The Managing Director has authorised this announcement for release to the market.

### **About Lepidico Ltd**

Lepidico is an innovative developer of sustainable lithium hydroxide and other critical minerals, and the global leader in lithium mica processing.

With a tech-focused, ESG-led business model that is pilot-proven, our first commercial lithium production – manufactured far more sustainably than by conventional chemical conversion methods – is planned for 2026, subject to securing finance. The Phase 1 Project will provide a meaningful contribution to the decarbonisation of the world's alkali metals supply chains. We are also working to grow our business with our second project, Phase 2. Other businesses have already begun to licence our patented-protected L-Max<sup>®</sup> and LOH-Max<sup>®</sup> technologies providing an avenue for royalty revenues.
