

SUREFIRE RECEIVES APPROVAL FOR MAIDEN COPPER PROJECT DRILLING PROGRAM

Australian resource company Surefire Resources NL (ASX: SRN) ("**SRN**" or the "**Company**") is pleased to advise that it has received approval for a maiden drilling program at the Company's Phat Boy Copper prospect at its 100% owned Yidby East project in the mid-west of Western Australia (see figure 1).

The Company submitted a Program of Works (**PoW**) to the West Australian Department of Energy Mines Industry Regulation and Safety (**DEMIRS**) for an initial 11-hole RC (**Reverse Circulation**) drilling program (see ASX announcement 3 October 2024).

The Phat Boy prospect is located on the southern portion of E59/2426 where previous exploration highlighted native copper and sulphides during a drilling programme that was investigating the Banded Iron Formation (**BIF**) as a magnetite resource, within a package of interpreted submarine volcanic rocks.

Surefire plans to drill an initial 11 RC holes to a maximum depth of 200m for a total of 2200m. These will be focussed on 4 target areas (T1 – T4) which are located to the east of the Company's Yidby Gold project and Money geochemical target (see figure 3).

The Company will now commence preparation for site access ahead of the drilling.

Competent Person Statements:

The information in this report that relates to exploration results has been reviewed, compiled, and fairly represented by Mr Horst Prumm, a Member of the Australian Institute of Mining and Metallurgy ('AusIMM') and the Australian Institute of Geoscience ('AIG') and a fulltime employee of Prumm Corporation Pty Ltd. Mr Prumm has sufficient experience relevant to the style of mineralisation and type of deposits under consideration to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee ('JORC') Australasian Code for Reporting of Exploration Results, Minerals Resources and Ore Reserves. Mr Prumm consents to the inclusion in this report of the matters based on this information in the form and context in which it appears.

Forward Looking Statements:

This announcement contains 'forward-looking information' that is based on the Company's expectations, estimates and projections as of the date on which the statements were made. This forward-looking information includes, among other things, statements with respect to the Company's business strategy, plans, development, objectives, performance, outlook, growth, cash flow, projections, targets and expectations, mineral reserves and resources, results of exploration and related expenses. Generally, this forward-looking information can be identified by the use of forward-looking terminology such as 'outlook', 'anticipate', 'project', 'target', 'potential', 'likely', 'believe', 'estimate', 'expect', 'intend', 'may', 'would', 'could', 'should', 'scheduled', 'will', 'plan', 'forecast', 'evolve' and similar expressions. Persons reading this announcement are cautioned that such statements are only predictions, and that the Company's actual future results or performance may be materially different. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the Company's actual results, level of activity, performance, or achievements to be materially different from those expressed or implied by such forward-looking information.
