About HITIQ

Whether what our customers do is a profession or a passion, HITIQ has an evidenced-based brain care solution personalised to their needs. Our promise is to precisely measure and help support the highest level of care when our customers' brains experience an impact.

We do this via our world-class Nexus Solution. A suite of tools from a sensor-enabled custom fit mouthguard to AI-enabled data analytics interface and, best in class return to play/work support software. This technology is keeping thousands of professional and amateur sports players in control of their performance, along with putting the power back in their hands when it comes to caring for their brains.

Our customers include the Australian Football League (AFL), English Premier League (EPL), and the National Rugby League (NRL), along with numerous other teams in a variety of sporting codes. We also service universities and research organisations studying the impacts (both short and long-term) of repeat head impacts.

Safely play on, with HITIQ.
