## DIABLO RESOURCES LIMITED AND ITS CONTROLLED ENTITIES

### DIRECTOR'S REPORT

---

Your directors present their interim report on the Group comprising Diablo Resources Limited (the "Company") and its controlled entities ("the Group") for the half-year ended 31 December 2022.

#### Directors

The names of the directors in office at any time during, or since the end of, the period are as follows. Directors have been in office since the start of the period to the date of this report unless otherwise stated.

Mr Paul Lloyd (Non-Executive Chairman)  
Mr Barnaby Egerton-Warburton (Non-Executive Director)  
Mr Greg Smith (Non-Executive Director)

#### Principal Activities

The principal activity of the Group during the year was the exploration for gold, focusing on the Devil's Canyon Gold Project, Lone Pine Gold Project and Western Desert Gold-Copper Project in the USA. No significant change in the nature of these activities occurred during the period.

#### Review of Operations

The consolidated loss of the consolidated group for the financial period after providing for income tax amounted to \$3,970,397 (2021: \$404,798).

##### *Devils Canyon Gold-Copper Project*

Detailed geological mapping over the project area was completed. The mapping aimed to identify key structural and alteration zones within the project areas as well as defining areas amenable to soil sampling.

An orientation soil programme was completed over the Southside area to assess the effectiveness of soil sampling in an area where shallow prospecting pits were located. A total of 38 samples were collected on a 100m x 100m and 100m x 50m grid spacing. The results have identified a Au-Cu-Ag geochemical signature associated with magnetic highs close to the intrusive-limestone contact interpreted to be skarn-style mineralisation.

Rock sampling was also completed at a number of areas with highly anomalous results received. A total of 44 rock samples were collected.

##### *Western Desert Project*

Detailed geological mapping was completed over priority areas within the Western Desert project, namely the A3, A3N and Copper Blossom Prospects. The mapping has identified prospective structural trends in areas where anomalous geochemical results have been returned, most notably the A3N "Splay Zone" and the "Creek Fault" to the east of drill hole WD005 completed in early 2022.

A geochemical sampling program was completed at the A3N Prospect where anomalous rock samples assayed up to 0.9 g/t Au with associated Carlin-style pathfinder element anomalism. A total of 108 soil samples were collected along a 100m x 50m grid over some 900m of strike. A low level gold anomaly associated with a structural target identified in the detailed mapping was identified, and is also proximal to the anomalous rock samples. Carlin style pathfinder elements including As, Sb, Ba, Hg and Tl also show a correlation to the "Splay Zone", where north easterly trending faults intersect a northerly trending interpreted thrust fault.

As exploration results to date have not been sufficiently positive to warrant further work on this project, the Company has impaired the carrying value of \$3,676,876 as at 31 December 2022.

##### *Lone Pine Project*

Drilling was postponed during the 2022 field season due to a large forest fire that closed the area in July.

An initial drill program of 8 holes for 2,000m is planned in the 2023 field season at the LPVZ and King Solomon. Drilling will be HQ3 diamond core to allow a larger sample size, as historical drilling identified coarse gold in the mineralised zones.

#### Significant Changes in the State of Affairs

There were no significant changes in the Company's state of affairs during the financial period.

#### Events Subsequent to the End of the Reporting Period

No matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**(a) Basis of preparation**

The interim consolidated financial report is a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001 and Accounting Standard AASB 134: Interim Financial Reporting. Compliance with AASB 134 ensures that the financial report and notes also comply with International Financial Reporting Standards IAS 34: Interim Financial Reporting.

It is recommended that this consolidated interim financial report be read in conjunction with the annual financial report for the year ended 30 June 2022 and any public announcements made by Diablo Resources Limited and its controlled entities (the "Group") during the half-year in accordance with the continuous disclosure requirements arising under the Corporations Act 2001 and ASX Listing Rules.

The interim consolidated financial report does not include full disclosures of the type normally included in annual financial reports.

The interim consolidated financial report has been prepared on an accruals basis and is based on historical cost. Cost is based on the fair value of the consideration given in exchange for assets.

Both the functional and presentation currency of the Company is Australian dollars.

The interim financial statements were authorised for issue on 21 February 2023.

**(b) Statement of compliance**

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial statements and notes comply with International Financial Reporting Standards (IFRS).

**(c) New accounting standards and interpretations**

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

*Standards and Interpretations applicable to 31 December 2022*

In the period ended 31 December 2022, the Directors have reviewed all the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current reporting period. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Group and, therefore, no material change is necessary to Group accounting policies.

*Accounting standards and interpretations issued but not yet effective*

Certain Australian Accounting Standards and Interpretations have recently been issued or amended but are not yet effective and have not been adopted by the Company for the reporting period ended 31 December 2022. The Directors have not early adopted any of these new or amended standards or interpretations. The Directors have not yet fully assessed the impact of these new or amended standards (to the extent relevant to the Company) and interpretations.

To the members of Diablo Resources Limited

### **Report on the Condensed Half-Year Financial Report**

#### *Conclusion*

We have reviewed the accompanying half-year financial report of Diablo Resources Limited ("the company") which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration, for the Group comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Diablo Resources Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### *Basis for conclusion*

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

#### *Responsibility of the directors for the financial report*

believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit.
