Drilling Rig to Mobilise to test High-Grade Gold and Antimony at Hillgrove

Larvotto Resources Limited (**ASX:LRV**, **TGAT:K6X**, 'Larvotto' or 'the Company') is pleased to advise receipt of final drilling permits for its second exploration drilling program at its 100%-owned Hillgrove Project in New South Wales. The drill rig will be mobilising to site on 26 August 2024, to commence the 5,250m of RC drilling program at Clarks Gully.

The drilling program will target infill drilling to ~20m to increase confidence of the resource and focus on a large, untested geochemical anomaly to the south of the Clarks Gully deposit, which is currently defined from surface to depth of 200m (current Measured and Indicated Mineral Resources of **266 kt @ 3.8% Sb and 2.0 g/t Au for 10.6 g/t Au Eq**).
