About Pentanet

Pentanet is a Perth-based, growth-focused telco delivering high-speed internet to a growing number of subscribers by providing them with next-generation internet speeds. This is achieved through Pentanet's market-leading private fixed-wireless network, the largest in Perth, as well as reselling fixed-line services such as NBN, where its wireless is not yet available.

Pentanet's flagship fixed wireless network has benefits for both customers and investors, offering an outstanding customer experience and a fixed-wireless product that is technically superior to most of the NBN – with attractive margins for investors. This sets Pentanet apart from most broadband providers, which only resell the NBN.

Pentanet is also part of the rollout of the next wave of subscription-based entertainment services – cloud gaming. The Company's Alliance Partner Agreement with NASDAQ listed NVIDIA – one of the world's largest producers of specialised graphic chips used in gaming – allows Pentanet to be the first to bring their GeForce NOW technology to Australia in 2021.

Pentanet was listed as #28 in the Deloitte Technology Fast 500™ Asia Pacific 2020, a ranking of the region's 500 fastest growing technology companies. On top of the Company's #28 overall ranking, Pentanet also ranked #3 for Australian companies on the list.
