About Pentanet

Pentanet (ASX: 5GG) is a Perth-based telecommunications cloud gaming provider delivering next-generation internet services and online experiences to a growing number of subscribers.

The Company's market-leading private network is the largest in Perth, delivering benefits for both customers and investors through outstanding customer experience and products that are technically superior to most of the nbn™ – with attractive margins for investors. This sets Pentanet apart from most broadband providers, which only resell the nbn™. With the network nearing capacity due to its popularity in Perth, the Company's focus is now the development and deployment of neXus — Pentanet's next-generation wireless mesh network.

In 2021, Pentanet partnered with global tech giant NVIDIA (NASDAQ: NVDA) to democratise Australian access to cloud gaming and became the sole provider of NVIDIA's premier cloud gaming platform in Australia, co-branded GeForce NOW Powered by Pentanet. GeForce NOW as a product offering aligns with Pentanet's evocative brand and gamer-focused identity, but the platform offers an added benefit in complementing the Company's expanding internet services and its vision for a better connected Australia.

Pentanet was ranked #28 in the Deloitte Technology Fast 500™ Asia Pacific list of the region's 500 fastest growing technology companies in 2021, the third-highest rank achieved by an Australian company. The Company also ranked #19 in the 2021 AFR Fast Starters list of fastest-growing start-ups in Australia and #30 on the Deloitte Technology Fast 50 Australia 2022.
