About Pentanet

Pentanet (ASX: 5GG) is a Perth-based telecommunications cloud gaming provider delivering next-generation internet services and online experiences to a growing number of subscribers.

The Company's market-leading private fixed wireless network is the largest in Perth and remains unrivalled in terms of connection quality, reliability, and network design. With the network nearing capacity due to its popularity in Perth, the Company's focus is now the development and deployment of neXus — Pentanet's next-generation, gigabit-enabled wireless mesh network.

In 2021, Pentanet partnered with global tech giant NVIDIA (NASDAQ: NVDA) to democratise Australian access to cloud gaming and became the sole provider of NVIDIA's premier cloud gaming platform in Australia, co-branded GeForce NOW Powered by Pentanet. GeForce NOW as a product offering aligns with Pentanet's evocative brand and gamer-focused identity, but the platform offers an added benefit in complementing the Company's expanding internet services and its vision for a better-connected Australia.

Pentanet was ranked #28 in the Deloitte Technology Fast 500™ Asia Pacific list of the region's 500 fastest growing technology companies in 2021, the third-highest rank achieved by an Australian company. The Company also ranked #19 in the 2021 AFR Fast Starters list of fastest-growing start-ups in Australia and #30 on the Deloitte Technology Fast 50 Australia 2022.
