Date: Thursday, 2nd May 2024

Time: 11:30am AEST / 9:30am AWST

Presenter: Brendan Stats, Chief Executive Officer

The Company invites shareholders, investors, and media to participate in this digital event by registering online via the link below:

https://us06web.zoom.us/webinar/register/WN_NEM1zQEDReeEXUUu_7PCRq

Participants will be able to submit questions via the panel throughout the presentation, however, we encourage shareholders and investors to send questions via email beforehand at info@tmkenergy.com.au

For the purposes of ASX Listing Rule 15.5, the Board has authorised for this announcement to be released.

ABOUT TMK ENERGY LIMITED

TMK Energy Limited is an oil and gas exploration company listed on the Australian Stock Exchange (ASX:TMK). TMK holds a 100% interest in the Gurvantes XXXV Project in the South Gobi Desert of Mongolia which is highly prospective for coal seam gas (CSG).

The Gurvantes XXXV Project covers a very large area of approximately 8,400 km² in the South Gobi basin and boasts multiple thick, high quality, bituminous rank coal seams that extend along an east-west strike, spanning approximately 150 kms.

The initial exploration program undertaken in 2022 yielded a 1.2 trillion cubic feet (TCF) Contingent Resource (2C) of gas being certified within just a 60 km² area (Nariin Sukhait) of the overall Project area. Three pilot wells (Lucky Fox wells) were drilled within a subset of this area where the Company has been undertaking an extended production test, where gas is being produced to surface and continuously flared.

TMK is focussed on the responsible development of the Gurvantes XXXV Project and establishing itself as a key supplier of cleaner energy to support Mongolia's development and address the significant domestic issues around energy security, reliability, and independence. The Gurvantes Project XXXV is also strategically located less than 20 kms from the Chinese border and close to existing gas infrastructure in northern China, presenting a significant advantage to supplying the world's largest energy market.
