

THETA GOLDMINES LIMITED
ANNUAL GENERAL MEETING
November 28, 2023

FS to recover 1.08Moz Au over 12.9 years LOM at TGME underground mine.

6.1Moz Gold Resource and Growing

FORWARD LOOKING AND CAUTIONARY STATEMENTS

This presentation may refer to the intention of Theta Gold Mines regarding estimates or future events which could be considered forward looking statements. Forward looking statements are typically preceded by words such as “Forecast”, “Planned”, “Expected”, “Intends”, “Potential”, “Conceptual”, “Believes”, “Anticipates”, “Predicted”, “Estimated” or similar expressions. Forward looking statements, opinions and estimates included in this announcement are based on assumptions and contingencies which are subject to change without notice, and may be influenced by such factors including but not limited to funding availability, market-related forces (commodity prices, exchange rates, stock market indices and the like) and political, environmental or economic events (including government or community issues, land owners, global or systemic events). Forward looking statements are provided as a general reflection of the intention of the Company as at the date of release of the document, however are subject to change without notice, and at any time. Future events are subject to risks and uncertainties, and as such results, performance and achievements may in fact differ from those referred to in this announcement. Mining, by its nature, and related activities including mineral exploration, are subject to a large number of variables and risks, many of which cannot be adequately addressed, or be expected to be assessed, in this document. Work contained within or referenced in this report may contain incorrect statements, errors, miscalculations, omissions and other mistakes. For this reason, any conclusions, inferences, judgments, opinions, recommendations or other interpretations either contained in this announcement, or referencing this announcement, cannot be relied upon. There can be no assurance that future results or events will be consistent with any such opinions, forecasts or estimates. The Company believes it has a reasonable basis for making the forward looking statements contained in this document, with respect to any production targets, resource statements or financial estimates, however further work to define Mineral Resources or Reserves, technical studies including feasibility studies, and related investigations are required prior to commencement of mining. No liability is accepted for any loss, cost or damage suffered or incurred by the reliance on the sufficiency or completeness of the information, opinions or beliefs contained in this announcement.

The Feasibility Study referred to in this announcement is based on technical and economic assessments to support the estimation of Ore Reserves. There is no assurance that the intended development referred to will proceed as described, and will rely on access to future funding to implement. Theta Gold Mines believes it has reasonable grounds the results of the Feasibility Study. At this stage there is no guarantee that funding will be available, and investors are to be aware of any potential dilution of existing issued capital. The production targets and forward looking statements referred to are based on information available to the Company at the time of release, and should not be solely relied upon by investors when making investment decisions. Theta Gold cautions that mining and exploration are high risk, and subject to change based on new information or interpretation, commodity prices or foreign exchange rates. Actual results may differ materially from the results or production targets contained in this release. Further evaluation is required prior to a decision to conduct mining being made. The estimated Mineral Resources quoted in this release have been prepared by Competent Persons as required under the JORC Code (2012). Material assumptions and other important information are contained in this release. The Company confirms that all material assumptions underpinning the production target, or the forecast financial information derived from the production target continue to apply and have not materially changed from that released in the definitive Feasibility Study released to ASX on 27 July 2022.

NOTE BUSINESS ARRANGEMENT

Theta Gold Mines holds 100% issued capital of its South African subsidiary Theta Gold SA (Pty) Ltd (“TGSA”). TGSA holds a 74% shareholding in both Transvaal Gold Mining Estates Limited (“TGME”) and Sabie Mines (Pty) Ltd (“Sabie Mines”). TGME holds the various exploration and mining permits. The balance of shareholding is held by Black Economic Empowerment (“BEE”) entities. The South African Mining Charter requires a minimum of 26% meaningful economic participation by the historically disadvantaged South Africans (“HDSAs”). The BEE shareholding in TGME and Sabie Mines is comprised of a combination of local community trusts, an employee trust and a strategic entrepreneurial partner.

DISCLAIMER AND COMPETENT PERSONS STATEMENT

DISCLAIMER

This announcement or presentation has been prepared by and issued by Theta Gold Mines Limited (ASX:TGM | OTCQB: TGMGF) to assist in informing interested parties about the Company and should not be considered as an offer or invitation to subscribe for or purchase any securities in the Company or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this announcement.

This announcement or presentation may contain forward looking statements. Whilst Theta Gold Mines has no reason to believe that any such statements and projections are either false, misleading or incorrect, it does not warrant or guarantee such statements. Nothing contained in this announcement constitutes investment, legal, tax or other advice. This overview of Theta Gold Mines does not purport to be all inclusive or to contain all information which its recipients may require in order to make an informed assessment of the Company's prospects. Before making an investment decision, you should consult your professional adviser, and perform your own analysis prior to making any investment decision. To the maximum extent permitted by law, the Company makes no representation and gives no assurance, guarantee or warranty, express or implied, as to, and take no responsibility and assume no liability for, the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omissions, from any information, statement or opinion contained in this announcement. This announcement contains information, ideas and analysis which are proprietary to Theta Gold.

COMPETENT PERSONS STATEMENT

The information in this report relating to mineral resources and ore reserves is based on, and fairly reflects, the information and supporting documentation compiled by Mr Uwe Engelmann (BSc (Zoo. & Bot.), BSc Hons (Geol.), Pr.Sci.Nat. No. 400058/08, MGSSA), a director of Minxcon (Pty) Ltd and a member of the South African Council for Natural Scientific Professions and Mr Daniel van Heerden (B.Eng (Mining M.Com (Business Management)), member of Engineering Council of South Africa (Pr.Eng. Reg. No. 20050318)), a director of Minxcon (Pty) Ltd and a fellow of the South African Institute of Mining and Metallurgy (FSAIMM Reg. No. 37309).

The original reports titled “Theta Gold Increases Mineral Resource to over 6Moz” dated 16 May 2019, “Optimised Mine Schedule for Theta Open Pit Starter Project Delivers Significant Improvements” dated 20 April 2020 and “Initial Maiden Underground Mining Reserve 419,000 oz Gold” dated 8 April 2021 were released to the Australian Securities Exchange (ASX) on those dates. The Company confirms that:

- it is not aware of any new information or data that materially affects the information included in the ASX announcements; and
- all material assumptions and technical parameters underpinning the estimates in the ASX announcements continue to apply and have not materially changed.

AUTHORISATION

This announcement was authorised for release by the Board of Theta Gold Mines Limited.

Significant Milestones

- Feasibility Study (FS) completed underpinning an initial 12.9-year mine life to deliver up to free cash flows of up to US\$500m and 1.24Moz contained gold production;
- Execution of A\$110m (US\$70m) non-binding Term Sheet (“TGME Stream”) signed with Sprott Streaming and Royalty (Sprott) for pre-development, development capital and operating expenditure to bring the TGME Gold Project into production subject to completion of due diligence;
- Granted a Water Use License (WUL) for Frankfort mine by the South African Department of Water and Sanitation (DWS) resulting in Frankfort being fully permitted.
- Received the Water Use License for its TGME Gold Project over Mining Right 83 from the Department of Water and Sanitation (DWS) of South Africa
- Received blasting license approval to underground blasting operations at Frankfort mine;
- Frankfort Mine commercial bulk sample mining preparation and operations initiated with drill and blast options underway for the first delivery of 3,000 tones;
- Final Environmental Authorisation (EA) received for Mining Right 83 from the Department of Mineral Resource and Energy (DMRE) of South Africa

Refer to ASX Release dated 26 July 2023 Final Environmental Authorisation Granted MR83

Refer to ASX Release dated 19 July 2023 Drill and Blast of Frankfort Gold Mine Commences

Refer to ASX Release dated 15 May 2023 titled, “Operational Update”.

Refer to ASX Release dated 11 April 2023 Theta Receives Water Use Licence for Mining Right 83

Refer to ASX Release dated 2 November 2022 Water Use License Granted for the Frankfort Mine

Refer to ASX Release dated 19 October 2022 Theta Gold executes A\$110M Term Sheet with Sprott

Refer to ASX Release dated 27 July 2022 Theta Gold’s TGME Project DFS confirms NPV of AUD432 Million.

Theta Gold expected Catalysis 2024

- Execution Plan Theta Underground Project
- Commencement of trucking of bulk sample from Frankfort mine
- Permitting completion for Mining Right 83 (EIA)
- Completion of Sprott due diligence → Binding Streaming Agreement
- Commercial Bulk Sampling – Metallurgical Results
- Early Cashflow Options
- Project fully funded
- Final Investment Decision (FID)
- Construction Commencement

Note: First gold produced timing will be subject to securing funding and obtaining all necessary regulatory permitting approvals.
DFFE -Forestry permits for the continuation of mining are in progress – refer to ASX Release dated 18 July 202

Reviving South Africa's first gold rush

- Theta Gold Mines South Africa Gold Mine developer
- 6 M oz of High-grade Gold under management (One of the largest Resources bases on ASX held by Junior)
 - The Kirkland Lake Strategy- Back to First Gold Rush for the next generation of mines.
 - 43 Historical Mine /620 km² of Goldfield/ kms of gold reefs
 - First four Mines to generate over ½ Billion USD Free Cash post Tax
 - High margin low-cost project AISC \$834 USD (A\$1112) (Bottom quartile of costs)
 - Gold Discovery costs less than 12 USD per Gold ounce
 - Not a typical South Africa/ provincial location with a small population
 - The local people, our shareholders Signed petitions and lobbied Government for the Project
 - ESG –Environmental offsets and Small Foot Print/Community Forums/ Local Jobs

This is where South Africa's gold mining industry began 130 years ago, and we're bringing this large, rich, shallow, predeveloped goldfield back to life.

Theta Gold Highlights

- **High Growth Gold Investment Opportunity**
 - **Existing Historic Goldfield** - Multiple pre-developed, shallow, high grade historic gold mines – ready to be brought back into production
 - **Large, Growing Resource** - 6.1Moz gold resource @ 4.17g/t and continuously growing, with more than 40 other existing pre-developed shallow underground mines not yet reflected in the stated resource (Underground 4.5 Mt reef grade 14.68 -15.93g/t)
 - **Low Capital Start-up** - < US\$100m capital required to reach >90koz/a within 2 years
 - **Organic Growth** - Self-funded expansion to >160koz within 5 years
 - **Lowest-Cost Quartile Producer** - Forecasted operating cost half the current gold price (<US\$900/oz) to become the lowest cost producer in South Africa and Australia
 - **Competent Execution Team** - Executive team that have successfully developed and optimised many mines in South Africa and other developing countries
 - **Execution-Ready** - FS completed with full front-end engineering designs (FEED)¹ – ready for execution²
 - **Funding** – Non-binding funding Term Sheet executed with Sprott Streaming and Royalty Corporation for up to US\$70m stream funding arrangement to bring the TGME Gold Project into production.

1. Refer to ASX Release dated 20 June 2022 “TGME Underground Gold Update”

2. Refer to ASX Release dated 27 July 2022 “Theta’s TGME Project Definitive FS Confirms NPV10% of A\$432 million at US\$1,642 oz Gold price”

3. Refer to ASX Release dated 19 October 2022 “Theta Gold executes a A\$110m (US\$70m) non-binding funding Term Sheet with Sprott for its TGME Gold Project”

South Africa's "Newest" Gold Field

The Transvaal Gold System sits geological on the eastern side of Bushveld Complex the largest layered igneous intrusion on earth. Our goldfield already produced ~7Moz Au since 1870s. Theta have generated and delivered one of the largest undeveloped gold resources 6.1Moz on the ASX, a "NEW" kid on the block.

SA host the 3rd largest gold reserves in the world, mostly within this Witwatersrand gold field region (~6,000T Au)

Key FS Takeaways¹

Theta Gold Mines Limited, controls the Eastern Transvaal Gold Fields, where South Africa's gold mining industry began almost 130 years ago.

Project Life of Mine schedule contained Gold 1.24Moz to recover 1.08Moz.

Project Life
12.9 years

Underground ore mined
6.46Mt @ 5.95g/t Au for 1.24Moz of contained gold

Peak Funding Requirements
US\$ 77M²

Metallurgical Recovery
87%

Payback Period
Start of Project – 31 Months
Start of Mining – 18 Months

Pre-Tax NPV 10%
US\$324m @ Avg USD/oz \$1,642
IRR of 65%

AISC
US\$788oz (Year 1-4)
US\$847/oz (LOM)

¹Feasibility figures to refer to ASX Release dated 27 July 2022 "FS Confirms NPV_{10%} of A\$432 million at US\$1642/oz Gold Price

²TGM is currently in discussion with debt financiers and has engaged an experienced debt advisory to assist in the negotiation of term-sheets for funding of the Project. Further equity raises are also planned to fund working capital and part of the project capital if required, which may lead to dilution to existing shareholders.

³First gold produced timing will be subject to securing funding

Incorporating only 4 of more than 40 previously developed mines

- Initial startup Feasibility Study (FS) completed in July 2022¹ to produce 1.24Moz Gold with a FS Life of Mine of 12.9 years.
- Strong support from stakeholders, including local NGOs, farmers, neighboring enterprises, government departments, final Environmental Impact Assessment and Water Use License pending.
- Very significant ESG Initiatives and Coverage:
 - Environmental offsets offered with a portion of project cashflow to fund the improvement of the township, local river and general landscape, and
 - A project designed to have a very small surface footprint – already existing plant zoning, existing TSF, designed for future underground tailings deposition, and
 - Regular Community Forums and the long needed local jobs creations as we will be the only commercial mining operator within the local area.

1. Refer to ASX Release dated 27 July 2022 “Theta’s TGME Project Definitive FS Confirms NPV10% of A\$432 million at US\$1,642 oz Gold price”

2. Refer to ASX Release dated 19 October 2022 “Theta Gold executes a A\$110m (US\$70m) non-binding funding Term Sheet with Sprott for its TGME Gold Project”

Assess other >40 old mines, expand reserves through on-reef exploration, development and drilling on operating mines and new exploration targets

6 UG Mines targeted first out of potential > 40

Permitting the next phase of Mines

- Exploration Program
- Underground sampling
 - Surface drilling

Solid Growth Potential

- Pre-construction
- Surface footprint
 - Underground rehabilitation
 - Operational readiness

- Commercial Bulk Sampling
- 3 000 tons

- Targeting Increase in Ore Reserves
- JORC update

Note: Subject to exploration success

- Provincial location with a small population
- The local people, our stakeholders, lobbied government for the Project
- ESG – Environmental offsets and Small Footprint, Community Forums, Local Jobs created
- First four Mines to generate over ½ Billion USD Free Cash post Tax
- High margin low-cost project AISC US\$834 (A\$1,112) (Bottom quartile among gold producers)
- Gold Discovery costs less than US\$12 per ounce
- 43 Historical Mines 620km² of Goldfield
- Kilometers of extended gold reefs

South Africa’s gold mining industry began 130 years ago, and we’re bringing this large, rich, shallow, predeveloped goldfield back to life.

FS – Key Metrics Base/Ore Reserve Cases

Description	Units	Base Case	Ore Reserve Case
Project Targeted Start Date	Quarter-yyyy	Q1 2023	Q1 2023
Commercial Production Start Date	Quarter-yyyy	Q2 2024	Q2 2024
Production build up period	Months	14	14
Life of mine	years	12.9	7.3
Underground ore mined (LOM)	Mt	6.46	2.85
Mined Grade	g/t	5.95	6.09
Gold Mined (LOM)	Moz	1.24	0.56
Production Rate	Kt/a	540	540
Production Rate	Kt/m	45	45
Grind size	μ	106	106
Gold recovered (average LOM)	%	87	87
Gold recovered (LOM)	Moz	1.08	0.49

Cautionary Statement for the LOM Base Case – The Base Case is presented as potential upside to the Project. However, the Base Case is supported by a significant portion of Inferred Mineral Resources. Inferred Mineral Resources inherently have a lower level of confidence and although it would be reasonable to expect that the majority of Inferred Mineral Resources would upgrade to Indicated Mineral Resources with continued exploration, it should not be assumed that such upgrading will occur. The realization of the full potential of the Base Case as presented thus cannot be guaranteed.

Start date will be subject too securing necessary funding and approval of regulatory permits.

FS - Operating Costs in Dollar per Ton (Project over LoM)

Operational Cost	AUD/Milled tonne	USD/Milled tonne
Mine Cost	96	72
Plant Costs	41	31
Other Costs	20	15
Royalties	15	11
Adjusted Operating Costs	172	128
Renewals and Replacements	8	6
Reclamation	3	2
Off-mine Overheads	4	3
All-in Sustaining Costs (AISC)	187	139

- Adjusted Operating Costs against the milled tonnes per year
- The increase in feed tonnes in years 9 to 12 is due to Frankfort mine being mined, and the tonnes reflected are prior to the Density Media Separation.

Average AUD:USD conversion rate for Adjusted Operating Costs is 1.333
 Average AUD:USD conversion rate for All-in Sustaining Costs (AISC) is 1.333
 Average ZAR:USD conversion rate for Adjusted Operating Costs is 15.52
 Average ZAR:USD conversion rate for All-in Sustaining Costs (ASIC) is 15.50

- Phase 1 of the processing plant will be capable of milling 45kt/m
- This phase of the process plant will be utilized for the first 7 years of the LoM
- Ore to the plant from Beta and Rietfontein Mines
- Initial Plant build cost of US\$ 63.8m
 - Free Milling Plant US\$22.1
 - Underground Deposition Plant US\$10.1m
 - Water management US\$3.6m
 - Electrical, Civils, earthworks, and Structural US\$27.9m

LEGEND:
 • PHASE 1 - - - - -

Individual Mine Metallurgical Test Work	% of 1.24M Oz into Mine Schedule	Test Work Recovery	DFS Recovery Used	Comments
Beta	60.4%	87-95%	88%	<ul style="list-style-type: none"> Beta showed to be amenable to conventional CIL processing with 86-95% recoveries
Rietfontein	27.3%	88-93%	90%	<ul style="list-style-type: none"> Rietfontein showed to be amenable to conventional
Frankfort	7.4%	61-82%	69%	<ul style="list-style-type: none"> 82% CIL recovery of sulphide flotation 61% CIL recovery on sulphide float tails
CDM	4.9%	93-95%	88%	<ul style="list-style-type: none"> Dukes from CDM orebody indicated total recoveries of 93% and higher with combined flotation and CIL processing

- Additional Metallurgical test work is currently ongoing on all the Mines with the objective to improve on the current recovery grades.
- Average gold recovery rate is 87.1%.

ESG IS INTEGRAL TO THE DEVELOPMENT STRATEGY AND IS BASED ON:

- Holistic risk management
- Zero harm approach to health and safety
- Environmental stewardship
- Conservation of biodiversity
- Responsible production practices
- Positive impact on host communities
- Transparent stakeholder engagement and reporting

ENVIRONMENT

- Creating regional Environmental Development Trusts for alien invasive plants removals
- Establish nature reserves and targeted environmental study programs

SOCIAL

- 26% of project ownership held by local labour force, host communities and strategic black entrepreneur partners
- Projects structured for broad based economic participation
- Alleviation of poverty
- TGME will be the biggest employer in the area

GOVERNANCE

- Ethical business practices
- Culture of high ethical standards throughout the organisation

Combined Minerals Resource Statement (~6.1Moz)

Resource Classification	Type of Operation	Combined Mineral Resource			
		Tonnage	Gold Grade	Gold Content	
		Mt	g/t	Kg	koz

2. Fault losses of 5% for Measured and Indicated, 10% for Inferred Mineral Resources.
3. Gold price used for the cut-off calculations is USD1,500/oz.
4. cm.g/t and g/t figures will not back calculate due to variable densities in reef and waste rock.
5. Mineral Resources are stated as inclusive of Ore Reserves.
6. Mineral Resources are reported as total Mineral Resources and are not attributed.

Mineral Resource Statement – Underground Only (~4.5Moz)

Notes:

1. Mineral Resource cut-off of 0.5 g/t and 0.35 g/t applied.
2. Fault losses of 5% for Measured and Indicated, 10% for Inferred Mineral Resources.
3. Gold price used for the cut-off calculations is USD1,500/oz.
4. Vaalhoek, Theta Hill, Browns Hill and Iota Mineral Resources stated utilising pit optimisation.
5. Mineral Resources are stated as inclusive of Ore Reserves.
6. Mineral Resources are reported as total Mineral Resources and are not attributed.

Board of Directors

Bill Guy	Executive Chairman (Economic Geology)
Richie Yang	NED (Corporate Finance)
Bryon Dumbleton	NED (Resource Geology)
Brett Tang	NED (Funds Mgmt)

Senior management & Local Board

Jacques du Triou	Chief Operating Officer (Mining Engineer)
Terence Mokalē	SA Director (Law)
Puseletso Matete	SA Director (ESG)
Brent Hofman	Company Secretary & Financial Controller (AUS)
