

PODIUM APPOINTS MS JUSTINE LEA AS CFO

Podium Minerals Limited (ASX: POD, 'Podium' or 'the Company') is pleased to announce the appointment of Ms Justine Lea as Chief Financial Officer (CFO) with effect from 14 September 2022.

Ms Lea is a Chartered Accountant, a Graduate of the Australian Institute of Company Directors and holds a bachelor's degree in commerce. Ms Lea's 20-year career has focused on the mining industry, where she recently held executive and operational roles with ASX-listed Emeco Holdings Limited ("Emeco"). In her roles of CFO and Chief Integration Officer (CIO) of Emeco, she demonstrated proven experience in business growth, debt and capital markets, accounting and finance, risk and compliance, acquisitions, and integration.

Managing Director and CEO - Sam Rodda commented,

"I am very pleased to welcome to the Podium team Justine, who brings proven performance, values, drive, and a broad range of experiences from throughout her career that will significantly complement our existing team."

Justine's success in the mining services sector in financial and operational executive roles supports our existing leadership team at a time where we are looking to rapidly evaluate and progress our Parks Reef project, through the study and growth phases, into development."

This announcement has been approved for release by the Board of Podium Resources Limited.

ABOUT PODIUM MINERALS LIMITED

Podium Minerals Limited (ASX: POD) is planning to become Australia's first platinum group metals (PGM) producer. The significant scale and grade of the Parks Reef Resource provides Podium the opportunity to support an emerging and responsible Australian critical metals mining industry.

The Parks Reef 5E PGM Project is a 15km long platinum group metal deposit which also contains gold and base metal (Cu + Ni) mineralisation. The orebody commences near surface and to date has been proven to continue to approximately 500m vertical depth, which remains open and shows consistency with near surface geology.

The location of Parks Reef in a mining friendly jurisdiction in Western Australia provides a unique opportunity secure an alternative and reliable platinum group metals supply to meet increasing global demand for decarbonised technologies that require PGMs (autocatalysts and hydrogen energy/fuel cell catalysts).

A successful and highly motivated technical and development team is accelerating Podium's strategy to prove and develop a high-value, long-life Australian PGM asset.
