### ABOUT MOAB MINERALS

Moab Minerals Limited (ASX:MOM) is an exploration and project development company. The Company is currently focused on the exploration and development of the REX Uranium-Vanadium Project located in the famed UraVAN Mineral Belt of Colorado and a drill program is currently underway. The project is 60% owned by Moab and contains many historic uranium mines including, Blackfoot/Rattlesnake, Wedge, Merry Widow, Sunbeam and Vanadium King that have not been subject to exploration since the 1970's, other than initial sampling by MOM. The Company currently has a drilling program underway and aims to further explore REX through a targeted exploration program.

Moab also acquired an initial 14.64% interest in CAA Mining, an exploration and development company focused on lithium and gold exploration in Ghana, Africa, providing Moab shareholders with an interest in three lithium projects that are complementary to its existing assets, expanding its business as a junior exploration company.

The Company has also holds the Highline Copper-Cobalt Project in Southern Nevada, as well as The Woodlands and Mt Amy Projects in Western Australia.
