To get to this position within just over three years is a tremendous achievement by the QMiners team."

"The recent Pre-Feasibility Study results on the Mt Chalmers deposit demonstrates a long life, low cost and high margin mining operation. The project has immediate and known upside with five additional deposits at the Mt Chalmers and Develin Creek projects that fall outside of the current mine plan.

"The Company is now preparing to commence its maiden drilling program at its Develin Creek project where the Company has two high-grade copper-zinc deposits which have the potential to grow the scale of a potential mining operation at Mt Chalmers."
