

PURE SELLS FINNISH CLAIMS FOR \$190,000 CASH

HIGHLIGHTS

- Pure sells Kast and Kova Reservations for \$190,000 and a 2% royalty on returns from the commercial production of minerals from Kast and Kova.
 - The sale of Kast and Kova funds all staking and exploration expenditure in Finland.
 - Excess funds will be used to fund further exploration.
-

Pure Resources Limited (Pure or Company) is pleased to announce the sale of the Kast Reservation (**Kast**) and Kova Reservation (**Kova**) in Finland for a combined total of \$190,000 in cash and a 2% royalty on returns from the commercial production of minerals from Kast and Kova (**Transaction**). Pure chose to divest Kast and Kova to allow the Company's geological team to focus exploration efforts on other projects in the Company's battery metals focused portfolio.

The funds received from the sale of Kast and Kova exceed the total expenditure of staking and exploring all the claims in Finland.

Pure's corporate strategy is to acquire low-cost projects with high prospectivity for battery metals, such as lithium, adding value through exploration. The sale of Kast and Kova confirms viability of Pure's corporate strategy.

Pure's Executive Chairman, Patric Glovac, commented:

"We're very pleased about the sale of Kast and Kova to United Lithium for \$190,000 which confirms Pure's corporate strategy as well as funds the Company's future exploration."

Pure's management, in consultation with its technical team, will continue to explore its existing projects while identify projects that are highly prospective for battery metals."

Terms of the Transaction

Kast and Kova were acquired by a Canadian-listed explorer United Lithium Corp. (**United Lithium**) (CSE: ULTH; OTCQX: ULTHF; FWB: OUL) through the sale of Pure's wholly owned finished subsidiary, PR1 Finland Oy. United Lithium is a non-related party to Pure. The material terms of the Kast and Kova transactions are as follows:

- Total cash payment of \$190,000;
- 2% royalty on returns from the commercial production of minerals from Kast; and
- 2% royalty on returns from the commercial production of minerals from Kova.
