Sony Electronics to showcase the Spatial Reality Display (ELF-SR1) with 3Dicom MD[®] integration for 3D medical visualisation at AAOS in Las Vegas

- Sony Electronics Inc. (“Sony”) to exhibit at the American Academy of Orthopaedic Surgeons (AAOS) annual conference in Las Vegas from 7 – 11 March, showcasing Sony’s cutting-edge 15.6” Spatial Reality Display with the use of Singular’s 3Dicom MD[®] integrated software.
- Technical integration of 3Dicom MD[®], Singular Health’s FDA-510(k) cleared medical image viewer, to interface with Sony’s stereoscopic display has been completed.

2 March 2023 – Medical technology company Singular Health Group Ltd (ASX: SHG) (“Singular Health”) is pleased to announce that it has concluded a multi-month technical integration of its 3Dicom MD[®] with Sony Electronics’ 15.6” Spatial Reality Display (ELF-SR1).

Sony’s Spatial Reality Display (ELF-SR1) is an award-winning high-resolution glasses free 3D display which is being exhibited, with Singular’s 3Dicom MD[®] software integrated, at the American Academy of Orthopaedic Surgeons (“AAOS”) annual conference this week.

This successful integration sees the diagnostically approved 3Dicom MD[®] software, now including realistic colour rendering, provide end-users with an immersive, interactive stereoscopic 3D visualisation without the need for virtual reality headsets, 3D glasses, or other devices.

Commenting on the integration, Thomas Morrell, Singular Health's Chief Technology Officer, said:

"Singular Health is always looking for technologies and hardware to provide better visualisation of medical imaging and medical interventions, which is why we have been very excited to work with Sony's Spatial Reality Display team.

"We look forward to further integrations and opportunities in the future."

This technical integration and co-marketing of the 3Dicom MD[®] software does not imply, nor warrant a partnership or formal arrangement between Sony and Singular Health. Singular Health and Sony have not entered into a formal agreement concerning the development or marketing of Singular's 3Dicom MD[®] software. Each party has borne their own costs associated with the integration.
