NOTES TO THE FINANCIAL STATEMENTS FOR THE QUARTER AND HALF-YEAR ENDED 31 DECEMBER 2022

1. Corporate information

These condensed consolidated half-year financial statements represent those of Tempus Resources Limited (the “Company”) and its controlled entities (the “Group”) at the end of, or during the quarter and half year ended 31 December 2022. The condensed consolidated half-year financial statements are presented in Australian dollars, which is Tempus Resources Limited’s functional and presentation currency. Foreign operations are translated into Australian dollars using the exchange rates at the reporting date.

Tempus Resources Limited is a listed public company limited by shares, listed on the Australian Stock Exchange (ASX:TMR) and the TSX-Venture Exchange (TSXV: TMRR), incorporated in Australia and with a registered office at Level 2, 22 Mount Street, Perth, Western Australia, 6000, Australia.

Management’s Responsibility for Condensed Consolidated Half-Year Financial Statements

The accompanying condensed consolidated half-year financial statements of Tempus Resources Limited (the “Group”) are the responsibility of the Management of the Group. The condensed consolidated half-year financial statements have been prepared in accordance with International Financial Reporting Standards and reflect management’s best estimate and judgements based on currently available information. Management is also responsible for a system of internal controls, which is designed to provide reasonable assurance that assets are safeguarded, liabilities are recognised, and that financial information is relevant and reliable. The Board of Directors are responsible for ensuring that management fulfils its responsibilities in respect of financial reporting and internal control. The Audit Committee of the Board of Directors, comprised of independent Directors, meets periodically with management and the Group’s independent auditors to discuss auditing matters and financial reporting issues. In addition, the Audit Committee reviews the annual financial statements and provides a recommendation to the Board of Directors on their approval.

These condensed consolidated half-year financial statements were authorised by the Board of Directors of the Company on February 14, 2023.

2. Principal activities

The principal activity of the Group during the half-year was mineral exploration, with gold projects located in Canada and Ecuador.

3. Basis of preparation

Statement of compliance

The condensed consolidated half-year financial statements is a general purpose financial report that has been prepared in accordance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

The condensed consolidated half-year financial statements do not include full disclosures of the type normally included in an annual financial report and should be read in conjunction with the audited annual financial report for the year ended 30 June 2022.

The accounting policies and methods of computation adopted in the preparation of these condensed consolidated half-year financial statements are consistent with those adopted and disclosed in the Group’s 2022 audited annual financial report for the year ended 30 June 2022 and are consistent with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB) using accounting policies consistent with International Financial Reporting Standards (“IFRS”) issued by the Accounting Standards Board (“IASB”) and interpretations of the International Reporting Interpretations Committee (“IFRIC”).

Critical accounting judgments, estimates and assumptions

The Management evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

There have been no judgements, apart from those involving estimation, in applying accounting policies that have a significant effect on the amounts recognised in these financial statements.

Following is a summary of the key assumptions concerning the future and other key sources of estimation at reporting date that have not been disclosed elsewhere in these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE QUARTER AND HALF-YEAR ENDED 31 DECEMBER 2022 (CONTINUED)

Exploration and evaluation expenditure

Exploration and evaluation costs have been capitalised on the basis that activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised.

Share based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Rehabilitation provision

A provision has been made for the present value of anticipated costs for future rehabilitation of land explored or mined. The Group's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. The Group recognises management's best estimate for assets retirement obligations and site rehabilitations in the period in which they are incurred. Actual costs incurred in the future periods could differ materially from the estimates. Additionally, future changes to environmental laws and regulations, life of mine estimates and discount rates could affect the carrying amount of the provision.

Tax claim provision

A provision has been made for the present value of anticipated costs associated with amounts payable on an open tax claim. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Due to the uncertainty associated with such tax claims, there is a possibility that the final outcome may differ significantly at a future date.

Flow-through share premium liability (FTS)

The Group may from time to time, issue flow-through common shares to finance its exploration program. The accounting policy outlined below has been adopted from 1 July 2021. The consolidated financial statements have been prepared incorporating retrospective application of a voluntary change in accounting policy relating to flow-through share arrangements. Management believes that the change in accounting policy will better align to industry practice and provide more relevant and reliable information to the users of the consolidated financial statements.

Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors.

On issuance, the Group bifurcates the flow-through share proceeds into: (i) share capital, for the fair value of common shares without a flow-through feature (based on quoted trading prices), and (ii) a flow-through share premium liability, for the amount investors pay for the flow-through feature (in excess of the quoted trading price of the common shares).

Upon expenditures being incurred, the Group derecognises the liability on a pro-rata basis to the expenditures incurred. The reduction of the flow-through share premium previously recorded is recognised as other income. Proceeds received from the issuance of flow-through shares are restricted to be used only for Canadian exploration expenses (as defined in the Tax Act).

The Group also be subject to a Part XII.6 tax on flow-through proceeds renounced under the Lookback Rule, in accordance with the Canadian Income Tax Act and Canadian Income Tax flow-through regulations. When applicable, this tax is accrued as a financial expense until paid. A renouncement is made on a prospective basis, which then permits recognition of the liability when expenditures are being incurred.

A deferred tax liability is recognised for the taxable temporary difference that arises from the difference between the carrying amount of eligible expenditures capitalised as an asset in the statement of financial position and its tax base.

NOTES TO THE FINANCIAL STATEMENTS FOR THE QUARTER AND HALF-YEAR ENDED 31 DECEMBER 2022 (CONTINUED)

Going concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the Group incurred a loss of \$543,198 (2021: \$964,641) and had net cash outflows from operating and investing activities of \$5,460,072 (2021: \$4,440,339) and 43,476 (2021: nil) for the half-year ended 31 December 2022 and 31 December 2021. The ability of the Group to continue as a going concern is principally dependent upon the ability of the Group to secure funds by raising additional capital from equity markets and managing cash flows in line with available funds.

These factors indicate a material uncertainty, which may cast significant doubt as to whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The directors believe that there are reasonable grounds to believe that the Group will be able to continue as a going concern, as it plans to issue additional equity securities to raise further working capital. The directors are confident the Group will be successful in sourcing further capital to fund the ongoing operations of the Group.

Accordingly, the directors believe that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the Group does not continue as a going concern.

New and revised accounting standards and interpretations

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the International Accounting Standards Board (IASB) that are mandatory for the current reporting period. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

NOTES TO THE FINANCIAL STATEMENTS FOR THE QUARTER AND HALF-YEAR ENDED 31 DECEMBER 2022 (CONTINUED)

4. Segment Information

The Group operates within three geographical segments within mineral exploration and extraction being Australia, Canada and Ecuador. The segment information provided to the chief operating decision maker is as follows:

\$

¹ Expenditure incurred during the period

A summary of the exploration and evaluation expenditure incurred:

Assays	163,857
Camp expenses	39,115
Consulting fees	705,601
Drilling	2,779,750
Other	427,479
Wages & contractors	44,344
Expenditure incurred during the period	<u>4,160,146</u>

	Consolidated	
	31 December 2022	30 June 2022
	\$	\$
6. Flow-through premium liability		
Opening Balance	224,092	-
Flow-through share premium liability recognised (i)	96,436	1,013,978
Flow-through expenditure incurred	(239,422)	(803,407)
Foreign exchange movements	415	13,521
Closing balance	<u>81,521</u>	<u>224,092</u>

(i) In December 2022, the Group issued 8,835,000 flow-through shares at a price of \$0.066 per flow-through share for gross proceeds of \$582,016. The Group recorded a flow-through premium liability \$96,435 on issuance of the flow-through shares. The Group is committed to spend these flow-through funds by 31 December 2023. During the half-year ended 31 December 2022, the Group spent approximately \$91,980 of these flow-through funds and accordingly recorded a flow-through premium recovery of \$15,330 in the statement of profit or loss and other comprehensive income. The remaining liability from last financial year was recovered during the half-year. Total flow-through share premium recognised for the half-year was \$239,422.

The flow-through premium liability balance as at December 31, 2022 of \$81,521 arose in connection with the flow-through share offering the Group completed on 23 December 2022. The reported amount is the remaining balance of the premium from issuing the flow-through shares. The flow-through premium recovery is recognised in the statement of profit or loss and other comprehensive income based on the amount of qualifying flow-through expenditures incurred by the Group.

As at 31 December 2022, the Group had incurred approximately \$91,980 of qualifying Canadian Exploration Expenditure ("CEE") and accordingly, recognised flow-through premium recoveries of \$81,521 in relation to the flow-through placement in December 2022. As at 31 December 2022, the Group has a remaining commitment to incur qualifying CEE of \$489,126.

Ecuador provision (i)	304,269	300,243
Other provisions	5,314	5,226
	<u>309,583</u>	<u>305,469</u>

(i) Relates to a claim for tax liabilities associated with a portion of the Rio Zarza licence that was sold by Condor Gold pre acquisition. During the year ended 30 June 2022, the Ecuador tax authority issued a resolution requiring the group to pay \$USD 420,142. The Group intends to dispute the amount through legal proceedings.

The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the half-year. A deposit of \$60,987 was paid to the courts in October 2022 in regard to the Ecuador tax claim.

(b) Non-Current	Consolidated	
	31 December 2022	30 June 2022

Foreign exchange movements	(90,518)	(9,467)
	<u>2,957,025</u>	<u>2,596,687</u>

A provision has been made for the present value of anticipated costs for future rehabilitation of land explored or mined. The Group's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. The Group recognises management's best estimate for assets retirement obligations and site rehabilitations in the period in which they are incurred. Actual costs incurred in the future periods could differ materially from the estimates. Additionally, future changes to environmental laws and regulations, life of mine estimates and discount rates could affect the carrying amount of this provision.

NOTES TO THE FINANCIAL STATEMENTS FOR THE QUARTER AND HALF-YEAR ENDED 31 DECEMBER 2022 (CONTINUED)

The Group completed a private placement through the issuance of 3,000,000 non-flow-through shares at a price of \$0.055 per non-flow-through shares for gross proceeds of \$164,690 and 8,835,000 flow-through shares at a price of \$0.066 per flow-through share for gross proceeds of \$582,016.

The Group recorded a flow-through premium liability of \$96,436 on issuance of the flow-through shares. The Group is committed to spend these flow-through funds by December 31, 2023. During the half-year ended December 31, 2022, the Group spent \$91,980 of these flow-through funds and accordingly recorded a premium recovery of \$15,330 on the statement of profit or loss and other comprehensive income and a flow-through premium liability of \$81,521 as at 31 December 2022.

The Group incurred \$1,026,097 of capital raising costs. The Group issued 16,618,450 unlisted options valued at \$592,116 to brokers for their services for the capital raisings during the half-year and accordingly recorded as a non-cash capital raising cost. Refer to Note 9 for further disclosure regarding the valuation of the unlisted options.

NOTES TO THE FINANCIAL STATEMENTS FOR THE QUARTER AND HALF-YEAR ENDED 31 DECEMBER 2022 (CONTINUED)

Options

During the half-year, the Group granted 128,358,062 options, with a total fair value of \$656,837. This include the following:

- 1,600,000 options to management personnel as part of an option incentive plan, with a total fair value of \$64,721.
- 110,139,612 listed options issued as free-attaching options in connection with the entitlement offer in September.
- 16,618,450 listed options were issued to brokers, for services provided, with a total fair value of \$577,895.
- 618,450 options were issued to brokers, for services provided, with a total fair value of \$14,221.

For the options issued during the half-year, a Black Scholes valuation model was used with the valuation model inputs used to determine the fair value at the grant date as follows:

Grant date	Expiry date	Share	Exercise price	Expected volatility	Risk	Dividend yield	Number of Options	Value	Total Value	Vesting terms

NOTES TO THE FINANCIAL STATEMENTS FOR THE QUARTER AND HALF-YEAR ENDED 31 DECEMBER 2022 (CONTINUED)

10. Commitments for expenditure

Capital

There are no capital commitments at 31 December 2022 (30 June 2022: nil).

Exploration and evaluation

The Group is required to maintain current rights of tenure to tenements, which require outlays of expenditure in future financial periods. Under certain circumstances, these commitments are subject to the possibility of adjustment to the amount and/or timing of such obligations, however they are expected to be fulfilled in the normal course of operations.

	31 December 2022	30 June 2022
	\$	\$
The Group has tenement rental and expenditure commitments payable of:		
- Not later than 12 months	243,654	239,190
- Between 12 months and 5 years	1,606,023	1,586,111
- More than 5 years	583,070	681,513
	<u>2,432,747</u>	<u>2,506,814</u>

Flow-through exploration expenditure

During the half-year, the Group issued 8,835,000 flow-through ordinary shares to raise \$582,016 (before costs). As at 31 December 2022, \$489,126 remains unspent. The Group has a commitment to expend these funds by 31 December 2023.

11. Dividends

There were no dividends paid, recommended or declared during the half-year.

12. Events after the reporting date

On 23 January 2023, Mr. Colin Russell was appointed as Non-Executive director effective from 21 January 2023.

Management are not aware of any matters or circumstances that have arisen since the end of the half-year which significantly affected or may significantly affect the operations of the Group the results of those operations, or the state of affairs of the Group in future financial years.

13. Contingent assets and liabilities

Contingent assets

The Group had no contingent assets as at 31 December 2022 and 30 June 2022.

Contingent liabilities

The Group acquired a 100% interest in No. 75 Corporate Ventures Ltd in the prior year. No. 75 Corporate Ventures Ltd holds 100% interest in the rights over the Blackdome project in Canada. There is significant uncertainty as to what future liabilities will arise in relation to potential closure and rehabilitation costs, contingent on determination of costs through completion of the closure and reclamation plans required by the Ministry of Energy, Mines and Low Carbon Innovation (EMLCI) in Canada. All known costs that currently can be reliably measured have been recognised in provisions as disclosed in Note 5(b). The outcome and costs resulting from the approved rehabilitation plan as required by Ministry of Energy, Mines and Low Carbon Innovation (EMLCI), cannot be measured sufficiently at this time.

The Group's subsidiary, Condor Gold S.A., recognised a claim for tax liabilities in regards to a portion of the Rio Zarza licence that was sold by Condor Gold pre acquisition. There is significant uncertainty as to what future liabilities will arise in relation to this claim as the matter is still preliminary and is contingent on the outcome determined by the courts, affecting the amount required to settle the claim which cannot be measured with sufficient reliability at this time. All known costs that currently can be reliably measured have been recognised as a liability, as disclosed in Note 5(a). As more information is obtained regarding the claim from the courts, judgements and estimates may increase or decrease the possible impact on the Group's financial statements.

The Group had no other contingent liabilities as at 31 December 2022 and 30 June 2022.
