

Sale of Bendoc gold lease – Company to focus on promising Uranium deposits in Tanzania

Gladiator Resources Ltd (ASX: GLA) (Gladiator or the Company) is pleased to announce that it has executed the sale of the Bendoc gold lease, its final remaining gold tenement in Australia.

The Bendoc gold lease is located in the Bendoc-Bonang Goldfield in Northeast Victoria.

The lease was acquired by Gladiator in December 2021.

The terms and proceeds of sale are immaterial to Gladiator.

Given the Company's primary focus is on developing a number of exciting uranium deposits in Tanzania, the Board agreed that it divest itself of all existing gold holdings in Australia that are considered non-core to the company's future operations.

Released with the authority of the Board
